studies by Jürgen von Grone, Jens Heisterkamp and Johannes Tautz      Zodiac Gertraud Goodwin, 2019-11-12 From ancient times people had knowledge of the zodiac's intimate involvement in the creation of physical life. They understood that the twelve realms of constellations of fixed stars in the sky emanated specific forces that were brought to life and movement by the planets. These spiritual energies created and formed all living beings on earth, including of course the human being. This traditional awareness has been reenlivened and given new meaning in our time through Rudolf Steiner's anthroposophy. Steiner gave specific indications involving twelve individual gestures and colours that depict the forces of the twelve zodiacal regions. In this richly illustrated collation of original artistic research which features exciting new work on the zodiac via the mediums of sculpture, graphics and painting, these new insights are explored and illumined in twenty-seven essays and numerous full-colour images. Led by editor Gertraud Goodwin, the various contributing artists offer a rich tableau of authentic individual approaches to understanding the zodiac, throwing light on the vast realm of creative forces around us whilst acknowledging their primary source. From the many relationships to other qualities like the consonants, virtues, areas of the human body, colours, eurythmy, gestures, elements, earth, water, air, fire, musical keys and many more in which the zodiacal forces express themselves as if through different instruments, a harmony begins to emerge which informs me of an ever rounder picture of one particular force of the Zodiac. Gertraud Goodwin      *Conversations about Painting with Rudolf Steiner* Peter Stebbing, 2008 The purpose of this illustrated volume of first-hand recollections is to increase appreciation in the world for Rudolf Steiner's artistic contributions to modern culture. The authors represented in *Conversations about Painting with Rudolf Steiner* offer insights into Steiner's intentions as he responded to artists' questions about the deeper spiritual aspects of painting, color and role of the arts as a whole in culture and society. Peter Stebbing's inspiration for translating these conversations was an early reading of Hilde Boos Hamburger's book on Steiner's new art impulse included here. Through the years Stebbing also came to recognize the importance of other artists who were influenced by Steiner. Margarita Voloschin, for example, describes the inner transformation required of artists who wish to deepen their artistic sensibilities as described by Rudolf Steiner. Henni Geck, though she wrote little on art, is an important figure in this school of artistic renewal through having elicited numerous training sketches from Steiner. Assya Turgenieff was a pioneer artist who worked with stained glass. Her discussion of the artistic approach she used, which incorporated both color and sculpting techniques, can be applied to other visual arts as well. *Conversations about Painting with Rudolf Steiner* is an extraordinary contribution to a deeper understanding of the anthroposophic arts. Richly illustrated, this volume will warrant serious study and frequent rereading and browsing. A great book for the coffee table.
