Pioneers of Amphibious Warfare, 1898-1945 Leo J. Daugherty III, 2009-06-08 The planning that allowed for the successful amphibious landings at the end of World War II actually began during the 1880s as the Marine Corps sought to define its role in the new Steel Navy Officers braved skepticism indifference and outright opposition to develop an amphibious warfare doctrine with each service contributing From the 1898 war with Spain through the disastrous 1915 Australian landing to the successful World War II assaults in the Pacific and northwest France this chronological history explores the successes and failures pivotal to the concept of amphibious warfare through the lives and careers of fourteen officers instrumental to its development Profiles include General George S Patton Jr Rear Admiral Walter C Ansel USN Lieutenant General John A Lejeune USMC Admiral William Sims USN and Colonel Robert W Huntington USMC **The 4th Marine Brigade at Belleau Wood and Soissons** J. Michael Miller, 2020-06-29 The battles of Belleau Wood and Soissons in June and July of 1918 marked a turning point in World War I and in the stature of the US Marine Corps whose fighting proved so critical in repelling the Germans that the French would later rename Belleau Bois de la Brigade de Marine In this book J Michael Miller a historian of the Marine Corps and veteran chronicler of battle takes us to the battlefields of Belleau Wood and Soissons immersing us in the experience of a single brigade of marines at the forefront of the fighting Through a close up look at the doughboys singular impact on Allied victory in 1918 his work illuminates America s bloody sacrifice during World War I The 4th Marine Brigade at Belleau Wood and Soissons for the first time treats these two battles as one campaign and demonstrates why it is impossible to fully understand one without the other Miller outlines the company and platoon levels of combat throughout the campaign establishing a basic tactical understanding of the fighting he also draws on letters diaries memoirs and interviews to create a vivid and personal reconstruction of the battles His use of French and German sources also a first adds unprecedented insights to this boots on the ground account The book includes detailed mapping of both

battlefields with a thirty six stop guide linking the text with the actual terrain For each of these stops Miller gives GPS coordinates to provide a virtual tour of the sites he discusses With its strategic overview and ground level perspective Miller's work suggests a new interpretation and offers a new experience of an iconic moment in American military history and in the story of the Marine Corps

LeJeune Blythe Bartlett,2012-04-15 This well documented and hard hitting biography of the thirteenth commandant of the U S Marine Corps succeeds in converting John A Lejeune from a near mythical figure in corps history to a flesh and blood officer who helped build the service from a small appendage of the U S Navy to an important arm of naval warfare Commandant from 1920 to 1929 when he retired from military service to become president of Virginia Military Institute Major General Lejeune is regarded by many as the man most responsible for the establishment of the modern Marine Corps In capturing the life and times of this visionary leader who directed the corps toward major amphibious operations Merrill Bartlett provides vivid insight into the political and military giants of the era and shows Lejeune to be an adroit player of Washington politics and a shrewd manipulator who marshalled the energies and loyalties of his senior officers to accomplish his vision
