Campbell, 1995-09-07 This is a study of the transplantation of a creed devised by and for African Americans the African Methodist Episcopal Church that was appropriated and transformed in a variety of South African contexts Focusing on a transatlantic institution like the African Methodist Episcopal Church the book studies the complex human and intellectual traffic that has bound African American and South African experience It explores the development and growth of the African Methodist Episcopal Church both in South Africa and America and the interaction between the two churches This is a highly innovative work of comparative and religious history Its linking of the United States and African black religious experiences is unique and makes it appealing to readers interested in religious history and black experience in both the United States and South Africa **Classics and** Race Sarah Derbew, Daniel Orrells, Phiroze Vasunia, 2025-04-24 Classics and Race A historical reader provides scholars and students with an exploratory intellectual history of the complex relationships between Classics and racist anti racist thought systems It collects together a series of readings of historical primary sources from the late medieval period until the mid twentieth century bringing to light how the classical tradition and post ancient constructions of race have informed each other Each reading is accompanied by an essay written by a leading specialist who offers a discussion of the primary source

The volume is arranged chronologically from the late medieval period to the Renaissance crucial for understanding classical humanism and on to the eighteenth century with texts foundational to the modern emergence of classical studies as a discipline and its relationship to the transatlantic slave trade The essays show how the classical tradition has continuously been structured by debates about race racism and anti-racism Including voices from Africa Asia the Caribbean Europe and North and South America the essays demonstrate why the primary text is important for understanding this intellectual and cultural history and the global reach of the classical tradition **Empire, Race and the Politics of Anti-Caste** Caroline Bressey, 2013-12-19 Winner of the Women's History Network Prize 2014 Winner of the Robert and Vineta Colby Scholarly Book Prize 2015 Empire Race and the Politics of Anti Caste provides the first comprehensive biography of Catherine Impev and her radical political magazine Anti Caste Published monthly from 1888 Anti Caste published articles that exposed and condemned racial prejudice across the British Empire and the United States Editing the magazine from her home in Street Somerset Impey welcomed African and Asian activists and made Street an important stop on the political tour for numerous foreign guests reorienting geographies of political activism that usually locate anti-racist politics within urban areas The production of Anti Caste marks an important moment in early progressive politics in Britain and using a wealth of archival sources this book offers a thorough exploration both of the publication and its founder for those interested in imperial history and the history of women The Essence of Liberty Wilma King, 2006 Before 1865 slavery and freedom coexisted tenuously in America in an environment that made it possible not only for enslaved women to become free but also for emancipated women to suddenly lose their independence Wilma King now examines a wide ranging body of literature to show that even in the face of economic deprivation and draconian legislation many free black women were able to maintain some form of autonomy and lead meaningful lives The Essence of Liberty blends social political and economic history to analyze black women's experience in both the North and the South from the colonial period through emancipation Focusing on class and familial relationships King examines the myriad sources of freedom for black women to show the many factors that along with time spent in slavery before emancipation shaped the meaning of freedom Her book also raises questions about whether free women were bound to or liberated from gender conventions of their day Drawing on a wealth of untapped primary sources not only legal documents and newspapers but also the diaries letters and autobiographical writings of free women King opens a new window on the world of black women She examines how they became free educated themselves found jobs maintained self esteem and developed social consciousness even participating in the abolitionist movement She considers the stance of southern free women toward their enslaved contemporaries and the interactions between previously free and newly freed women after slavery ended She also looks closely at women s spirituality disclosing the dilemma some women faced when they took a stand against men even black men in order to follow their spiritual callings Throughout this engaging history King underscores the pernicious constraints that racism placed on the lives of free blacks in spite of the fact that they

were not enslaved The Essence of Liberty shows the importance of studying these women on their own terms revealing that the essence of freedom is more complex than the mere absence of shackles A Companion to Multiethnic Literature of the United States Gary Totten, 2023-12-26 Provides the most comprehensive collection of scholarship on the multiethnic literature of the United States A Companion to the Multiethnic Literature of the United States is the first in depth reference work dedicated to the histories genres themes cultural contexts and new directions of American literature by authors of varied ethnic backgrounds Engaging multiethnic literature as a distinct field of study this unprecedented volume brings together a wide range of critical and theoretical approaches to offer analyses of African American Latinx Native American Asian American Jewish American and Arab American literatures among others Chapters written by a diverse panel of leading contributors explore how multiethnic texts represent racial ethnic and other identities center the lives and work of the marginalized and oppressed facilitate empathy with the experiences of others challenge racism sexism homophobia and other hateful rhetoric and much more Informed by recent and leading edge methodologies within the field the Companion examines how theoretical approaches to multiethnic literature such as cultural studies queer studies ecocriticism diaspora studies and posthumanism inform literary scholarship pedagogy and curricula in the US and around the world Explores the national international and transnational contexts of US ethnic literature Addresses how technology and digital access to archival materials are impacting the study reception and writing of multiethnic literature Discusses how recent developments in critical theory impact the reading and interpretation of multiethnic US literature Highlights significant themes and major critical trends in genres including science fiction drama and performance literary nonfiction and poetry Includes coverage of multiethnic film history and culture as well as newer art forms such as graphic narrative and hip hop Considers various contexts in multiethnic literature such as politics and activism immigration and migration and gender and sexuality A Companion to the Multiethnic Literature of the United States is an invaluable resource for scholars researchers undergraduate and graduate students and general readers studying all aspects of the subject Shelter in a Time of Storm Jelani M.
