Remote Viewers The Secret History Of Americas Psychic Spies:

Remote Viewers Jim Schnabel, 2011-04-20 Remote Viewers is a tale of the Pentagon's attempts to develop the perfect tool for espionage psychic spies. These psychic spies or remote viewers were able to infiltrate any target, elude any form of security, and never risk scratch. For twenty years, the government selected civilian and military personnel for psychic ability, trained them, and put them to work full time at taxpayers' expense against real intelligence targets. The results were so astonishing that the program soon involved more than a dozen separate agencies including the CIA, the Defense Intelligence Agency, the National Security Council, the FBI, the National Security Agency, the Secret Service, the Navy, the Army, the Air Force, the Joint Chiefs of Staff, the Drug Enforcement Agency, the US Customs Service, the US Special Forces Command, and at least one Pentagon drug interaction task force. Most of this material is still officially classified. After three years of research with access to numerous sources in the intelligence community, including the remote viewers themselves, science writer Jim Schnabel reveals the secret details of the strangest chapter in the history of espionage. **Monarch: The New Phoenix Program** Marshall Thomas, *Conspiracy Theories* Robin Ramsay, 2006-01-01 Conspiracy theories are all here but not just lined up to be ridiculed and dismissed. For among the absurd conspiracy theories currently proliferating on the internet, there are nuggets of real research about real conspiracies waiting to be mined. Fully sourced and referenced, this book is a serious examination of a fascinating phenomenon. Face To Face With The Unknown Sherry Hansen Steiger, 2001-04-15 The line that divides fiction from fact is not always as clear as it may seem. Two plus two equals four, right? But what if just once two plus two equaled five? Hard to believe, absolutely. But for the young people whose stories are related here, that is exactly what happened. Each of them experiences something that simply could not be explained. For instance, two boys forced to spend the night in their car during a bad storm learn the next morning that an eyewitness swears he saw four burly men inside their car scare off a gang. But who were the men? The boys were alone that night. Another time, a teen on the way home from a date comes upon strange alien forms in the road ahead. He chases after them only to discover humanoid imprints in the grass. Not even the local sheriff can explain it. Mysterious sightings, alien encounters, guardian angels, ghostly hauntings, bizarre visitations. In dozens of stories, teens relate real life experiences with the unknown. *Historical Dictionary of United States Intelligence* Michael A. Turner, 2014-10-08 While the United States has had some kind of intelligence capability throughout its history, its intelligence apparatus is young, dating only to the period immediately after World War II. Yet in that short a time, it has undergone enormous changes from the labor intensive espionage and covert action establishment of the 1950s to a modern enterprise that relies heavily on electronic data technology, satellites, airborne collection platforms, and unmanned aerial vehicles, to name a few. This second edition covers the history of United States intelligence and includes several key features: Chronology, Introductory essay, Appendixes, Bibliography. Over 600 cross-referenced entries on key events, issues, people, operations, laws, regulations. This book is an excellent access point for members of the intelligence community, students,

scholars and historians legal experts and general readers wanting to know more about the history of U S intelligence

The Trickster and the Paranormal
George P. Hansen, 2001-08-20 Paranormal and supernatural events have been reported for millennia They have fostered history's most important cultural transformations e.g. via the miracles of Moses Jesus Mohammed Paranormal phenomena are frequently portrayed in the world's greatest art and literature as well as in popular TV shows and movies Most adults in the U.S. believe in them Yet they have a marginal place in modern culture No university departments are devoted to studying psychic phenomena In fact a panoply of scientists now aggressively denounces them These facts present a deeply puzzling situation But they become coherent after pondering the trickster figure an archaic being found worldwide in mythology and folklore The trickster governs paradox and the irrational but his messages are concealed This book draws upon theories of the trickster from anthropology folklore sociology semiotics and literary criticism It examines psychic phenomena and UFOs and explains why they are so problematical for science

How the Hippies Saved Physics: Science, Counterculture, and the Quantum

Revival David Kaiser, 2011-06-27 *How the Hippies Saved Physics* gives us an unconventional view of some unconventional people engaged early in the fundamentals of quantum theory Great fun to read Anton Zeilinger Nobel laureate in physics The surprising story of eccentric young scientists among them Nobel laureates John Clauser and Alain Aspect who stood up to convention and changed the face of modern physics Today quantum information theory is among the most exciting scientific frontiers attracting billions of dollars in funding and thousands of talented researchers But as MIT physicist and historian David Kaiser reveals this cutting edge field has a surprisingly psychedelic past *How the Hippies Saved Physics* introduces us to a band of freewheeling physicists who defied the imperative to shut up and calculate and helped to rejuvenate modern physics For physicists the 1970s were a time of stagnation Jobs became scarce and conformity was encouraged sometimes stifling exploration of the mysteries of the physical world Dissatisfied underemployed and eternally curious an eccentric group of physicists in Berkeley California banded together to throw off the constraints of the physics mainstream and explore the wilder side of science Dubbing themselves the Fundamental Fysiks Group they pursued an audacious speculative approach to physics They studied quantum entanglement and Bell's Theorem through the lens of Eastern mysticism and psychic mind reading discussing the latest research while lounging in hot tubs Some even dabbled with LSD to enhance their creativity Unlikely as it may seem these iconoclasts spun modern physics in a new direction forcing mainstream physicists to pay attention to the strange but exciting underpinnings of quantum theory A lively entertaining story that illuminates the relationship between creativity and scientific progress *How the Hippies Saved Physics* takes us to a time when only the unlikeliest heroes could break the science world out of its rut

Radical Transformation Imants Barušs, 2021-01-28 In *Radical Transformation* Imants Barušs leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves If consciousness has nonlocal properties then how are boundaries between events established If consciousness directly modulates physical manifestation then what is the scope of such modulation If consciousness continues after physical death then how much interference is there from non physical entities As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises The author leads the reader through discussions of meaning radical transformation and subtle activism revealing the unexpected interplay of consciousness and reality along the way

Miracles of Mind Russell Targ, Jane Katra, PhD, 2010-10-04 The authors begin with compelling evidence of psychic abilities gathered in Targ's remote viewing experiments for the Stanford Research Institute Targ reveals how the experiments were conducted and how subjects were able to describe remote locations with precise detail Targ also presents the results of recently declassified covertly funded CIA experiments in remote spying during the Cold War published here for the first time After surveying the scientific evidence of the mind's nonlocal powers Targ and Katra apply this evidence to the

field of healing Incorporating ancient Eastern teachings and modern scientific evidence published in the most prestigious scientific journals Targ and Katra explain the process of spiritual healing which they describe as a quieting of the mind to open it to the community of spirit The book stays with you long after you put it down It can change the way you view the world and yourself The Divine Matrix Gregg Braden,2010 THE DIVINE MATRIX Are the miracles that we see in the quantum world actually showing us our greatest possibilities rather than our scientific limits Could the spontaneous healing of disease an instant connection with everyone and everything and even time travel be our true heritage in the universe There is a place where all things begin the place of pure energy that simply is In this quantum incubator for reality everything is possible In 1944 Max Planck the father of quantum theory shocked the world by saying that this matrix is where the birth of stars the DNA of life and everything between originates Recent discoveries reveal dramatic evidence that Planck s matrix The Divine Matrix is real It is this missing link in our understanding that provides the container for the universe the bridge between our imagination and our reality and the mirror in our world for what we create in our beliefs To unleash the power of this matrix in our lives we must understand how it works and speak the language that it recognizes For more than 20 years Gregg Braden a former senior aerospace computer systems designer has searched for the understanding to do just that From the remote monasteries of Egypt Peru and Tibet to the forgotten texts that were edited by the early Christian church the secret of the Divine Matrix was left in the coded language of our most cherished traditions It is verified in today s science In this paradigm shattering book Gregg shares what he s found Through 20 keys of conscious creation we re shown how to translate the miracles of our imagination into what is real in our lives With easy to understand science and real life stories Gregg shows us that we re limited only by our beliefs and what we once believed is about to change

Havana Syndrome Armin Krishnan,2025-09-04 Havana Syndrome is most likely caused by unknown types of directed energy weapons either of the acoustic or electromagnetic variety The technology for such weapons has been under development since at least the 1960s The first covert attacks on U S diplomats may go back to that time when the phenomenon was called the Moscow Signal Havana Syndrome A Threat to National Security covers the history of anti personnel directed energy weapons DEW from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward The book examines the publicly known details of Havana Syndrome and provides some analysis of the U S government investigations into Havana Syndrome with respect to what has been declassified The most likely perpetrators are the Russian or Chinese governments as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare to speculate about the true purpose of these mysterious attacks Conjunction.World Elly Flippen,2024-10-05 A must read I cannot recommend highly enough Bring a lot of highlighters This book has been blowing me away I d say it s a must read So far it has validated certain thoughts I ve had and experienced regarding OBE NDE UAPs the cover up our history consciousness and brought new ideas forward Very well written and organized with detailed footnotes with references You could almost use it like a guidebook in research It s amazing how much we actually have in common with one another My uncle the renowned Ingo Swann was a man of mystery and intrigue As one of the US Government s top psychic spies he held secrets that few knew and even fewer understood One day he confided in me with a hushed tone and a glint in his eye We are not alone on this planet This wasn t entirely new to me I had encountered numerous inexplicable events but I couldn t believe they were actually real It just seemed too impossible Years later however my curiosity drove me to learn more Amidst this learning adventure I stumbled upon a declassified briefing from 1973 stating a group of Nazis was to blame for releasing an arcane terror upon the world Unless one is deeply rooted in the essence of the divine the paper concludes they will not survive this perilous journey into the ominous world of existence In other words if you want to survive in the actual reality we live in you better be well equipped with some heavy duty light protection After that moment my inquisitiveness was sparked I dove in headfirst compiling theories about non human entities From potential extraterrestrial

origins to interdimensional beings I unraveled a complex narrative about advanced technology that could account for the anomalous aerial and aquatic vehicles we have witnessed But my explorations didn't end there I also embarked on a journey to understand the evolution of Remote Viewing also known as psychic spying Along the way I discovered fascinating connections between Remote Viewing UFO bases and encounters with non human beings I then found myself venturing into mysterious lands shrouded in secrecy Places where barriers and gateways intertwined where haunted spaces lingered and temporal distortions shifted reality I encountered apparitions witnessed unexplainable events and had enigmatic experiences with UFOs UAPs which I began to view as vision quests As my investigation progressed I uncovered hidden secrets about our world first hand accounts of untold tales from the lands where reality blends with the unknown the places where the mirror has cracks
