

The background of the cover is a photograph showing the silhouettes of three people standing on a dark, rocky ridge. One person is in the foreground, leaning forward as if climbing or looking down. Two other people stand together on the ridge in the background, looking out over a vast, cloudy sky. The sky is filled with soft, white clouds against a blue background, suggesting a sunrise or sunset.

Removing Unfreedoms

Byron Anderson

Removing Unfreedoms:

Removing Unfreedoms Jane Samuels, 2005 The authors argue that good governance should be not an end but the means of delivering greater freedom to the inhabitants of a city Past measures of successful urban development have related to efficiency or the provision of services a new Freedom Approach will engage with local priorities and promote local initiatives

Transforming Unjust Structures Severine Deneulin, Mathias Nebel, Nicholas Sagovsky, 2006-07-06 S VERINE DENEULIN MATHIAS NEBEL AND NICHOLAS SAGOVSKY TRANSFORMING UNJUST STRUCTURES The Capability Approach THE CAPABILITY APPROACH Structural injustice has traditionally been the concern of two major academic disciplines economics and philosophy The dominant model of economics has long been that of neo classical economics For neo classical economists human well being is to be assessed by the availability of disposable income or according to goods consumed it is measured by the levels of utility achieved in the consumption of commodities Social order is fashioned by the ways consumers maximise their well being and enterprises maximise their profits A core assumption is that all commodities are commensurable they can all be measured according to a single numerical covering value which is their price Within this neo classical paradigm justice is achieved when the utility level of someone cannot be increased without another person seeing his or her utility level decrease The dominant paradigm of neo classical economics was strongly challenged when development and welfare economist Amartya Sen received the Nobel Prize for Economics in 1998 His work offered an alternative to the neo classical evaluation of human well being in the utility commodity space The underlining philosophical intuition behind Sen's work is that the standard of living lies in the living and not in the consumption of commodities In searching for an alternative measure of human well being Sen devised his capability approach

Boundaries Carol Camp Yeakey,2012-05-18 From the first chapter to the last this immensely insightful anthology richly details and informs us about the human condition from multidisciplinary perspectives about urban life in global contexts It examines the complex often controversial issues impacting those who live on the margins of society in our densely populated cities 21st Century Political Science: A Reference Handbook John T Ishiyama,Marijke Breuning,2011 Offering full coverage of major subthemes and subfields within political science this reference handbook includes entries on topics from theory and methodology to international relations and institutions **Routledge Handbook of Arts and Global**

Development Vicki-Ann Ware,Kirsten Sadeghi-Yekta,Tim Prentki,Wasim al Kurdi,Patrick Kabanda,2024-08-29 This book brings together a leading team of international experts in arts and global development to showcase effective practice and to explore how this vibrant interdisciplinary field has developed and what the latest research can teach us Although arts play a central role in human development and in the health and wellbeing of individuals and communities few have attempted to comprehensively explore arts practice as global development This Handbook first provides a theoretical framework for exploring arts and global development before surveying a comprehensive range of art forms and development practices to explore the potential of the arts to strategically and beneficially contribute to more just and equitable conditions for communities across the globe Stretching across the arts from theatre dance and music to poetry film and visual arts the book covers topics as diverse as health education peacebuilding livelihoods sustainability activism and arts as research method in programming The Handbook also identifies gaps in the literature pointing towards the most pressing and promising avenues for further research over the next few years This book will be an essential resource for any researcher student or practitioner wishing to understand the role of the arts in global development and in the global south more generally **Classifications**

of Countries Based on their Level of Development Lynge Nielsen, 2011-02-01 The paper analyzes how the UNDP the World Bank and the IMF classify countries based on their level of development These systems are found lacking in clarity with regard to their underlying rationale The paper argues that a country classification system based on a transparent data driven methodology is preferable to one based on judgment or ad hoc rules Such an alternative methodology is developed and used to construct classification systems using a variety of proxies for development attainment

Tourism and Sustainability Martin Mowforth, Ian Munt, 2015-12-22 By January 2015 the world's richest 80 people had as much wealth as the poorest 50 per cent of the world's population It is a global unevenness through which the barriers to immigration of Third World migrants to wealthy First World nations go ever higher while the barriers to travel in the reverse direction are all but extinct So how exactly does tourism contribute to narrowing this glaring inequality between the rich and poor Are ever expanding tourism markets a smoke free socioculturally sensitive form of human industrialisation Is alternative tourism really a credible lever for reducing global inequality and eliminating poverty Tourism and Sustainability critically explores the most significant universal geopolitical norms of the last half century development globalisation and sustainability and through the lens of new forms of tourism demonstrates how we can better get to grips with the rapidly changing new global order The fourth edition has been extensively revised and updated and benefits from the addition of new material on climate change and tourism Drawing on a range of examples from across the Third World Mowforth and Munt expertly illustrate the social economic and environmental conditions that continue to affect the tourism industry With the first edition hailed by Geoffrey Wall as one of the most significant books produced on tourism since the turn of the millennium Tourism and Sustainability remains the essential resource for students of human geography environmental sciences and studies politics development studies anthropology and business studies as well as tourism itself

Natural Resource Endowment and the Fallacy of Development in Cameroon Lotsmart Fonjong,2019-11-06 Cameroon is rich in petroleum minerals tropical forests wildlife water systems fertile lands and much more Paradoxically however most citizens live in abject poverty and without jobs potable water electricity good healthcare and roads This book is a thoughtful

interrogation of some of the structural factors driving persistent poverty in Cameroon in the midst of natural resource abundance. It engages in a multidimensional critical analysis of the impact of natural resources on basic development indicators and concludes that good resource governance and sound management are the missing link. Natural resources alone will not create socio-economic prosperity void of good management with a clear development vision and strategy in Cameroon. The book assembles a wide diversity of analysis, views, perspectives and recommendations from economists, development experts, social and political scientists on Cameroon's current development inertia. What emerges in the end is a coherent interdisciplinary analysis of the natural resource development paradox as it plays out in an African setting. Theories and good practices from Africa and beyond are systematically applied to identify and critique present policy and management approaches while providing alternative options that can unlock Cameroon's natural resource wealth for national prosperity.

Research Handbook on Transnational Labour Law Adelle Blackett, Anne Trebilcock, 2015-09-25. The editors' substantive introduction and the specially commissioned chapters in the Handbook explore the emergence of transnational labour law as a field along with its contested contours. The expansion of traditional legal methods such as treaties is juxtaposed with the proliferation of contemporary alternatives such as indicators, framework agreements and consumer-led initiatives. Key international and regional institutions are studied for their coverage of such classic topics as freedom of association, equality and sectoral labour standard setting as well as for the space they provide for dialogue. The volume underscores transnational labour law's capacity to build bridges including on migration, climate change and development.

Development Discourse and Global History Aram Ziai, 2015-08-27. The manner in which people have been talking and writing about development and the rules according to which they have done so have evolved over time. *Development Discourse and Global History* uses the archaeological and genealogical methods of Michel Foucault to trace the origins of development discourse back to late colonialism and notes the significant discontinuities that led to the establishment of a new discourse and its accompanying industry. This book goes on to describe the contestations, appropriations and transformations of the concept. It shows how some of the trends in development discourse since the crisis of the 1980s—the emphasis on participation and ownership, sustainable development and free markets—are incompatible with the original rules and thus lead to serious contradictions. The Eurocentric, authoritarian and depoliticizing elements in development discourse are uncovered whilst still recognizing its progressive appropriations. The author concludes by analysing the old and new features of development discourse which can be found in the debate on Sustainable Development Goals and discussing the contribution of discourse analysis to development studies. This book is aimed at researchers and students in development studies, global history and discourse analysis as well as an interdisciplinary audience from international relations, political science, sociology, geography, anthropology, language and literary studies. The Top Books of the Year Removing Unfreedoms The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels enthralling the hearts of readers worldwide. Lets delve into the realm of popular books, exploring the engaging narratives that have enthralled audiences this year. Removing Unfreedoms : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Removing Unfreedoms : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's compelling storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This mesmerizing coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens weaves a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of captivating stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and thrilling novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
