between c 1388 and 1517 Through the narratives and the forms of remembrance they fostered the author traces the development of contemporary characteristics of the Dominican self understanding The book shows the fluid boundaries between the genres order chronicles convent chronicles collective biographies highlights the interplay between the narrative and the intended audience addresses the complex question of authorship and assesses the indebtedness of modern printed narratives to older chronicles or biographical collections The book demonstrates that the majority of the extant institutional narratives were written by Observant Dominicans who strived for the internal reform of their order They wrote history to justify their own reform agenda and therefore produced invariably partisan chronicles The work s method is widely applicable and contributes to further reassessment of institutional narratives as sources for the analysis of religious and intellectual transformations

Wandering Women and Holy Matrons Leigh Ann Craig, 2009 This book

explores women's experiences of pilgrimage in Latin Christendom between 1300 and 1500 C E Later medieval authors harbored grave doubts about women's mobility literary images of mobile women commonly accused them of lust pride greed and deceit Yet real women commonly engaged in pilgrimage in a variety of forms both physical and spiritual voluntary and compulsory and to locations nearby and distant Acting within both practical and social constraints such women helped to construct more positive interpretations of their desire to travel and of their experiences as pilgrims Regardless of how their travel was interpreted those women who succeeded in becoming pilgrims offer us a rare glimpse of ordinary women taking on extraordinary religious and social authority Women, Gender, and Radical Religion in Early Modern Europe Sylvia Monica Brown, 2007 This collection of essays explores the role of women and gender in a broad range of radical religious movements of the post Reformation **Two Sixteenth-Century Premonstratensian Treatises on Religious Life** Jacob Panhausen, 2021-03-15 Jacob Panhausen stands as a major but little studied figure in the renewal of the Premonstratensian Order during the crucial decades of the sixteenth century when the very survival of religious life hung in the balance His career 1540 1582 as abbot of Steinfeld in Germany spanned the whole era of the Council of Trent and its aftermath and he died the same year that Saint Norbert was officially canonized This volume presents the first English translation of two Latin texts by Jacob Panhausen A Loving Exhortation to Prelates and Those in Their Charge and Treatise on Monastic Life and Religious Vows The introduction offers a biographical and analytical overview of this outstanding Norbertine reformer illuminating a crucial time in the renewal of the Premonstratensian Order during and after the Council of Trent Intended as they were for his confreres at Steinfeld and other abbeys they show his zeal for reform his dedication to the monastic tradition and his humanistic and exegetical concerns *The Conversos and Moriscos in Late Medieval Spain and Beyond* Kevin Ingram, 2009 Converso and Morisco are the terms applied to those Jews and Muslims who converted to Christianity mostly under duress in late medieval Spain Converso and Moriscos Studies examines the manifold cultural implications of these mass conversions **Pico's Heptaplus and Biblical Hermeneutics** Crofton Black, 2006-10-01 This is the first full length study of the Heptaplus the commentary on the creation narrative of Genesis 1 by the celebrated Italian philosopher Giovanni Pico della Mirandola It focuses on Pico's theory of allegory This theory was fundamentally dissimilar to mainstream medieval and Renaissance approaches to biblical interpretation Rather than use the standard four senses of Scripture Pico adopted an esoteric hermeneutic stance characteristic of Neoplatonic and kabbalistic exegesis and developed an allegorical theory based on epistemology and the idea of intellectual ascent The exploration of this theme makes it possible not only to interpret the Heptaplus in relation to Pico's other works but also to assess its role as a response to the contemporary philosophical controversy surrounding the intellect Queen's Apprentice Joseph F. rest of Europe *The Crown and the Cosmos* Darin Hayton, 2015-11-11 Despite its popular association today with magic astrology was once a complex and sophisticated practice grounded in technical training provided by a university education The Crown and the Cosmos examines the complex ways that political practice and astrological discourse interacted at the Habsburg court a key center of political and cultural power in early modern Europe Like other monarchs Maximilian I used astrology to help guide political actions turning to astrologers and their predictions to find the most propitious times to sign treaties or arrange marriage contracts Perhaps more significantly the emperor employed astrology as a political tool to gain support for his reforms and to reinforce his own legitimacy as well as that of the Habsburg dynasty Darin Hayton analyzes the various rhetorical tools astrologers used to argue for the nobility antiquity and utility of their discipline and how they strove to justify their science on the grounds that through its rigorous interpretation of the natural world astrology could offer more reliable predictions This book draws on extensive printed and manuscript sources from archives across northern and central Europe including Poland Germany France and England *The 'Book' of Travels: Genre, Ethnology, and Pilgrimage, 1250-1700* Palmira Brummett, 2009-04-24 The early modern era is often envisioned as one in which European genres both narrative and visual diverged indelibly from those of medieval times This collection examines a disparate set of travel texts dating from the thirteenth to the seventeenth centuries to question that divergence and to assess the modes themes and ethnologies of travel writing It demonstrates the enduring nature of the itinerary the variant forms of witnessing including imaginary maps the crafting of sacred space as a cautionary tale and the use of the travel narrative to represent the transformation of the authorial self Focusing on European travelers to the expansive East from the soft architecture of Timur's tent palaces in Samarkand to the ambiguities of sexual identity at the Mughul court these essays reveal the possibilities for cultural translation as travelers of varying experience and attitude confront remote and foreign or not so foreign space *Preachers by Night: The Waldensian Barbes (15th-16th Centuries)* Gabriel Audisio, 2007 This work traces the history of the barbes the Waldensian preachers whose itinerant mission maintained the fervent but clandestine faith of a dissent which from Lyons extended across much of Europe enduring despite the Inquisition from the 12th 16th century

The Primacy of the Postils John M. Frymire, 2009-12-23 Scholarship on the German Reformation has long equated preaching with Protestantism just as many scholars have employed sermons but usually in supplemental and unsystematic ways Based on an analysis of over 400 standard sermon collections postils produced by Catholics Lutherans and Calvinists 1520 1620 this study offers the first comprehensive systematic presentation of these works from a cross confessional perspective It lays to rest the notion that preaching was somehow distinctively Protestant while tracing the creation production use and censorship of postils These sermon collections were nothing less than the applied distillation of Christianity delivered on a regular basis by the clergy to the laity and as such the most important vehicle for the dissemination of ideas in early modern Germany Public Opinion and Changing Identities in the Early Modern Netherlands
