## **Renaissance And Revolt Essays In The Intellectual And Social History Of Early Modern France:**

*Renaissance and Revolt* John Hearsey McMillan Salmon, 2003-12-11 Including Professor salmon s pioneering and authoritative analyses as well as particular studies of french revolts     Imagining Early Modern Histories Elizabeth Ketner, Allison Kavey, 2016-07-15 Interpreting textual mediations of history in early modernity this volume adds nuance to our understanding of the contributions fiction and fictionalizing make to the shape and texture of versions of and debates about history during that period Geographically the scope of the essays extends beyond Europe and England to include Asia and Africa Contributors take a number of different approaches to understand the relationship between history fiction and broader themes in early modern culture They analyze the ways fiction writers use historical sources fictional texts translate ideas about the past into a vernacular accessible to broad audiences fictional depictions and interpretations shape historical action and the ways in which nonfictional texts and accounts were given fictional histories of their own intentionally or not through transmission and interpretation By combining the already contested idea of fiction with performance action and ideas ideology this collection provides a more thorough consideration of fictional histories in the early modern period It also covers more than two centuries of primary material providing a longer perspective on the changing and complex role of history in forming early modern national gendered and cultural identities     The Performance of Nobility in Early Modern European Literature David M. Posner, 1999-11-04 This valuable study illuminates the idea of nobility as display as public performance in Renaissance and seventeenth century literature and society Ranging widely from Castiglione and French courtesy manuals through Montaigne and Bacon to the literature of the Grand Si cle David Posner examines the structures of public identity in the period He focuses on the developing tensions between on the one hand literary or imaginative representations of nobility and on the other the increasingly problematic historical position of the nobility themselves These tensions produce a transformation in the notion of the noble self as a performance and eventually doom court society and its theatrical mode of self presentation Situated at the intersection of rhetorical and historical theories of interpretation this book contributes significantly to our understanding of the role of literature both in analysing and in shaping social identity     **Authority and Sexuality in Early Modern Burgundy (1550-1730)** James R. Farr, 1995-01-05 A sociocultural analysis of the relationships among law religion and sexual morality in Burgundy during the Catholic Reformation this book is divided into two interrelated parts the world of prescription and the world of practice The first part examines the construction of authority focusing primarily upon Burgundy s dominant elite legal community The second part of the book examines the deployment of authority and its appropriation by French men and women The new moral order focused on sexuality and the imposition of this order involved a legal contest over the disposition of bodies both male and female be they priests courting couples victims of seduction or rape or prostitutes James Farr s book offers an unusually fertile approach to study the link between sexuality and criminality     The Rule of Manhood Jamie A. Gianoutsos, 2020-12-10 Explores how classical and gendered

conceptions of tyranny shaped early Stuart understandings of monarchy and the development of republican thought

*Frontiers of Heresy* E. William Monter, William Monter, 2003-11-13 A significant reappraisal of the Spanish Inquisition focusing on the lands beyond Castile      Responses to Religious Division, c. 1580-1620 Natasha Constantinidou, 2017-06-06 In this study Natasha Constantinidou considers the views articulated by the scholars Pierre Charron 1541 1603 Justus Lipsius 1547 1606 Paolo Sarpi 1552 1623 and King James VI and I 1566 1625 in response to the religious ruptures of their time Though rarely juxtaposed all four authors were deeply affected by the religious divisions In their works they denounced religious zeal focusing on non dogmatic piety Drawing on classical tradition and church history they set out to offer consolation to the people of a war torn continent and to discuss means of reconciliation Their responses sought to define the role of religion in public and private They emphasised the need for lay control of religious affairs as the only way of ensuring peace whilst circumscribing belief and its practice to the private realm      Montaigne and the Tolerance of Politics Douglas I. Thompson, 2018 Toleration is one of the most studied concepts in contemporary political theory and philosophy yet the range of contemporary normative prescriptions concerning how to do toleration or how to be tolerant is remarkably narrow and limited Contemporary thinking about toleration evinces paradoxically an intolerance of politics This book argues for toleration as a practice of negotiation looking to a philosopher not usually considered political Michel de Montaigne For Montaigne toleration is an expansive active practice of political endurance in negotiating public goods across lines of value difference In other words to be tolerant means to possess a particular set of political capacities for negotiation Douglas Thompson draws on Montaigne's *Essais* to recover the idea that political negotiation grows out of genuine care for public goods and the establishment of political trust Thompson argues that we need a Montaignian conception of toleration today if we are to negotiate effectively the circumstances of increasing political polarization and ongoing value conflict and he applies this notion to current debates in political theory as well to contemporary issues including the problem of migration and refugee asylum Additionally for Montaigne scholars he reads the *Essais* principally as a work of public political education and resituates the work as an extension of Montaigne's political activity as a high level negotiator between Catholic and Huguenot parties during the French Wars of Religion      The Myth of 1648 Benno Teschke, 2020-05-05 Winner of the 2003 Isaac and Tamara Deutscher Memorial Prize This book rejects a commonplace of European history that the treaties of Westphalia not only closed the Thirty Years War but also inaugurated a new international order driven by the interaction of territorial sovereign states Benno Teschke through this thorough and incisive critique argues that this is not the case Domestic social property relations shaped international relations in continental Europe down to 1789 and even beyond The dynastic monarchies that ruled during this time differed from their medieval predecessors in degree and form of personalization but not in underlying dynamic 1648 therefore is a false caesura in the history of international relations For real change we must wait until relatively recent times and the development of modern states and true capitalism In effect it is

not until governments are run impersonally with no function other than the exercise of its monopoly on violence that modern international relations are born      *Reformation, Resistance, and Reason of State (1517-1625)* Sarah Mortimer, 2021 This volume charts the development of political thought between 1517 1625 Drawing on a wide range of sources from Europe and beyond it offers a new reading of early modern political thought making connections between Christian Europe and the Muslim societies that lay to its south and east      **Empire of Souls** Stefania Tutino, 2010-10-12 Robert Bellarmine was one of the pillars of post Reformation Catholicism he was a celebrated theologian and a highly ranked member of the Congregations of the Inquisition and of the Index the censor in charge of the Galileo affair Bellarmine was also one of the most original political theorists of his time and he participated directly in many of the political conflicts that agitated Europe between the end of the sixteenth and the beginning of the seventeenth century Stefania Tutino offers the first full length study of the impact of Bellarmine s theory of the potestas indirecta in early modern Europe Following the reactions to Bellarmine s theory across national and confessional boundaries this book explores some of the most crucial political and theological knots in the history of post Reformation Europe from the controversy over the Oath of Allegiance to the battle over the Interdetto in Venice The book sets those political and religious controversies against the background of the theological and institutional developments of the post Tridentine Catholic Church By examining the violent and at times surprising controversies originated by Bellarmine s theory this book challenges some of the traditional assumptions regarding the theological shape of post Tridentine Catholicism it offers a fresh perspective on the centrality of the links between confessional affiliation and political allegiance in the development of the modern nation states and it contributes to our understanding of the development of modern notions of power and authority      **From Penitence to Charity** Barbara B. Diefendorf, 2004-07-15 From Penitence to Charity radically revises our understanding of women s place in the institutional and spiritual revival known as the Catholic Reformation Focusing on Paris where fifty new religious congregations for women were established in as many years it examines women s active role as founders and patrons of religious communities as spiritual leaders within these communities and as organizers of innovative forms of charitable assistance to the poor Rejecting the too common view that the Catholic Reformation was a male dominated movement whose principal impact on women was to control and confine them the book shows how pious women played an instrumental role working alongside and sometimes in advance of male reformers At the same time it establishes a new understanding of the chronology and character of France s Catholic Reformation by locating the movement s origins in a penitential spirituality rooted in the agonies of religious war It argues that a powerful desire to appease the wrath of God through acts of heroic asceticism born of the wars did not subside with peace but rather found new outlets in the creation of austere contemplative convents Admiration for saintly ascetics prompted new vocations and convents multiplied as pious laywomen rushed to fund houses where enjoying the special rights accorded founders they might enter the cloister and participate in convent life Penitential enthusiasm inevitably waned while

new social and economic tensions encouraged women to direct their piety toward different ends By the 1630s charitable service was supplanting penitential asceticism as the dominant spiritual mode Capitalizing on the Council of Trent's call to catechize an ignorant laity pious women founded innovative new congregations to aid less favored members of their sex and established lay confraternities to serve society's outcasts and the poor Their efforts to provide war relief during the Fronde in particular deserve recognition     John Owen and the Civil War Apocalypse Martyn Calvin Cowan, 2017-07-06 Using Owen's sermons from this period this book studies how his apocalyptic interpretation of contemporary events led to him making public calls for radical societal change It combines his theological lineage with the historical context in which he preaches and so represents part of a new historical turn in Owen Studies     **Charles I and the Road to Personal Rule** L. J. Reeve, 2003-10-30 An analysis of the political crisis leading to Charles I's personal rule in England     **Sacral Kingship Between Disenchantment and Re-enchantment** Ronald G. Asch, 2014-07-01 France and England are often seen as monarchies standing at opposite ends of the spectrum of seventeenth century European political culture On the one hand the Bourbon monarchy took the high road to absolutism while on the other the Stuarts never quite recovered from the diminution of their royal authority following the regicide of Charles I in 1649 However both monarchies shared a common medieval heritage of sacral kingship and their histories remained deeply entangled throughout the century This study focuses on the interaction between ideas of monarchy and images of power in the two countries between the execution of Mary Queen of Scots and the Glorious Revolution It demonstrates that even in periods when politics were seemingly secularized as in France at the end of the Wars of Religion and in latter seventeenth century England the appeal to religious images and values still lent legitimacy to royal authority by emphasizing the sacral aura or providential role which church and religion conferred on monarchs     *International Law and Empire* Martti Koskenniemi, Walter Rech, Manuel Jiménez Fonseca, 2017 By examining the relationship between international law and empire from early modernity to the present this volume improves current understandings of the way international legal institutions practices and narratives have shaped imperial ideas about and structures of world governance     Louis XIII, the Just A. Lloyd Moote, 1991-08-08 In this fascinating biography A Lloyd Moote provides the first authoritative account of one of the most enigmatic figures of seventeenth century Europe Contrary of popular portrayals of the monarch as a hapless kind Moote argues that Louis XIII was a ruler who powerfully shaped his people's destiny     **The Thirty Years War** Ronald Asch, 1997-05-21 Historians have tried time and again to identify the central issues of the conflict which devastated Europe between 1618 and 1648 The Thirty Years War by Ronald G Asch puts the religious and constitutional struggle in the Holy Roman Empire squarely back into the centre of events However other issues are not neglected Thus the problems of war finance are shown to be an important key to the interaction between interstate and domestic conflicts during the war Equally confessional tensions are analysed as a decisive factor linking international and domestic disputes and the reader is provided with a succinct narrative account concentrating on the major

turning points of the war      The Politics of Piety Megan C. Armstrong, 2004 The Politics of Piety situates the Franciscan order at the heart of the religious and political conflicts of the late sixteenth century to show how a medieval charismatic religious tradition became an engine of political change The friars used their redoubtable skills as preachers intellectual training at the University of Paris and personal and professional connections with other Catholic reformers and patrons to successfully galvanize popular opposition to the spread of Protestantism throughout the sixteenth century By 1588 the friars used these same strategies on behalf of the Catholic League to prevent the succession of the Protestant heir presumptive Henry of Navarre to the French throne This book contributes to our understanding of religion as a formative political impulse throughout the sixteenth century by linking the long term political activism of the friars to the emergence of the French monarchy of the seventeenth century Megan C Armstrong is assistant professor of early modern Europe in the History Department of the University of Utah      The Rational Shakespeare Michael Wainwright, 2018-08-22 The Rational Shakespeare Peter Ramus Edward de Vere and the Question of Authorship examines William Shakespeare s rationality from a Ramist perspective linking that examination to the leading intellectuals of late humanism and extending those links to the life of Edward de Vere Seventeenth Earl of Oxford The application to Shakespeare s plays and sonnets of a game theoretic hermeneutic an interpretive approach that Ramism suggests but ultimately evades strengthens these connections in further supporting the Oxfordian answer to the question of Shakespearean authorship
