Having been asked to give some account of the two great revolutionary movements of the fifteenth and sixteenth centuries from the standpoint of the old religion I have attempted in the following pages to represent the various aspects of the Reformation and the Renaissance in their relation to the Catholic Church and to the world at large endeavouring also to show that while they remained distinct forces they sometimes joined issues and played each other s game In the term Reformation I have included not only the Violent measures employed by the enemies of the Church to overthrow authority that was coeval with Christianity but also the long and more or less effectual efforts within the Church prior to the Protestant schism to combat existing abuses and finally the universal post tridentine revival of Catholic life and work About the Publisher
