Renaissance Exploration By Hale John Rigby:

Handbook to Life in Renaissance Europe Sandra Sider, 2007 The word renaissance means rebirth and the most obvious example of this phenomenon was the regeneration of Europe's classical Roman roots The Renaissance began in northern Italy in the late 14th century and culminated in England in the early 17th century Emphasis on the dignity of man though not of woman and on human potential distinguished the Renaissance from the previous Middle Ages In poetry and literature individual thought and action were prevalent while depictions of the human form became a touchstone of Renaissance art In science and medicine the macrocosm and microcosm of the human condition inspired remarkable strides in research and discovery and the Earth itself was explored situating Europeans within a wider realm of possibilities Organized thematically the Handbook to Life in Renaissance Europe covers all aspects of life in Renaissance Europe History religion art and visual culture architecture literature and language music warfare commerce exploration and travel science and medicine education daily life

Renaissance Exploration John Rigby Hale, 1972 *Renaissance Europe* J. R. Hale, John Rigby Hale, 1977-01-01 *War, Culture and Society in Renaissance Venice* John Rigby Hale, David Chambers, Cecil H.

Clough, Michael Mallett, 1993-01-01 While the majority of these essays are about wars fought against Venice's enemies or on the building and defence of Venetian and other fortifications there are also essays on other aspects of Venetian life and art on Giorgione's earliest work on the career of a Venetian pope on the building of the Ca d'Oro and on the Diarii of Marino Sanuto

Explorations in Renaissance Culture, 2008 *Across Currents: Connections Between Atlantic and (Trans)Pacific Studies* Nicole Poppenhagen, Jens Temmen, 2020-04-28 This book explores connections between Atlantic studies and trans Pacific studies including the potential discursive topical and historical overlaps of the two fields It carves out mutual concerns and theoretical affinities but also divergent approaches and differences While acknowledging the fundamental differences that characterize the individual fields the essays in this volume examine how both Atlantic and trans Pacific studies are part of global currents of political activist artistic economic and academic exchange This volume brings together voices from Europe North America and the Pacific with disciplinary backgrounds in history culture and literature Directed at scholars with a background in trans Pacific and or Atlantic studies this collection is an attempt to stimulate exchange between the two fields to intensify their impact within the current transnational focus of literary and cultural studies to encourage the questioning of well mapped paths of inquiry and to outline new theoretical approaches to both fields This book was originally published as a special issue of the journal Atlantic Studies

Sovereignty and Territorial Temptation Christopher R. Rossi, 2017-04-27 This powerful reworking of the liberal tradition of international law uses Grotius as the vehicle for understanding coming challenges to the global commons Fundamental problems of scarcity sovereignty anachronistic thinking and territorial temptation are interwoven in historical and contemporary contexts to illuminate the tendency among states to share resources but only when necessary *Writing East* Iain Macleod Higgins, 2010-11-24 No

work revealed more of the mysterious East to statesmen explorers readers and writers of the late Middle Ages than the Book of John Mandeville One of the most widely circulated documents of its day it first appeared in French between 1356 and 1371 and was soon translated into nine other European languages Ostensibly the account of one English knight s journeys through Africa and Asia it is rather a compilation of travel writings first shaped by an unknown redactor Writing East is a study of how Mandeville s Travels came to appear in its various versions explaining how it went through a series of transformations as it reached new audiences in order to serve as both a response to previous writings about the East and an important voice in the medieval conversation about the nature and limits of the world Higgins offers a palimpsestic reading of this multi text that demonstrates not only how the original French author overwrote his precursors but also how subsequent translators molded the material to serve their own ideological agendas

The Homosexual Revival of Renaissance Style, 1850-1930 Y. Ivory,2009-05-07 Why were so many late nineteenth century homosexuals passionate about the Italian Renaissance This book answers that question by showing how the Victorian coupling of criminality with self fashioning under the sign of the Renaissance provided queer intellectuals with an enduring model of ruthlessly permissive individualism

Wright, Lawrence J. Paszek, 2001 This book originally published in 1969 discusses the development of the complex relationships between science and technology and warfare from the Renaissance to the 1960s The nature of warfare has always been largely determined by contemporary technology Instances of technological change undertaken for the sake of military advantage have also been relatively common in history The relationships between science and warfare however have been much more variable and ambiguous Science Technology and Warfare requires a fourth term to be complete Management because the primary military innovator never has been the scientist technologist or soldier but rather the administrative organizer of victory **North American Indigenous Warfare and Ritual Violence** Richard J.
