the World of Spanish Rome Piers Baker-Bates,2017-07-05 Sebastiano del Piombo c 1485 1547 was a close associate and rival of the central artistic figures of the High Renaissance notably Michelangelo and Raphael After the death of Raphael and the departure of Michelangelo from Rome Sebastiano became the dominant artistic personality in the city Despite being one of most significant artistic figures of the period he remains the last artist of major importance in the western canon about whom no recent work has been published in English In this study Piers Baker Bates approaches Sebastiano s career through analysis of the patrons he attracted following his arrival at Rome The first half of the book concentrates on Sebastiano s network of patrons predominantly Italian who had strong factional ties to the Imperial camp the second half discusses Sebastiano s relationship with his principal Spanish patrons Sebastiano is a leading example of a transcultural artist in the sixteenth century and his relationship with Spain was fundamental to the development of his careerThe author investigates the domination of Sebastiano s career by patrons who had geographically different origins but who were all were members of a wider network of Imperial loyalties Thus Baker Bates removes Sebastiano from the shadow of his contemporaries bringing him to life for the reader as an artistic personality in his own right Baker Bates characterization of the Rome in which Sebastiano made his career differs from previous scholarly accounts and he describes how Sebastiano was ideally suited to flourish in the environment he depicts Sebastiano del Piombo and the World of Spanish Rome thus re appraises not only Sebastiano s place in the canon of Renaissance art but using him as a lens also the cultural worlds of Early Modern Italy and Spain in which he operated The Making of Theatre History Paul Kuritz,1988 **A History of Interior Design** John F. Pile,2005 Delivers the inside story on 6 000 years of personal and public space John Pile acknowledges that interior design is a field with unclear boundaries in which construction architecture the arts and crafts technology and product design all overlap **Honor and Violence in Golden Age Spain** Scott K. Taylor,2008-11-17 Early modern Spain has long been

viewed as having a culture obsessed with honor where a man resorted to violence when his or his wife's honor was threatened especially through sexual disgrace This book the first to closely examine honor and interpersonal violence in the era overturns this idea arguing that the way Spanish men and women actually behaved was very different from the behavior depicted in dueling manuals law books and honor plays of the period Drawing on criminal and other records to assess the character of violence among non elite Spaniards historian Scott K Taylor finds that appealing to honor was a rhetorical strategy and that insults gestures and violence were all part of a varied repertoire that allowed both men and women to decide how to dispute issues of truth and reputation
