*Affectionate Authorities* Philip Grace, 2016-03-16 In one of his sermons the medieval preacher Bernardino of Siena listed seven fathers to whom one owed obedience God one's natural father godfather confessor benefactor a government official and any elderly man This book seeks to answer the question of why medieval Europeans saw the need for so many fathers Why was fatherhood so appealing as a metaphor Situated at the intersection of social and cultural history the study draws upon a variety of late medieval and early modern sources including witness depositions personal letters and pedagogical treatises from the city of Basel Switzerland It focuses on how people from different walks of life invoked ideas about

fatherhood in the pursuit of various goals not only the ideological agendas of scholarly elites but also the more pragmatic problems of closing a business deal claiming an inheritance or choosing sides in a fistfight before turning to what these ideas reveal about fatherhood on the ground. The book argues that it was precisely fatherhood's basis in lived experience that gave it a familiar shape in the several roles that fathers played including provision affection disciplinary authority and education. The most potent rhetorical aspect of fatherhood however was not as a static image or shape but rather the possibility of invoking connections between one role and another. The most potent connection between roles was the idea that fathers were affectionate authorities combining power over subordinates with desire for their well being. Tracing the connections and contradictions of these identities this study provides a nuanced view of concepts of fatherhood on the eve of the Reformation.

The Critical Role of Parenting in Human Development Marianna S. Klebanov, Adam D. Travis, 2014-07-17 This thorough and multidisciplinary overview of childrearing illustrates and stands on two foundational principles that the importance of parenting is immense and that it is undervalued. The Critical Role of Parenting in Human Development surprises readers with the realization that the way we were parented in childhood impacts nearly every aspect of our lives. Based in part on cutting edge research using MRI and fMRI technologies demonstrating that the brains of those traumatized in childhood are essentially different the book explains that our brain development during our earliest years and in the womb is fundamental to the lives we lead. It covers attachment theory the impact of corporal punishment on the brain the effects of emotional abuse and neglect and the widespread nature of Posttraumatic Stress Disorder describing the process that leads to the transmission of parenting patterns through the generations and explaining how resulting personal issues recur throughout the lifespan. The Critical Role of Parenting in Human Development also examines laws and policies that impact parenting in our culture making a case for their importance and describes the effect of childrearing on various aspects of human life including relationships crime and violence economics mental and physical health addiction education and career issues among others. Interdisciplinary in nature this book is a much needed resource for professionals and students in the psychology psychotherapy social work and related mental health and child welfare fields. **Gender and Early Modern**

**Constructions of Childhood** Naomi J. The essays are grouped around the themes of celebration and loss education and social training growing up and growing old. In so doing they examine representations of children and childhood in a range of sources from the period from paintings and poetry to legal records and personal correspondence. The volume sheds light on some of the ways in which in the relations between Renaissance children and their parents and peers gender mattered. **Gender and Early Modern Constructions of Childhood** enriches our

censorship and the new artistic demands occasioned by conversion The concerns that motivated the twenty first century protests against Chicana artists Yolanda Lopez in 2001 and Alma Lopez in 2003 have a long history in the Hispanic world in the form of anxieties about the humanization of sacred female bodies and fears of Indigenous influences infiltrating Catholicism In this context Black also examines a number of important artists in depth including El Greco Murillo Jusepe de Ribera Pedro de Mena Baltasar de Echave Ibañeta Juan Correa Cristóbal de Villalpando and Miguel Cabrera
