Architectural Rendering in Sepia Frank Forrest Frederick, 2015-06-25 Excerpt from Architectural Rendering in Sepia The architect must be master of delineation chiaroscuro and color if he would make a perfect representation of the scene before him or picture the fancy of his imagination It is the purpose of these notes to point out to the student of architecture some facts of chiaroscuro and to tell him how these facts may be rendered in washes of water color sepia that he may make the representation of a building The two methods of rendering perspectives by ink lines drawn with the pen and by washes of water color cannot be compared The means employed are totally unlike and the results obtained almost as unlike The lack of truthfulness and the meagre power of expression in the pen rendered perspectives led to the formation in the School of Art and Design of the University of Illinois of a class in Sepia rendering made up of students of architecture These notes contain virtually the same matter as is there given in class lectures and the exercises here reproduced show the manner in which the work is taken up About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
