Wordplay and Powerplay in Latin Poetry Phillip Mitsis, Ioannis Ziogas, 2016-07-28 The political allegiances of major Roman poets have been notoriously difficult to pin down in part because they often shift the onus of political interpretation from themselves to their readers By the same token it is often difficult to assess their authorial powerplays in the etymologies puns anagrams telestichs and acronyms that feature prominently in their poetry It is the premise of this volume that the contexts of composition performance and reception play a critical role in constructing poetic voices as either politically favorable or dissenting and however much the individual scholars in this volume disagree among themselves their readings try to do justice collectively to poetry's power to shape political realities The book is aimed not only at scholars of Roman poetry politics and philosophy but also at those working in later literary and political traditions influenced by Rome's greatest poets

Greek to Latin G. O. Hutchinson, 2013-09-26 The relationship between Latin and Greek literature is one of the most fundamental questions for Latin literature and for the reception of Greek literature This innovative volume shows some of the contexts in which the interaction of the literatures should be viewed Professor Hutchinson investigates Roman conceptions of their own literary history and Greek literary history as two chronological sequences artificially separated and takes the reader around the Mediterranean to see the different places where Romans encountered Greek art with words The volume looks at Roman perceptions of the contrasting Greek and Latin languages and compares in detail Latin adaptation of Greek writing with Latin adaptation of Latin It views the different approaches to Greek material ideas and works between three prose super genres and within the poetic super genre of hexameters It is based on an independent collection of evidence and draws extensively on inscriptions archaeology papyri scholia and a wide range of texts

Lucilius and Satire in Second-Century BC Rome Brian W. Breed, Elizabeth Keitel, Rex Wallace, 2018-03-01 This volume considers linguistic cultural and literary trends that fed into the creation of Roman satire in second century BC Rome Combining approaches drawn from linguistics Roman history and Latin literature the chapters share a common purpose of attempting to assess how Lucilius satires functioned in the social environment in which they were created and originally read Particular areas of focus include audiences for satire the mixing of varieties of Latin in the satires and relationships with other second century genres including comedy epic and oratory Lucilius satires emerged at a time when Rome's new status as an imperial power and its absorption of influences from the Greek world were shaping Roman identity With this in mind the book provides new perspectives on the foundational identification of satire with what it means to be Roman and satire's unique status as wholly ours *tota nostra* among Latin literary genres

Classica et Mediaevalia vol. 61, **Intratextuality and Latin Literature** Stephen J. Harrison, Stavros Frangoulidis, Theodore D. Papangelis, 2018-10-08 Recent years have witnessed an increased interest in classical studies in the ways meaning is generated through the medium of intertextuality namely how different texts of the same or different authors communicate and interact with each other Attention although on a lesser scale has also been paid to the manner in which meaning is produced through interaction between various parts of the same text or body of texts within the overall production of a single author namely intratextuality Taking off from the seminal volume on Intratextuality Greek and Roman Textual Relations edited by A Sharrock H Morales Oxford 2000 which largely sets the theoretical framework for such internal associations within classical texts this collective volume brings together twenty seven contributions written by an international team of experts exploring the evolution of intratextuality from Late Republic to Late Antiquity across a wide range of authors genres

and historical periods Of particular interest are also the combined instances of intra and intertextual poetics as well as the way in which intratextuality in Latin literature draws on reading practices and critical methods already theorized and operative in Greek antiquity

Ennius and the Architecture of the Annales Jackie Elliott, 2013-11-21 Ennius Annales which is preserved only in fragments was hugely influential on Roman literature and culture This book explores the genesis in the ancient sources for Ennius epic and in modern scholarship of the accounts of the Annales with which we operate today A series of appendices detail each source's contribution to our record of the poem and are used to consider how the interests and working methods of the principal sources shape the modern view of the poem and to re-examine the limits imposed and the possibilities offered by this ancient evidence Dr Elliott challenges standard views of the poem such as its use of time and the disposition of the gods within it She argues that the manifest impact of the Annales on the collective Roman psyche results from its innovative promotion of a vision of Rome as the primary focus of the cosmos in all its aspects

Ovidian Transformations Philip Hardie, Alessandro Barchiesi, Stephen Hinds, 2020-08-30 An important collection of essays on Ovid's Metamorphoses and its reception

Latin Language and Latin Culture Joseph Farrell, 2001-02-15 The Latin language is popularly imagined in a number of specific ways as a masculine language an imperial language a classical language a dead language This book considers the sources of these metaphors and analyses their effect on how Latin literature is read It argues that these metaphors have become *id est* fixes not only in the popular imagination but in the formation of Latin studies as a professional discipline By reading with and more commonly against these metaphors the book offers a different view of Latin as a language and as a vehicle for cultural practice The argument ranges over a variety of texts in Latin and texts about Latin produced by many different sorts of writers from antiquity to the twentieth century
