Financial Stabilization in Meiji Japan Steven J. Ericson,2020-02-15 With a new look at the 1880s financial reforms in Japan Steven J Ericson s Financial Stabilization in Meiji Japan overturns widely held views of the program carried out by Finance Minister Matsukata Masayoshi As Ericson shows rather than constituting an orthodox financial stabilization program a sort of precursor of the neoliberal reforms promoted by the IMF in the 1980s and 1990s Matsukata s policies differed in significant ways from both classical economic liberalism and neoliberal orthodoxy The Matsukata financial reform has become famous largely for the wrong reasons and Ericson sets the record straight He shows that Matsukata intended to pursue fiscal retrenchment and budget balancing when he became finance minister in late 1881 Various exigencies including foreign military crises and a worsening domestic depression compelled him instead to increase spending by running deficits and floating public bonds Though he drastically reduced the money supply he combined the positive and contractionary policies of his immediate predecessors to pull off a program of expansionary austerity paralleling state responses to financial crisis elsewhere in the world both then and now Through a new and much needed recalibration of this pivotal financial reform Financial Stabilization in Meiji Japan demonstrates that in several ways ranging from state led export promotion to

the creation of a government controlled central bank Matsukata advanced policies that were more in line with a nationalist developmentalist approach than with a liberal economic one Ericson shows that Matsukata Masayoshi was far from a rigid adherent of classical economic liberalism **Japan ,1899 Monthly Summary of Commerce and Finance of the United States** United States.
