Developmental State of Africa in Practice Steve Kayizzi-Mugerwa,Charles Leyeka Lufumpa,2020-12-03 This book is the product of research undertaken at the African Development Bank AfDB on the lessons that the continent of Africa can draw from the role of the state in Asia s rapid economic development in the last 50 years The book applies a cross national

comparative framework to analyse Africa's performance drawing broadly on the developmental states of Asia i.e. Japan, China, India, Vietnam etc. with focus on South Korea. The book argues that for Africa to replicate Asia's developmental success it may require more than just tweaking the public sector machinery. Dedicated institutions and a citizenry capable of demanding accountability from governments must become key ingredients of the development strategy. The book also provides insight into the learning experiences of Asia in addressing key national policy challenges i.e. land reform and quality of public administration at the federal and local levels, enhancing technical skills, boosting capabilities for sciences, engineering and mathematics and industrialization.
