**The End of Race?** Donald R. Kinder, Allison Dale-Riddle, 2012-01-01. How did race affect the election that gave America its first African American president? This book offers some fascinating and perhaps controversial findings. Donald R. Kinder and Allison Dale Riddle assert that racism was in fact an important factor in 2008 and that if not for racism, Barack Obama would have won in a landslide. On the way to this conclusion, they make several other important arguments. In an analysis of the nomination battle between Obama and Hillary Clinton, they show why racial identity matters more in electoral politics than gender identity. Comparing the 2008 election with that of 1960, they find that religion played much the same role in the earlier campaign that race played in 08. And they argue that racial resentment, a modern form of racism that has superseded the old-fashioned biological variety, is a potent political force.

**The Harlem Uprising** Christopher Hayes, 2021-10-26. In July 1964, after a white police officer shot and killed an African American teenage boy, unrest broke out in Harlem and then Bedford-Stuyvesant. Protests rose up to call for an end to police brutality and the unequal treatment of Black people in a city that viewed itself as liberal. A week of upheaval ensued, including looting and property damage as well as widespread police violence in what would be the first of the 1960s urban uprisings. Christopher Hayes examines the causes and consequences of the uprisings from the city's history of racial segregation in education, housing, and employment to the ways in which the police both neglected and exploited Black neighborhoods. While the national civil rights movement was securing substantial victories in the 1950s and 1960s, Black New Yorkers saw little or uneven progress. Faced with a lack of economic opportunities, pervasive discrimination, and worsening quality of life, they felt a growing sense of disenchantment with the promises of city leaders. Turning to the aftermath of the uprising, Hayes demonstrates that the city's power structure continued its refusal to address structural racism. In the most direct local outcome, a broad interracial coalition of activists called for civilian review of complaints against the police. The NYPD's rank and file fought this demand bitterly, further inflaming racial tensions. The story of the uprisings and what happened next reveals the white backlash against civil rights in the north and crystallizes the limits of liberalism. Drawing on a range of archives, this book provides a vivid portrait of postwar New York City, a new perspective on the civil rights era, and a timely analysis of deeply entrenched racial inequalities.
