Reporting Vietnam Media And Military At War:

Reporting Vietnam William M. Hammond, 1998 This text explains that government and media first shared a vision of American involvement in Vietnam but as the war dragged on government press releases were challenged by reports from the field

War and the Media Paul M. Haridakis, Barbara S. Hugenberg, Stanley T. Wearden, 2014-01-10 Mass communication is used by governments to support their war efforts while media images are created or manipulated to inform persuade or guide the consumers of those images But this book looks beyond the obvious The contributors examine historical and contemporary examples that reflect the role of the media or mass communication or both during wartime The essays highlight the centrality of communication to the perpetuation and to the resolution of war suggesting that the symbiotic relationship between communication and war is as important to understand as war itself

U. S. Army and the Media in the 20th Century Robert T. Davis, 2011 This is a print on demand edition of a hard to find publication Surveys the U S Army's approach to media relations from the Spanish American War to the first Gulf War The relationship between the Army and the media is considered in the broader context of the U S Government's approach to information management IM Here is an overview of how the U S Army has approached its relations with the media over the previous century Since World War I a number of bureaucratic manifestations of IM have been tried in wartime With the exception of the U S Info Agency whose tenure spanned the period from 1953 to 1999 all the other manifestations of bureaucratic IM rose and fell during the wars in which they were created The need for units in the field to participate in IM is a major challenge for future operations

The Vietnam War James Edward Westheider, 2007-09-30 The Vietnam War was different from most previous U S wars of the twentieth century It was an undeclared and limited war The draft to supply the soldiers and serious problems in the Selective Service system meant that the burden of the war was carried disproportionately by minorities and working class whites many of whom did not want to serve While many Americans saw service in Vietnam as their patriotic duty others opposed the war This is the story of the men and women who served in that war whether overseas in active combat or in support roles in Vietnam and stateside

Military Justice in Vietnam William Thomas Allison, 2007 A concise look at how military justice during the Vietnam War served the dual purpose of punishing U S soldiers' crimes and infractions while also serving the important role of promoting core American values democracy and rule of law to the Vietnamese

Failing to Win Dominic D. P. Johnson, Dominic Tierney, 2009-07-01 How do people decide which country came out ahead in a war or a crisis In *Failing to Win* Dominic Johnson and Dominic Tierney dissect the psychological factors that predispose leaders media and the public to perceive outcomes as victories or defeats often creating wide gaps between perceptions and reality

The US Army and the Media in the 20th Century Robert T. Davis, 2009 Surveys the US Army's approach to media relations from the Spanish American War to the first Gulf War The relationship between the Army and the media is considered in the broader context of the US Government's approach to information management Given the growing importance of information operations in 21st

century warfare this study provides a succinct overview of how the US Army has approached its relations with the media over the previous century The study highlights the recurrent tension that exists in both the Army and the US Government s information management writ large This tension arises from the need for operational security and effective deception and psychological operations and the need to provide transparency to secure public acceptance and support for military operations The long running debate over how the Government s information management should be organized and operated reflects this tension Thus since World War I a number of bureaucratic manifestations of information management have been tried in wartime including the Committee on Public Information the Office of War Information the Psychological Strategy Board the United States Information Agency and most recently the Office of Global Communications With the exception of the United States Information Agency whose tenure spanned the period from 1953 to 1999 all the other manifestations of bureaucratic information management rose and fell during the wars in which they were created The growing pains of these organizations sometimes colored the Army s relationship with the media The need for units in the field to participate in information management is a major challenge for future operations This study reminds us that those commanders who have gone out of their way to engage the media have in many cases had the greatest success with information management

The Ultimate Protest Ray E. Boomhower, 2024-03-15 The Ultimate Protest Malcolm W Browne Thich Quang Duc and the News Photograph That Stunned the World examines how the most unlikely of war correspondents Malcolm W Browne became the only Western reporter to capture Buddhist monk Thich Quang Duc s horrific self immolation on June 11 1963 Quang Duc made his ultimate sacrifice to protest the perceived anti Buddhist policies of the Catholic dominated administration of South Vietnam s president Ngo Dinh Diem Biographer Ray E Boomhower s The Ultimate Protest explores the background of the Buddhist crisis in South Vietnam in the spring of 1963 that led to Quang Duc s self sacrifice as well as the worldwide reaction to Browne s photograph how it affected American policy toward Diem s government and the role the image played in the violent coup on November 1 1963 that deposed Diem and led to his assassination The book also delves into the dynamics involved in covering the Vietnam War in the early days of the American presence and the pressures placed on the journalists to stop raising doubts about how the war was going Browne and his colleague David Halberstam shared the 1964 Pulitzer Prize for international reporting for their work in Vietnam

War in the American Pacific and East Asia, 1941-1972 Hal M. Friedman, 2019-02-22 Before 1940 the Japanese empire stood as the greatest single threat to the American presence in the Pacific and East Asia To a lesser degree the formerly hegemonic colonial powers of Britain France and the Netherlands still controlled portions of the region At the same time subjugated peoples in East Asia and Southeast Asia struggled to throw off colonialism By the late 1930s the competition exploded into armed conflict Japan looked like the early victor but the United States eventually established itself as the hegemonic power in the Pacific Basin by 1945 Yet when it comes to the American movement out into the Pacific there is more to the story that has yet to be revealed In War in the

American Pacific and East Asia 1941 1972 editor Hal Friedman brings together nine essays that explore lesser known aspects and consequences of America's military expansion into the Pacific during and after World War II This study explores how the United States won the Pacific War against Japan and how it sought to secure that victory in the decades that followed ensure it never endured another Pearl Harbor style defeat and saw the Pacific fulfill a Manifest Destiny like role as an American frontier projected toward East Asia The collection explores the role of the US military in the Pacific Basin in different ways by presenting essays on interservice rivalry and military advising as well as unique topics that are new to military history such as the investigations of strategic communications military public relations institutional cultures of elite forces foodways and the military's interaction with the press Together these essays provide a path for historians to pursue groundbreaking areas of research about the Pacific and establish the Pacific War as the pivotal point in the twentieth century in the Pacific Basin

Death of a Generation Howard Jones, 2003-03-06 When John F Kennedy was shot millions were left to wonder how America and the world would have been different had he lived to fulfill the enormous promise of his presidency For many historians and political observers what Kennedy would and would not have done in Vietnam has been a source of enduring controversy Now based on convincing new evidence including a startling revelation about the Kennedy administration's involvement in the assassination of Premier Diem Howard Jones argues that Kennedy intended to withdraw the great bulk of American soldiers and pursue a diplomatic solution to the crisis in Vietnam Drawing upon recently declassified hearings by the Church Committee on the U S role in assassinations newly released tapes of Kennedy White House discussions and interviews with John Kenneth Galbraith Robert McNamara Dean Rusk and others from the president's inner circle Jones shows that Kennedy firmly believed that the outcome of the war depended on the South Vietnamese In the spring of 1962 he instructed Secretary of Defense McNamara to draft a withdrawal plan aimed at having all special military forces home by the end of 1965 The Comprehensive Plan for South Vietnam was ready for approval in early May 1963 but then the Buddhist revolt erupted and postponed the program Convinced that the war was not winnable under Diem's leadership President Kennedy made his most critical mistake promoting a coup as a means for facilitating a U S withdrawal In the cruelest of ironies the coup resulted in Diem's death followed by a state of turmoil in Vietnam that further obstructed disengagement Still these events only confirmed Kennedy's view about South Vietnam's inability to win the war and therefore did not lessen his resolve to reduce the U S commitment By the end of November however the president was dead and Lyndon Johnson began his campaign of escalation Jones argues forcefully that if Kennedy had not been assassinated his withdrawal plan would have spared the lives of 58 000 Americans and countless Vietnamese Written with vivid immediacy supported with authoritative research *Death of a Generation* answers one of the most profoundly important questions left hanging in the aftermath of John F Kennedy's death *Death of a Generation* was a CHOICE Outstanding Academic Title for 2003 *When Soldiers Fall* Steven Casey, 2014-12 *When Soldiers Fall* traces the history of American combat losses and the ways in which

the government has reported casualties from WWI to the current War on Terror

Willbanks, 2004 Drawing upon both archival research and his own military experiences in Vietnam Willbanks focuses on military operations from 1969 through 1975 He begins by analyzing the events that led to a change in U S strategy in 1969 and the subsequent initiation of Vietnamization He then critiques the implementation of that policy and the combat performance of the South Vietnamese army ARVN which finally collapsed in 1975

Shooting the Messenger Paul L. Moorcraft, Philip M. Taylor, 2008-06-30 As the literature on military media relations grows it is informed by antagonism either from journalists who report on wars or from ex soldiers in their memoirs Academics who attempt more judicious accounts rarely have any professional military or media experience A working knowledge of the operational constraints of both professions underscores Shooting the Messenger A veteran war correspondent and think tank director Paul L Moorcraft has served in the British Ministry of Defence while historian by training Philip M Taylor is a professor of international communications who has lectured widely to the U S military and at NATO institutions Some of the topics they examine in this wide ranging history of military media relations are the interface between soldiers and civilian reporters covering conflicts the sometimes grey area between reporters right or need to know and the operational security constraints imposed by the military the military's manipulation of journalists who accept it as a trade off for safer battlefield access the resultant gap between images of war and their reality the evolving nature of media technology and the difficulties and opportunities this poses to the military

journalistic performance in reporting conflict as an observer or a participant Moorcraft and Taylor provide a bridge over which each side can pass and a path to mutual understanding

Selling the Korean War Steven Casey, 2008-03-21 How presidents spark and sustain support for wars remains an enduring and significant problem Korea was the first limited war the U S experienced in the contemporary period the first recent war fought for something less than total victory In *Selling the Korean War* Steven Casey explores how President Truman and then Eisenhower tried to sell it to the American public Based on a massive array of primary sources Casey subtly explores the government's selling activities from all angles He looks at the halting and sometimes chaotic efforts of Harry Truman and Dean Acheson Dwight Eisenhower and John Foster Dulles He examines the relationships that they and their subordinates developed with a host of other institutions from Congress and the press to Hollywood and labor And he assesses the complex and fraught interactions between the military and war correspondents in the battlefield theater itself From high politics to bitter media spats Casey guides the reader through the domestic debates of this messy costly war He highlights the actions and calculations of colorful figures including Senators Robert Taft and Joseph McCarthy and General Douglas MacArthur He details how the culture and work routines of Congress and the media influenced political tactics and daily news stories And he explores how different phases of the war threw up different problems from the initial disasters in the summer of 1950 to the giddy prospects of victory in October 1950 from the massive defeats in the wake of China's massive intervention to the lengthy period of stalemate fighting in 1952 and 1953
