Immigration Commission (1907-1910),1911 *In the Shadow of Race* Victoria Hattam,2007-09-15 Race in the United States has long been associated with heredity and inequality while ethnicity has been linked to language and culture *In the Shadow of Race* recovers the history of this entrenched distinction and the divisive politics it engenders Victoria Hattam locates the origins of ethnicity in the New York Zionist movement of the early 1900s In a major revision of widely held assumptions she argues that Jewish activists identified as ethnics not as a means of assimilating and becoming white but rather as a way of defending immigrant difference as distinct from race rooted in culture rather than body and blood Eventually Hattam shows the Immigration and Naturalization Service and the Census Bureau institutionalized this distinction by classifying Latinos as an ethnic group and not a race But immigration and the resulting population shifts of the last half century have created a political opening for reimagining the relationship between immigration and race How to do so is the question at hand *In the Shadow of Race* concludes by examining the recent New York and Los Angeles elections and the 2006 immigrant rallies across the country to assess the possibilities of forging a more robust alliance between immigrants and African Americans Such an alliance is needed Hattam argues to more effectively redress the persistent inequalities in American life **Immigrants in industries**

publication in the United States US school editions in the first two decades of the twentieth century dramatic adaptations from 1899 to 2007 and Anglo American literary criticism in the latter half of the twentieth century Making extensive use of primary materials Recchio considers Cranford within the context of the Victorian periodical press contemporary reviews theories of text and word relationships in illustrated books community theater and digital media In addition to being a detailed publishing history that emphasizes the material forms of the book and its adaptations Recchio's book is a narrative of Cranford's evolution from an auto ethnography of a receding mid Victorian English way of life to a novel that was deployed as a maternal model to define an American sensibility for early twentieth century Mediterranean and Eastern European immigrants While focusing on one novel Recchio offers a convincing micro history of the way English literature was positioned in England and the United States to support an Anglo centric cultural project to resist the emergence of multicultural societies and to ensure an unchanging notion of a stable English culture on both sides of the Atlantic
