Social Construction of the Past George C. Bond, Angela Gilliam, 2020-04-23 First published in 1994 Anthropological and archaeological enquiry are shaped by the historical times in which they are formulated This collection of essays examines how mainstream scholarship constructs the past in the case of anthropologists usually the past of other peoples By creating another people's cultural history scholars appropriate it and turn it into a form of domination by one group over another Mainstream scholarship has often failed to recognize the intellectual and scholarly contribution of subjugated peoples This volume looks at the way postcolonial scholars are redefining the nature of scholarship and themselves in order to develop a more egalitarian discourse Social Constructions of the Past examines labour race and gender and its relationship to power and class It includes essays on a broad range of topics from the role of intellectuals in restructuring a non apartheid South Africa to Haitian working class women using sexuality to resist domination

Catalytic

Conversations Ann C. Baker, 2015-04-08 In today's increasingly globalized world it is essential that people of diverse ethnicities and socio-economic backgrounds learn to work together and communicate effectively This book offers a breakthrough approach to recognizing that differences among people are resources for organizations to tap as they strive to anticipate change and adapt rapidly in an unpredictable world Catalytic Conversations provides a conceptual framework for understanding how complex communication patterns of social networks influence and are influenced by organizational structures It discusses how to enhance the quality and viability of groups and organizational life by paying attention to how people talk and do not talk to each other The book distinguishes between conversations that support organizational enhancement and others that inhibit innovation and explores the complexity of organizational communication in detail

Disruptive Voices Michelle Fine, 1992 Provocative essays on the ways feminist approaches to research can unite research practice and social action **Feminist Psychology** Aarti Dua, 2006 Feminist Psychology introduces a distinctive new mode of doing psychology This psychology is based on an increasingly popular range of ideas called social

constructionism Within the book new forms of theory and methods of inquiry relating social constructionism to feminist topics are introduced Each chapter highlights different topics of special concern within gender studies especially the psychology of women **Facing the Mirror** Frida Furman, 2013-02 The women at Julie's International Salon share their

experiences of bodily self-presentation femininity aging and caring Their own words are at the center of the book the stories of their lives fresh and compelling are told here with affection But beyond the stories themselves Frida Kerner Furman explores the socio-moral significance of these beauty shop experiences showing how they reveal as much about society at large as about older women For in telling us how they perceive reality make choices and live in their worlds the women of Julie's expose structures of power inequality and resistance in the larger world that all of us young or old beautiful or not face every day **Writing and Psychology** Douglas Vipond, 1993-09-21 Although psychology is steeped in writing as a

discipline it has developed little explicit understanding of writing This is the first book to examine writing and the teaching of writing in psychology from the standpoint of composition studies the scholarly field that specializes in the study and teaching of writing The book's purpose is to develop a different richer more explicit understanding of writing than psychology presently has Three major aspects of writing are discussed audience genre and style After examining these the author draws implications for the teaching of writing in psychology The work does not aim to tell psychologists how to write better rather it suggests how they might think differently about writing **Measuring the Quantum State of Light** Ulf

Leonhardt, 1997-07-13 Appendix A Semiclassical approximation **The Developmental Psychopathology of Eating**

Disorders Linda Smolak, Ruth H. Striegel-Moore, Michael P. Levine, 2013-01-11 Although eating problems ranging from body dissatisfaction and dieting to anorexia nervosa or bulimia nervosa can begin and typically have their roots in childhood theory and research in developmental psychopathology and developmental psychology have not received substantial

attention in eating disorders research This book provides crucial background material from both fields and then makes direct applications to numerous aspects of the field of eating disorders including theory research treatment and primary prevention This book was born out of a transaction between frustration and optimism The frustrations reflected the limitations of current knowledge about eating problems and disorders Etiological causes which are sensitive and specific to eating disorders have been elusive Although there is some understanding of risk factors little is known about protective factors This has made prevention among other things difficult Furthermore the mechanisms underlying the association between risk factors and disordered eating are poorly understood For example it is known that women are at greater risk than men are but clinicians are hard pressed to get beyond gender based speculations and demonstrate why this is true The optimism grows from familiarity with the field of developmental psychopathology It seems evident that this approach has much to offer the field of eating disorders This book is an early step in the integration of developmental psychopathology into theorizing research treatment and prevention of eating disorders It addresses four specific goals to introduce the principles and methodologies of developmental psychopathology to review the work of developmental psychologists in several major areas of behavior relevant to understanding the causes treatment and prevention of eating disorders to apply developmental psychopathology principles to the area of eating disorders both in the form of theoretical models and in specific areas issues raised by developmental psychopathology and to discuss the implications of developmental approaches for prevention programs and treatments
