American Torture from the Philippines to Iraq William L. d'Ambruoso, 2021-12-21 What explains the United States persistent use of torture over the past hundred plus years Not only is torture incompatible with liberal values it is also risky and frequently ineffective as an interrogation method Drawing on archival testimony from the Philippine American War 1899 1902 the Vietnam War and the post 2001 war on terror William

L d Ambruoso argues that the norm against torture includes features that help explain why liberal democracies like the United States continue to violate it

Buying and Selling Civil War Memory in Gilded Age America James Marten, Caroline E. Janney, 2021-07-15 Buying and Selling Civil War Memory explores the ways in which Gilded Age manufacturers advertisers publishers and others commercialized Civil War memory Advertisers used images of the war to sell everything from cigarettes to sewing machines an entire industry grew up around uniforms made for veterans rather than soldiers publishing houses built subscription bases by tapping into wartime loyalties while old and young alike found endless sources of entertainment that harkened back to the war Moving beyond the discussions of how Civil War memory shaped politics and race relations the essays assembled by James Marten and Caroline E Janney provide a new framework for examining the intersections of material culture consumerism and contested memory in the everyday lives of late nineteenth century Americans Each essay offers a case study of a product experience or idea related to how the Civil War was remembered and memorialized Taken together these essays trace the ways the buying and selling of the Civil War shaped Americans thinking about the conflict making an important contribution to scholarship on Civil War memory and extending our understanding of subjects as varied as print visual and popular culture finance and the histories of education of the book and of capitalism in this period This highly teachable volume presents an exciting intellectual fusion by bringing the subfield of memory studies into conversation with the literature on material culture The volume's contributors include Amanda Brickell Bellows Crompton B Burton Kevin R Caprice Shae Smith Cox Barbara A Gannon Edward John Harcourt Anna Gibson Holloway Jonathan S Jones Margaret Fairgrieve Milanick John Neff Paul Ringel Natalie Sweet David K Thomson and Jonathan W White

The American Civil War and the Hollywood War Film John Trafton, 2016-04-29 Throughout film history war films have been in constant dialogue with both previous depictions of war and contemporary debates and technology War films remember older war film cycles and draw upon the resources of the present day to say something new about the nature of war The American Civil War was viscerally documented through large scale panorama paintings still photography and soldier testimonials leaving behind representational principles that would later inform the development of the war film genre from the silent era up to the present This book explores how each of these representational modes cemented different formulas for providing war stories with emotional content

Generations of Human Rights Activism, 1748-1935 George R. Price,2020-06-01 This is a non fiction biographical book about some of my direct ancestors and their relatives who stood up for justice and equality and against racism and oppression between the years of 1748 and 1935 The topics include Indigenous land rights struggles the original spirit and egalitarian goals of the American Revolution before that movement was co opted and sabotaged by the plantation aristocrats and capitalists the anti slavery movement race theory and racial identities and the ever present American anti racism and equality movements Most of the action in these stories took place in southeastern Massachusetts our Wampanoag homelands but also in other New England locations and in Texas New Orleans and California Many of these complex identity people of color were abolitionists before the Civil War Generations of Exclusion Edward E. Telles,Vilma Ortiz,2008-03-21 Foreword by Joan W Moore When boxes of original files from a 1965 survey of Mexican Americans were discovered behind a dusty bookshelf at UCLA sociologists Edward Telles and Vilma Ortiz recognized a unique opportunity to examine how the Mexican American experience has evolved over the past four decades Telles and Ortiz located and re interviewed most of the original respondents and many of their children Then they combined the findings of both studies to construct a thirty five year analysis of Mexican American integration into American society Generations of Exclusion is the result of this extraordinary project Generations of Exclusion measures Mexican American integration across a wide number of dimensions education English and Spanish language use socioeconomic status intermarriage residential segregation ethnic identity and political participation The study contains some encouraging findings but many more that are troubling Linguistically Mexican Americans assimilate into mainstream America quite well by the second generation nearly all Mexican Americans achieve English proficiency In many domains however the Mexican American story doesn t fit with traditional models of assimilation

The majority of fourth generation Mexican Americans continue to live in Hispanic neighborhoods marry other Hispanics and think of themselves as Mexican And while Mexican Americans make financial strides from the first to the second generation economic progress halts at the second generation and poverty rates remain high for later generations Similarly educational attainment peaks among second generation children of immigrants but declines for the third and fourth generations Telles and Ortiz identify institutional barriers as a major source of Mexican American disadvantage Chronic under funding in school systems predominately serving Mexican Americans severely restrains progress Persistent discrimination punitive immigration policies and reliance on cheap Mexican labor in the southwestern states all make integration more difficult The authors call for providing Mexican American children with the educational opportunities that European immigrants in previous generations enjoyed The Mexican American trajectory is distinct but so is the extent to which this group has been excluded from the American mainstream Most immigration literature today focuses either on the immediate impact of immigration or what is happening to the children of newcomers to this country Generations of Exclusion shows what has happened to Mexican Americans over four decades In opening this window onto the past and linking it to recent outcomes Telles and Ortiz provide a troubling glimpse of what other new immigrant groups may experience in the future *American Magazine*, 1911
