Representative Phi Beta Kappa Orations (Classic Reprint) Clark Sutherland Northup, 2015-07-04 Excerpt from
Representative Phi Beta Kappa Orations The Phi Beta Kappa was organized not only as a fraternal but as a literary and
debating society and the exercises appropriate in such a society were conducted with more or less regularity for many years
In addition to these exercises there grew up in several chapters the custom of an annual meeting with an oration and a poem
The annual address has now become indeed a custom in most of the eighty six chapters and thus has been produced a
considerable body of literature The list of those addresses which have been printed already includes some hundreds of titles
The range of subjects dealt with by these orators is a wide one Many have been educators and have discussed topics
connected with their profession others have dealt with political historical social or religious topics Many of these addresses
possess intrinsic value and nearly all even the earliest have still some value as reflecting the opinions of their times or of
their authors It has been thought by many that some of the most representative of these orations should be reprinted not only
because they are in themselves worthy of thus receiving a new lease of life but also because such a collection would help to
emphasize the aims for which the Society has always stood the cultivation of friendship literature and morality To the
Committee named below therefore the United Chapters has entrusted the task of selecting these orations and of seeing the
volume through the press The Committee has found it by no means easy to make a selection doubtless several more volumes
as good as this could be made The Committee hopes that the reception accorded this volume may be so favorable as to make
possible the publication of a second series of orations and perhaps a volume of poems The frontispiece is from a crayon
portrait of Emerson about 1846 by either Hildreth or Johnston and first appeared in Volume V of Emerson s Journals It is
