how sport is global and as such commercial attractiveness can and often will impact locally on communities of people and individuals. This book was published as a special issue of *Sport in Society*. Worldwide Experiences and Trends in Sport for All Lamartine Pereira da Costa, Ana Miragaya, 2002. This collective volume contributes to a growing debate concerning the extent to which we are now living in a global society shaped by sport in addition to economy, technology and so on. It covers 36 countries from five continents analyzed by 87 contributors so it offers a large comparative study. It is also a data bank of national information resources for students, researchers, policy makers, sports leaders and managers. By means of a standard framework used in all chapters, the collected data from national cases on history, management and culture of sport provide interpretations of marketing, sponsorship, finance, target groups, settings for activities, strategy of promotion and social changes as related to Sport for All. This cross-national approach seeks to offer adequate meaning to the practices of each country, stimulating further research on specific themes of physical activities for health and leisure either in affluent or poor social conditions. The concluding chapter lays the groundwork of Sport for All. *A Companion to Sport* David L. Andrews, Ben Carrington, 2013-09-10. *A Companion to Sport* brings together writing by leading sports theorists and social and cultural thinkers to explore sport as a central element of contemporary culture. Positions sport as a crucial subject for critical analysis as one of the most significant forms of popular culture. Includes both well-known social and cultural theorists whose work lends itself to an interrogation of sport and leading theorists of sport itself. Offers a comprehensive examination of sport as a social and cultural practice and institution. Explores sport in relation to modernity, postcolonial theory, gender, violence, race, disability and politics. Sport Worlds Joseph A. Maguire, 2002. This text looks at the sociology of sport. Narrative case studies of sports sociology from all over the world provide examples of how to interpret issues in professional and elite sports from a sociological perspective. **Strategic Sport Communication** Paul M.
