companies device manufacturers Wall Street investment banks private equity firms hedge funds and others that rely on the 600 billion that Medicare spends a year The ties that bind Wall Street and Washington in the healthcare industry are strong and they will play an outsized role in determining Medicare s future Gibson and Singh reveal how the industry s interests are often at odds with those of seniors and boomers While some politicians point to the culture of dependence of the public on Medicare the authors suggest that policymakers turn their attention to the culture of dependence of the healthcare industry on Medicare which is the predominant force pushing the program toward a fiscal cliff The amount of waste in the Medicare program is equivalent to the entire economy of New Zealand For Medicare to be sustained this culture of dependence and the habits it breeds namely waste excessive pricing and overuse of unnecessary services should be the first priority for the chopping block By parings back the excess the authors argue Medicare can be sustained for future generations This is essential reading for anyone interested in how Medicare works how it could work better and where it will go if reforms are not made      **Federal Register** ,2008-06-12      **Outlines of Corporations ...** ,1927
