Republicanism Vol 1 A Shared European Heritage

Maurizio Viroli

Republicanism Vol 1 A Shared European Heritage:

Republicanism: Volume 1, Republicanism and Constitutionalism in Early Modern Europe Martin van Gelderen, Quentin Skinner, 2002-11-21 These volumes are the fruits of a major European Science Foundation project and offer the first comprehensive study of republicanism as a shared European heritage Whilst previous research has mainly focused on Atlantic traditions of republicanism Professors Skinner and van Gelderen have assembled an internationally distinguished set of contributors whose studies highlight the richness and diversity of European traditions Volume I focuses on the importance of anti monarchism in Europe and analyses the relationship between citizenship and civic humanism concluding with studies of the relationship between constitutionalism and republicanism in the period between 1500 and 1800 Volume II first published in 2002 is devoted to the study of key republican values such as liberty virtue politeness and toleration This volume also addresses the role of women in European republican traditions and contains a number of in depth studies of the relationship between republicanism and the rise of a commercial society in early modern Europe

Republicanism Rachel Hammersley, 2020-09-22 Republicanism is a centuries old political tradition yet its precise meaning has long been contested The term has been used to refer to government in the public interest to regimes administered by a collective body or an elected president and even just to systems embodying the values of liberty and civic virtue But what do we really mean when we talk about republicanism In this new book leading scholar Rachel Hammersley expertly and accessibly introduces this complex but important topic Beginning in the ancient world she traces the history of republican government in theory and practice across the centuries in Europe and North America concluding with an analysis of republicanism in our contemporary politics She argues that republicanism is a dynamic political language with each new generation of thinkers building on the ideas of their predecessors and adapting them in response to their own circumstances concerns and crises This compelling account of the origins history and potential future of one of the world's most enduring political ideas will be essential reading for anyone with an interest in republicanism from historians and political theorists to politicians and ordinary citizens

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but

possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power

Explorations in History and Globalization Cátia Antunes,Karwan Fatah-Black,2016-04-14 Considering the ways in which the global turn is changing the theory and practice of historical disciplines Explorations in History and Globalization engages with the concept and methodology of globalization challenging traditional divisions of space and time to offer a range of perspectives on how globalization has affected social economic political and cultural history Each chapter covers a specific theme discussing how globalization has shaped these themes and how they have contributed to globalization throughout history Including topics such as ecological exchanges trade exchanges of knowledge migration empire and urbanization this volume both explains historical trajectories through a global analytical framework and provides tools that students can employ when posing their own research questions about historical globalization Containing suggestions for further reading and guidance on the ways in which primary source material can be used as a basis for global historical studies this is the ideal volume for all students interested in the global exchanges between people throughout history

A Companion to the Political Culture of the Roman Republic Valentina Arena,Jonathan R. W. Prag,Andrew Stiles,2022-01-25 An insightful and original exploration of Roman Republic politics In A Companion to the Political Culture of the Roman Republic editors Valentina Arena and Jonathan Prag deliver an incisive and original collection of forty contributions from leading academics representing various intellectual and academic traditions The collected works represent some of the best scholarship in recent decades and adopt a variety of approaches each of which confronts major problems in the field and contributes to ongoing research The book represents a new updated and comprehensive view of the political world of Republican Rome and some of the included essays are available in English for the first time Divided into six parts the discussions consider the institutionalized loci political actors and values rituals and discourse that characterized Republican Rome The Companion also offers several case studies and sections on the history of the interpretation of political life in the Roman Republic Key features include A thorough introduction to the Roman political world as seen through the wider lenses of Roman political culture Comprehensive explorations of the fundamental components of Roman political culture including ideas and values civic and religious rituals myths and communicative strategies Practical discussions of Roman Republic institutions both with reference to their formal rules and prescriptions and as patterns of social organization In depth examinations of the afterlife of the Roman Republic both in ancient authors and in early modern and modern times Perfect for students of all levels of the ancient world A Companion to the Political Culture of the Roman Republic will also earn a place in the libraries of scholars and students of politics political history and the history of ideas

Redescriptions Kari Palonen,2005 With nine articles neatly combining contemporary theorizing and historical approaches to political thought and

concepts this volume of Redescriptions draws attention to two topics several of the contributions share In these articles rhetoric serves both as a style of political theorizing and as a medium of conceptual change In addition the relationship of political thought and practice to religion is discussed as a subject matter as well as in the sense of a cultural heritage that is used by the political agents for contemporary purposes

Beyond the Republican Revival Eric Ghosh, 2020-10-29 This is the first book length treatment of both the non positive and the positive liberty strands of the republican revival in political and constitutional theory The republican revival pursued especially over the last few decades has presented republicanism as an exciting alternative to the dominant tradition of liberalism The book provides a sharply different interpretation of liberty from that found in the republican revival and it argues that this different interpretation is not only historically more faithful to some prominent writers identified with the republican tradition but is also normatively more attractive The normative advantages are revealed through discussion of some central concerns relating to democracy and constitutionalism including the justification for democracy and the interpretation of constitutional rights The book also looks beyond republican liberty by drawing on the republican device of sortition selection by lot It proposes the use of large juries to decide bill of rights matters This novel proposal indicates how democracy might be reconciled with constitutional review based on a bill of rights Republicanism is not pitted against liberalism the favoured values and institutions fit with liberal commitments

[Polish Republican Discourse in the Sixteenth Century](#) Dorota Pietrzyk-Reeves, 2020-04-09 A landmark study of republican discourse in sixteenth century Poland Lithuania and its original contribution to early modern republicanism

The English Republican tradition and eighteenth-century France Rachel Hammersley, 2013-07-19 The English republican tradition and eighteenth century France offers the first full account of the role played by seventeenth and eighteenth century English republican ideas in eighteenth century France Challenging some of the dominant accounts of the republican tradition it revises conventional understandings of what republicanism meant in both Britain and France during the eighteenth century offering a distinctive trajectory as regards ancient and modern constructions and highlighting variety rather than homogeneity within the tradition Hammersley thus offers a new and fascinating perspective on both the legacy of the English republican tradition and the origins and thought of the French Revolution The book focuses on a series of case studies featuring such colourful and influential characters as John Toland Viscount Bolingbroke John Wilkes and the Comte de Mirabeau This book will thus be of value to all those interested in the fields of intellectual history and the history of political thought seventeenth and eighteenth century British history eighteenth century French history and French Revolution studies

European Contexts for English Republicanism Gaby Mahlberg, Dirk Wiemann, 2016-04-22 *European Contexts for English Republicanism* offers new perspectives on early modern English republicanism through its focus on the Continental reception of and engagement with seventeenth century English thinkers and political events Looking both at political ideas and at the people that shaped them the collection examines English republican thought in its wider European context during the later

seventeenth and eighteenth century In a number of case studies the contributors assess the different ways in which English republican ideas were not only shaped by the thought of the ancients but also by contemporary authors from all over Europe such as Hugo Grotius or Christoph Besold They demonstrate that English republican thinkers did not only act in dialogue with Continental authors and scholars their ideas in turn also left a long lasting legacy in Europe as they were received transformed and put to new uses by thinkers in France Italy the Netherlands Germany and Poland Far from being an exclusively transatlantic affair as much of the established scholarship suggests English republican thought also left its legacy on the European Continent finding its way into wider debates about the rights and wrongs of the English Civil War and the nature of government while later translations of English republican works also influenced the key thinkers of the French Revolution and the liberals of the nineteenth century Bringing together a range of fresh and original essays by British and European scholars in the field of early modern intellectual history and English studies this collection of essays revises a one sided approach to English republicanism and widens the scope of study beyond linguistic and national boundaries by looking at English republicans and their continental networks and legacy

Agents of the People Pasi Ihalainen, 2010-03-22 This book on the pre history of democratization shows how and why more modern attitudes to democracy started to emerge in the late eighteenth century Focusing on the language of parliamentarians the author reconstructs and compares debates on the political role and representation of the people in Britain and Sweden His analysis demonstrates not only the persistence of the classical pejorative conception of democracy but also the gradual re evaluation of the notion prior to the French Revolution The author analyses the clash between British and French conceptions of democracy as well as the first definitions of the sovereignty of Parliament as the sovereignty of the people Furthermore by placing parliamentary discourse in the context of public debates he reveals the previously ignored role that parliaments played in redefining the most crucial concepts in Western political theory

Borders and Travellers in Early Modern Europe Thomas Betteridge, 2017-03-02 Early modern Europe was obsessed with borders and travel It found imagined and manufactured new borders for its travellers to cross It celebrated and feared borders as places or states where meanings were charged and changed In early modern Europe crossing a border could take many forms sailing to the Americas visiting a hospital or taking a trip through London s sewage system Borders were places that people lived on through and against Some were temporary like illness while others claimed to be absolute like that between the civilized world and the savage but as the chapters in this volume show to cross any of them was an exciting anxious and often a potentially dangerous act Providing a trans European interdisciplinary approach the collection focuses on three particular aspects of travel and borders change status and function To travel was to change not only humans but texts words goods and money were all in motion at this time having a profound influence on cultures societies and individuals within Europe and beyond Likewise status was not a fixed commodity and the meaning and appearance of borders varied and could simultaneously be regarded as hostile and welcoming restrictive and opportunistic

according to one's personal viewpoint The volume also emphasizes the fact that borders always serve multiple functions empowering and oppressing protecting and threatening in equal measure By using these three concepts as measures by which to explore a variety of subjects *Borders and Travellers in Early Modern Europe* provides a fascinating new perspective from which to reassess the way in which early modern Europeans viewed themselves their neighbours and the wider world with which they were increasingly interacting

The Merchant Republics Mary Lindemann, 2015 This book analyzes the ways in which Amsterdam Antwerp and Hamburg developed dual identities as communities of commerce and republics

A King Translated Astrid Stilma, 2016-03-23 King James is well known as the most prolific writer of all the Stuart monarchs publishing works on numerous topics and issues These works were widely read not only in Scotland and England but also on the Continent where they appeared in several translations In this book Dr Stilma looks both at the domestic and international context to James's writings using as a case study a set of Dutch translations which includes his religious meditations his epic poem *The Battle of Lepanto* his treatise on witchcraft *Daemonologie* and his manual on kingship *Basilikon Doron* The book provides an examination of James's writings within their original Scottish context particularly their political implications and their role in his management of his religious political reputation both at home and abroad The second half of each chapter is concerned with contemporary interpretations of these works by James's readers The Dutch translations are presented as a case study of an ultra protestant and anti Spanish reading from which James emerges as a potential leader of protestant Europe a reputation he initially courted then distanced himself from after his accession to the English throne in 1603 In so doing this book greatly adds to our appreciation of James as an author providing an exploration of his works as politically expedient statements which were sometimes ambiguous enough to allow diverging and occasionally unwelcome interpretations It is one of the few studies of James to offer a sustained critical reading of these texts together with an exploration of the national and international context in which they were published and read As such this book contributes to the understanding not only of James's works as political tools but also of the preoccupations of publishers and translators and the interpretative spaces in the works they were making available to an international audience

Textual Conversations in the Renaissance Zachary Lesser, Benedict Scott Robinson, 2006 A group of leading scholars here investigate the varied ways in which the Renaissance incorporated conversation and dialogue into its literary political juridical religious and social practices Across a range of texts and genres the essays focus on the importance of conversation to early modern understandings of ethics on literary history itself as an ongoing authorial conversation and on the material and textual technologies that enabled early modern conversations

The Politics of Patriotism Jonathan Parry, 2006-11-30 Parry offers an analysis of the ideas that influenced the Liberal political coalition between the 1830s and 1880s

Freedom and the Construction of Europe: Volume 2, Free Persons and Free States Quentin Skinner, Martin van Gelderen, 2013-03-07 Freedom today perceived simply as a human right was a continually contested idea in the early modern period In Freedom

and the Construction of Europe an international group of scholars explore the richness diversity and complexity of thinking about freedom in the shaping of modernity Volume 2 considers free persons and free states examining differing views about freedom of thought and action and their relations to conceptions of citizenship Debates about freedom have been fundamental to the construction of modern Europe but represent a part of our intellectual heritage that is rarely examined in depth These volumes provide materials for thinking in fresh ways not merely about the concept of freedom but how it has come to be understood in our own time

The French Revolution in Global Perspective Suzanne Desan, Lynn Hunt, William Max Nelson, 2013-03-19 Situating the French Revolution in the context of early modern globalization for the first time this book offers a new approach to understanding its international origins and worldwide effects A distinguished group of contributors shows that the political culture of the Revolution emerged out of a long history of global commerce imperial competition and the movement of people and ideas in places as far flung as India Egypt Guiana and the Caribbean This international approach helps to explain how the Revolution fused immense idealism with territorial ambition and combined the drive for human rights with various forms of exclusion The essays examine topics including the role of smuggling and free trade in the origins of the French Revolution the entwined nature of feminism and abolitionism and the influence of the French revolutionary wars on the shape of American empire The French Revolution in Global Perspective illuminates the dense connections among the cultural social and economic aspects of the French Revolution revealing how new political forms at once democratic and imperial anticolonial and centralizing were generated in and through continual transnational exchanges and dialogues Contributors Rafe Blaufarb Florida State University Ian Coller La Trobe University Denise Davidson Georgia State University Suzanne Desan University of Wisconsin Madison Lynn Hunt University of California Los Angeles Andrew Jainchill Queen s University Michael Kwass The Johns Hopkins University William Max Nelson University of Toronto Pierre Serna Universit Paris I Panth on Sorbonne Miranda Spieler University of Arizona Charles Walton Yale University

Machiavelli's God Maurizio Viroli, 2012-08-05 How Machiavelli s Christianity shaped his political thought To many readers of The Prince Machiavelli appears to be deeply un Christian or even anti Christian a cynic who thinks rulers should use religion only to keep their subjects in check But in Machiavelli s God Maurizio Viroli one of the world s leading authorities on Machiavelli argues that Machiavelli far from opposing Christianity thought it was crucial to republican social and political renewal but that first it needed to be renewed itself And without understanding this Viroli contends it is impossible to comprehend Machiavelli s thought Viroli places Machiavelli in the context of Florence s republican Christianity which was founded on the idea that the true Christian is a citizen who serves the common good In this tradition God participates in human affairs supports and rewards those who govern justly and desires men to make the earthly city similar to the divine one Building on this tradition Machiavelli advocated a religion of virtue and he believed that without this faith free republics could not be established defend themselves against corruption or survive Viroli makes a powerful case that

Machiavelli far from being a pagan or atheist was a prophet of a true religion of liberty a way of moral and political living that would rediscover and pursue charity and justice The translation of this work has been funded by SEPS Segretariato Europeo per le Pubblicazioni Scientifiche **Calvinism and the Making of the European Mind** ,2014-09-18 Calvinism must be assigned a significant place among the forces that have shaped modern European culture Even now despite its history of religious fragmentation and secularization Europe continues to bear the marks of a pervasive Calvinist ethos The character of that ethos is however difficult to pin down In this volume many of the traditional scholarly conundrums about the relationship between Calvinism and the cultural history of Europe are revisited and re investigated to see what new light can be shed on them For example how has the ethos of Calvinism or more broadly the Reformed tradition affected economic thinking and practice the development of the sciences views on religious toleration or the constitution of European polities In general what kind of transformations did Calvinism s distinct spirituality bring about Such questions demand painstaking and detailed scholarly work a fine sample of which is published in this volume

The Enigmatic Realm of **Republicanism Vol 1 A Shared European Heritage**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing lacking extraordinary. Within the captivating pages of **Republicanism Vol 1 A Shared European Heritage** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting effect on the hearts and minds of people who partake in its reading experience.

Republicanism Vol 1 A Shared European Heritage Introduction

In today's digital age, the availability of Republicanism Vol 1 A Shared European Heritage books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Republicanism Vol 1 A Shared European Heritage books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Republicanism Vol 1 A Shared European Heritage books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Republicanism Vol 1 A Shared European Heritage versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Republicanism Vol 1 A Shared European Heritage books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Republicanism Vol 1 A Shared European Heritage books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Republicanism Vol 1 A Shared European Heritage books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them

accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Republicanism Vol 1 A Shared European Heritage books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Republicanism Vol 1 A Shared European Heritage books and manuals for download and embark on your journey of knowledge?

FAQs About Republicanism Vol 1 A Shared European Heritage Books

1. Where can I buy Republicanism Vol 1 A Shared European Heritage books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
