## **Rereading Aristotles Rhetoric:**

**Rereading Aristotle's Rhetoric** Alan G. Gross, Arthur E. Walzer, 2008-02-20 In this collection edited by Alan G Gross and Arthur E Walzer scholars in communication rhetoric and composition and philosophy seek to reread Aristotle's Rhetoric from a purely rhetorical perspective So important do these contributors find the Rhetoric in fact that a core tenet in this book is that all subsequent rhetorical theory is but a series of responses to issues raised by the central work The essays reflect on questions basic to rhetoric as a humanistic discipline Some explore the ways in which the Rhetoric explicates the nature of the art of rhetoric noting that on this issue the tensions within the Rhetoric often provide a direct passageway into our own conflicts     The Deep Ecology of Rhetoric in Mencius and Aristotle Douglas Robinson, 2016-05-09 Discusses philosophers Mencius and Aristotle as socio ecological thinkers Mencius 385/303-302 BCE and Aristotle 384/322 BCE were contemporaries but are often understood to represent opposite ends of the philosophical spectrum Mencius is associated with the ecological emergent flowing and connected Aristotle with the rational static abstract and binary Douglas Robinson argues that in their conceptions of rhetoric at least Mencius and Aristotle are much more similar than different both are powerfully socio ecological espousing and exploring collectivist thinking about the circulation of energy and social value through groups The agent performing the actions of *pistis* persuading and being persuaded in Aristotle and *zhi* governing and being governed in Mencius is Robinson demonstrates not so much the rhetor as an individual as it is the whole group Robinson tracks this collectivistic thinking through a series of comparative considerations using a theory that draws impetus from Arne Naess's ecosophical deep ecology and from work on rhetoric powered by affective ecologies but with details of the theory drawn equally from Mencius and Aristotle     Aristotle's Art of Rhetoric Aristotle, 2019-03-29 A singularly accurate readable and elegant translation of this much neglected foundational text of political philosophy Peter Ahrens Dorf Davidson College For more than two thousand years Aristotle's Art of Rhetoric has shaped thought on the theory and practice of persuasive speech In three sections Aristotle defines three kinds of rhetoric deliberative judicial and epideictic discusses three rhetorical modes of persuasion and describes the diction style and necessary parts of a successful speech Throughout Aristotle defends rhetoric as an art and a crucial tool for deliberative politics while also recognizing its capacity to be misused by unscrupulous politicians to mislead or illegitimately persuade others Here Robert C Bartlett offers an authoritative yet accessible new translation of Aristotle's Art of Rhetoric one that takes into account important alternatives in the manuscript and is fully annotated to explain historical literary and other allusions Bartlett's translation is also accompanied by an outline of the argument of each book copious indexes including subjects proper names and literary citations a glossary of key terms and a substantial interpretive essay     Rhetorics and Hermeneutics James D. Hester, David Hester, 2004-01-01 This collection of essays provides original studies of various New Testament texts read through the eyes of rhetorical criticism as well as a tribute to the continuing influence of Wilhelm Wuellner and his work     **The Bloomsbury Companion to Aristotle** Claudia

Baracchi,2014-01-30 Aristotle is one of the most crucial figures in the history of Western thought and his name and ideas continue to be invoked in a wide range of contemporary philosophical discussions The Bloomsbury Companion to Aristotle brings together leading scholars from across the world and from a variety of philosophical traditions to survey the recent research on Aristotle s thought and its contributions to the full spectrum of philosophical enquiry from logic to the natural sciences and psychology from metaphysics to ethics politics and aesthetics Further essays address aspects of the transmission preservation and elaboration of Aristotle s thought in subsequent phases of the history of philosophy from the Judeo Arabic reception to debates in Europe and North America and look forward to potential future directions for the study of his thought In addition The Bloomsbury Companion to Aristotle includes an extensive range of essential reference tools offering assistance to researchers working in the field including a chronology of recent research a glossary of key Aristotelian terms with Latin concordances and textual references and a guide to further reading *The Intertexture of Apocalyptic Discourse in the New Testament* Duane Frederick Watson,2002 These essays examine the intertexture of apocalyptic discourse in the New Testament what the discourse represents refers to and uses of outside phenomena Intertexture includes references in the Hebrew Bible intertestamental and Greco Roman texts and social and cultural phenomena Paperback edition is available from the Society of Biblical Literature [www.sbl-site.org](http://www.sbl-site.org) **The Routledge Handbook of Language and Persuasion** Jeanne Fahnestock,Randy Allen Harris,2022-09-30 This handbook provides a wide ranging authoritative and cutting edge overview of language and persuasion Featuring a range of international contributors the handbook outlines the basic materials of linguistic persuasion sound words syntax and discourse and the rhetorical basics that they enable such as appeals argument schemes arrangement strategies and accommodation devices After a comprehensive introduction that brings together the elements of linguistics and the vectors of rhetoric the handbook is divided into six parts Part I covers the basic rhetorical appeals to character the emotions argument schemes and types of issues that constitute persuasion Part II covers the enduring effects of persuasive language from humor to polarization while a special group of chapters in Part III examines figures of speech and their rhetorical uses In Part IV contributors focus on different fields and genres of argument as entry points for research into conventions of arguing Part V examines the evolutionary and developmental roots of persuasive language and Part VI highlights new computational methods of language analysis This handbook is essential reading for those researching and studying persuasive language in the fields of linguistics rhetoric argumentation communication discourse studies political science psychology digital studies mass media and journalism [Ramus, Pedagogy and the Liberal Arts](#) Emma Annette Wilson,2016-04-08 Most early modern scholars know that Petrus Ramus 1515 1572 is important but may be rather vague as to where his importance lies This new collection of essays analyses the impact of the logician rhetorician and pedagogical innovator across a variety of countries and intellectual disciplines reappraising Ramus in the light of scholarly developments in the fifty years since the publication of Walter Ong s

seminal work *Ramus Method and the Decay of Dialogue* Chapters reflect the broad impact of Ramus and the Ramist method of teaching across many subjects including logic and rhetoric pedagogy mathematics philosophy and new scientific and taxonomic developments in the sixteenth and seventeenth centuries There is no current work that offers such a broad survey of Ramus and Ramism or that looks at him in such an interdisciplinary fashion Ramus influence extended across many disciplines and this book skillfully weaves together studies in intellectual history pedagogy literature philosophy and the history of science It will prove a useful starting point for those interested in Ramus and his impact as well as serving to redefine the field of Ramist studies for future scholars *Marketing, Rhetoric and Control* Christopher Miles, 2018-04-19

*Marketing Rhetoric and Control* investigates the tensions that surround the place of persuasion and more broadly control in marketing Persuasion has variously been seen as an embarrassment to the discipline a target for anti marketing sentiment the source of marketing's value in the modern organisation a mysterious black box inside the otherwise rational and logical endeavour of enterprise and a rather insignificant part of the marketing programme This book argues that this multifarious reputation for persuasion within marketing stems from the influence of two quite oppositional paradigms the scientific and the magico rhetorical that ebb and flow across the discourses of its discipline and practice Constructing an interface between original challenging close readings of texts from the beginnings of the Western rhetorical tradition and an examination of the ways in which marketing has set about describing itself this text argues for a Sophistic interpretation of marketing From this perspective marketing is understood as providing intermediary services to facilitate the continuing exchange of attention and regard between firm client and stakeholders It seeks to manage and direct this exchange through an appreciation of the changing rational and irrational motivations of the firm and stakeholders using these as resources for the construction of both planned and improvised persuasive interactions in agonistic or competitive environments This book is aimed primarily at researchers and academics working in the fields of marketing marketing communications and the related disciplines of marketing theory critical marketing and digital marketing It will also be of value to marketing academics in business schools including those working in the areas of media and communication studies who have an interest in commercial and corporate communication brand use of interactive media and communication theory **Apocalyptic Sheep and Goats in Matthew**

**and 1 Enoch** Elekosi F. Lafitaga, 2022-03-25 An alternative understanding of apocalyptic eschatology in the Gospel of Matthew Matthew's eschatological imageries of judgment are often identified as apocalyptic and referred to as Matthew's apocalyptic discourses In this volume Elekosi F. Lafitaga reexamines Matthew's vision of the sheep and goats in the judgment of the nations which are often interpreted as metaphors for the saved and the condemned Lafitaga views these images in the wider context of the rhetoric of apocalyptic communication stretching back to Matthew 3 This broader context reveals that the vision of Matthew 25 serves to exhort Israel in the here and now according to the Torah with salvation for Israel involving an indispensable responsibility to love and serve humanity Central to Lafitaga's analysis is the highly probable scenario that

the material in Matthew is dependent on the Book of Dreams 1 Enoch 83 90 Deliberative Rhetoric Christian Kock, 2017-11-09 Christian Kock's essays show the essential interconnectedness of practical reasoning rhetoric and deliberative democracy They constitute a unique contribution to argumentation theory that draws on and criticizes the work of philosophers rhetoricians political scientists and other argumentation theorists It puts rhetoric in the service of modern democracies by drawing attention to the obligations of politicians to articulate arguments and objections that citizens can weigh against each other in their deliberations about possible courses of action **Responding to the Sacred** Michael Bernard-Donals, Kyle Jensen, 2021-03-17 With language we name and define all things and by studying our use of language rhetoricians can provide an account of these things and thus of our lived experience The concept of the sacred however raises the prospect of the existence of phenomena that transcend the human and physical and cannot be expressed fully by language The sacred thus reveals limitations of rhetoric Featuring essays by some of the foremost scholars of rhetoric working today this wide ranging collection of theoretical and methodological studies takes seriously the possibility of the sacred and the challenge it poses to rhetorical inquiry The contributors engage with religious rhetorics Jewish Jesuit Buddhist pagan as well as rationalist scientific and postmodern rhetorics studying for example divination in the Platonic tradition Thomas Hobbes's and Walter Benjamin's accounts of sacred texts the uncanny algorithms of Big Data and H L n e Cixous's sacred passages and passwords From these studies new definitions of the sacred emerge along with new rhetorical practices for engaging with the sacred This book provides insight into the relation of rhetoric and the sacred showing the capacity of rhetoric to study the ineffable but also shedding light on the boundaries between them In addition to the editors the contributors to this volume include Michelle Ballif Jean Bessette Trey Conner Richard Doyle David Frank Daniel M Gross Kevin Hamilton Cynthia Haynes Steven Mailloux James R Martel Jodie Nicotra Ned O Gorman and Brooke Rollins

investigating key events in American history Engels analyzes how resentful rhetoric has long been used by public figures in order to achieve political ends He goes on to show how a more devastating form of resentment started in the 1960s dividing Americans on issues of structural inequalities and foreign policy He discusses for example the rhetorical and political contexts that have made the mobilization of groups such as Nixon's silent majority and the present Tea Party possible Now in an age of recession and sequestration many Americans believe that they have been given a raw deal and experience feelings of injustice in reaction to events beyond individual control With *The Politics of Resentment* Engels wants to make these feelings of victimhood politically productive by challenging the toxic rhetoric that takes us there by defusing it and by enabling citizens to have the kinds of conversations we need to have in order to fight for life liberty and equality
