## **Rescued By Europe:**

**Survival and Witness at Europe's Border** Karina Horsti, 2023-09-15 No detailed description available for Survival and Witness at Europe's Border     Inventing Europe G. Delanty, 1995-04-19 A critical analysis of the idea of Europe and the limits and possibilities of a European identity in the broader perspective of history This book argues that the crucial issue is the articulation of a new identity that is based on post national citizenship rather than ambivalent notions of unity

*European Series*, 1947     *At Europe's Edge* Cetta Mainwaring, 2019-09-05 The Mediterranean Sea is now the deadliest region in the world for migrants Although the death toll has been rising for many years the EU response remains fragmented and short sighted Politicians frame these migration flows as an unprecedented crisis and emphasize migration control at the EU's external boundaries In this context *At Europe's Edge* investigates why the EU prioritizes the fortification of its external borders why migrants nevertheless continue to cross the Mediterranean and to die at sea and how EU member states on the southern periphery respond to their new role as migration gatekeepers The book addresses these questions by examining the relationship between the EU and Malta a small state with an outsized role in migration politics as EU policies place it at the crosshairs of migration flows and controls The chapters combine ethnographic methods with macro level analyses to weave together policymaker practitioner and migrant experiences and demonstrate how the Mediterranean is an important space for the contested construction of Europe This book provides rich insight into the unexpected level of influence Malta exerts on EU migration governance as well as the critical role migrants and their clandestine journeys play in animating EU and Maltese migration policies driving international relations and producing Malta's political power By centring on the margins the book pushes the boundaries of our knowledge of the global politics of migration asylum and border security     **The**

**United States and Europe in the Twentieth Century** David Ryan, 2016-02-17 The relationship between the US and Europe in the 20th century is one of the key considerations in any understanding of international relations international history during this period David Ryan first sets the context by looking at the trends and traditions of America's foreign relations in the 19th century and then considers the changing nature of America's vision of Europe from 1900 to the present The book examines America's response to and involvement in the two World Wars including the structure of international power after the First World War and American reaction to the rise of Nazi Germany American European relations during the Cold War 1945 1970 are discussed and Ryan considers the contentious debate that America was trying to establish an empire by invitation Finally the book looks at the ever increasing unification of Europe and how this has affected America's role and influence     **Human Security and Migration in Europe's Southern Borders** Susana Ferreira, 2018-12-13 This book examines the management of migratory flows in the Mediterranean within an international security perspective The intense migratory flows registered during the year 2015 and the tragedies in the Mediterranean Sea have tested the mechanisms of the Union's immigration and asylum policies and its ability to respond to humanitarian crises Moreover these flows of varying

intensities and geographies represent a threat to the internal security of the EU and its member states By using Spain and Italy as case studies the author theorizes that the EU given its inability to adopt and implement a common policy to effectively manage migratory flows on its Southern border uses a deterrence strategy based on minimum common denominators Re-making of Europe. **Outline of European Recovery Program** United States. Department of State,1948 Outline of European Recovery Program United States. Congress. Senate. Foreign Relations,1948 *From Left to Right* Nancy Sinkoff,2020-03-10 Intellectual biography of Holocaust historian Lucy S Dawidowicz *From Left to Right* Lucy S Dawidowicz the New York Intellectuals and the Politics of Jewish History is the first comprehensive biography of Dawidowicz 1915 1990 a pioneer historian in the field that is now called Holocaust studies Dawidowicz was a household name in the postwar years not only because of her scholarship but also due to her political views Dawidowicz like many other New York intellectuals was a youthful communist became an FDR democrat midcentury and later championed neoconservatism Nancy Sinkoff argues that Dawidowicz s rightward shift emerged out of living in prewar Poland watching the Holocaust unfold from New York City and working with displaced persons in postwar Germany Based on over forty five archival collections *From Left to Right* chronicles Dawidowicz s life as a window into the major events and issues of twentieth century Jewish life **Miscellanea** Martin John Spalding,1869 **Miscellanea: Comprising Reviews, Lectures, and Essays** Martin John Spalding,1858

Miscellanea: Comprising Reviews, Lectures, and Essays, on Historical, Theological, and Miscellaneous Subjects Martin John Spalding,1866 **Histories of Nations** Peter Furtado,2014-11-10 Now in paperback this global bestseller is an engaging and informative read on the history of a diverse array of countries Global histories tend to be written from the limited viewpoint of a single author and a single perspective which results in an inevitable bias In this book however twenty eight different writers and scholars from around the world contribute giving engaging often passionate accounts of their own nation s history The countries featured in *Histories of Nations* have been selected to represent every continent and type of state large and small mature democracies and religious autocracies states that have existed for thousands of years and those born as recently as the twentieth century Each of these countries has a different relationship with history In the United States for example the myth of the nation s historylessness remains strong but in China history is seen to play a crucial role in legitimizing three thousand years of imperial authority History wars over the content of textbooks rage in countries as diverse as Australia Russia and Japan Some countries such as Iran or Egypt are blessed or cursed with a glorious ancient history that the present cannot equal others such as Germany must find ways of approaching and reconciling the pain of the

recent past Original thought provoking and handy in its new paperback format Histories of Nations is a crucial primer for the Global Age

Increasing Legal Rights for Zoo Animals Jesse Donahue, 2017-04-12 We are on the precipice of momentous legal changes for animals that may soon give some of them rights of personhood and citizenship Companion animals in particular are gaining rights to public representation in government access to housing inheritance and increased protection through the criminal justice system Nonhuman primates used as research subjects are also gaining limited rights of personhood in some countries This book examines how zoo animals could benefit from that revolution as well Reviewing zoo law and politics in the United States New Zealand and Southeast Asia scholars and zoo directors grapple with how the current law in those regions of the world impacts zoo animals and how it could be changed to serve them better They discuss the ways in which zoo animals could benefit from some re worked companion animal law in the United States the challenges of reintroductions and their legal barriers how we can extend ideas of human research subject rights to zoo animal research the stark problems of too few animal welfare laws in South East Asia the need for a central governing body focused solely on exotic captive animals in New Zealand and the need for stricter laws preventing the exotic pet problem that is increasingly affecting both zoos and sanctuaries The book starts a dialogue that moves the scholarship about zoos beyond a general discussion of ethics to a concrete dialogue and set of suggestions about how to extend legal rights to this group of animals
