Rescuing Jesus Dudley Hyde,1997 **A Handbook of Heresies** M. L. Cozens,1928 Know the Heretics Justin S. Holcomb,2014-04-29 Know the Heretics provides an accessible travel guide to the most significant heresies throughout Christian history There is a lot of talk about heresy these days The frequency and volume of accusations suggest that some Christians have lost a sense of the gravity of the word while others have little familiarity with orthodox doctrine or the historic distortions of it This book has everything you need for a full video study experience The book itself covering 12 different heresies along with reflections on contemporary relevance and discussion questions An individual access code to stream all video teaching sessions online for a deeper learning experience You don t need to buy a DVD As a part of the KNOW series this book is designed for personal study or classroom use but also for small groups and Sunday schools wanting to more deeply understand the foundations of the faith Sessions and video run times 1 Introduction Why Heresy 7 min 2 Judaizers The Old Rules Still Apply 25 min 3 Gnostics God Hides Messages for the Enlightened 18 min 4 Marcion Vengeful Yahweh versus Gentle Jesus 20 min 5 Docetists The Spiritual Is Good the Physical Is Evil 14 min 6 Mani God Must Be Freed 16 min 7 Sabellius One Actor and Three Hats 18 min 8 Arius Jesus Is a Lesser God 16 min 9 Apollinarius Christ May Be Human but His Mind Is Divine 11 min 10 Pelagius God Has Already Given Us the Tools 16 min 11 Eutyches Christ as a New Kind of Being 13 min 12 Nestorius Christ s Divinity Must Be Shielded 16 min 13 Socinus The Trinity Is Irrelevant and Jesus s Death Is Only an Example 18 min 14 Conclusion 7 min Streaming video access code included Access code subject to expiration after January 14 2030 Code may be redeemed only by the recipient of this package Code may not be transferred or sold separately from this package Internet connection required Void where prohibited taxed or restricted by law Additional offer details inside Superheroes Can't Save You Todd Miles,2018-04-01 Comic Superheroes embody the hopes of a world that is desperate for a savior but those comic creations do not have what it takes to save us from our greatest foes sin and death Heretic Catherine Nixey,2024-12-03 A brilliant book sometimes frightening occasionally funny frequently unsettling and always a thrill to read It probes painfully into the pathology of belief The Times From a celebrated classicist and author of *The Darkening Age* a ballista bolt of a book New York Times Book Review a biography of the many diverse variations of Jesus who thrived in early Christian traditions and how they were lost until just one true Christ survived Contrary to the teachings of the church today in the first several centuries of Christianity s existence there was no consensus as to who Jesus was or why he had mattered Instead there were many different Christs One had a twin brother and traveled to India another consorted with dragons One particularly terrifying Christ scorned his parents and killed those who opposed him Moreover in the early years of the first millennium there were many other saviors many sons of gods who healed the sick and cured the lame But as Christianity spread they were pronounced unacceptable even heretical and they faded from view Heretic unearths the different versions of Christ who existed in the minds of early Christians and the process of evolution and

elimination by which Jesus became the singular figure we know today A Handbook of Heresies M. L. Cozens,1945 **A Handbook for Heretics** John W. Sloat,2009-09 A Handbook for Heretics discusses the differences between religion and the Kingdom of God Many mainline churches resist the current reformation a gradual movement away from traditional Christianity toward a vital spirituality Its adherents are frequently labeled heretics when in fact they are actually the leading edge of a new spiritual age They are discovering the much more which Jesus promised to tell us such spiritual phenomena as out of body and near death experiences pre birth and post death appearances angel communication and coincidental experiences A Handbook for Heretics reconsiders some traditional Christian doctrines so as to broaden the church s view of spiritual reality About the Author John W Sloat a former Presbyterian minister served churches in Pennsylvania and Ohio He holds a B A from Denison University 1954 an M Div from Princeton Seminary 1957 and a Th M from Pittsburgh Seminary 1977 Previous books include Lord Make Us One non fiction 1986 and The Other Half fiction 2001 Several of his sermons have been included in Pulpit Digest a national preaching journal He is married to Helen Burdick Sloat a psychiatric nurse and they have three children and eight grandchildren A pianist and organist Sloat also plays the French horn is a scratch model builder and leads spirituality groups **The Gospel according to Heretics** David E. Wilhite,2015-10-13 Since what Christian doctrine denies can be as important as what it affirms it is important to understand teachings about Jesus that the early church rejected Historians now acknowledge that proponents of alternative teachings were not so much malicious malcontents as they were misguided or even misunderstood Here a recognized expert in early Christian theology teaches orthodox Christology by explaining the false starts heresies making the history of theology relevant for today s church This engaging introduction to the christological heresies is suitable for beginning students In addition pastors and laypeople will find it useful for apologetic purposes **A Companion to Second-Century Christian 'Heretics'** Antti Marjanen,Petri Luomanen,2005-07-01 The book illuminates the other side of early Christianity by examining thinkers and movements that were embraced by many second century religious seekers as legitimate forms of Christianity but which are now largely forgotten or are known only from the characteristics attributed to them in the writings of their main adversaries The collection deals with the following teachers and movements Basilides Sethianism Valentinus school Marcion Tatian Bardaisan Montanists Cerinthus Ebionites Nazarenes Jewish Christianity of the Pseudo Clementines and Elchasites Where appropriate the authors have included an overview of the life and significant publications of the heretics along with a description of their theologies and movements Therefore this volume can serve as a handbook of the second century heretics and their heresies Since all the chapters have been written by specialists who wrestle daily with their research themes the contributions also offer new perspectives and insights stimulating further discussion on this fascinating but often neglected side of early Christianity **Heresy** Catherine Nixey,2024-03-07 Heresy is a brilliant book The Times Enthralling The Sunday Telegraph In the beginning was the Word says the Gospel of John This sentence and the words of all four gospels is central to the

teachings of the Christian church and has shaped Western art literature and language and the Western mind Yet in the years after the death of Christ there was not merely one word nor any consensus as to who Jesus was or why he had mattered There were many different Jesuses among them the aggressive Jesus who scorned his parents and crippled those who opposed him the Jesus who sold his twin into slavery and the Jesus who had someone crucified in his stead Moreover in the early years of the first millennium there were many other saviours many sons of gods who healed the sick and cured the lame But as Christianity spread they were pronounced unacceptable even heretical and they faded from view Now in Heresy Catherine Nixey tells their extraordinary story one of contingency chance and plurality It is a story about what might have been *Jesus the Heretic* Conrad 1869-1942 Noel,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant [A Handbook for Heretics](#) John W. [The Heretic's Handbook](#) Leo Cheeseman,2005-06 The Heretic s Handbook by Leo V Cheeseman will disturb most Christians and stimulate all of them The book challenges church members and other heretics people who make choices to reform the church that worships Mammon Cheeseman looks at the successes of Satan in shaping the Holy Bible and the institutional church over the centuries And using common sense and inspiration he presents insights and exercises to help readers identify their beliefs and discover many popular heresies that oppose the teachings and practice of Jesus Accusing many born again Christians of being stillborn Cheeseman encourages all his readers to develop plans for dynamic personal spiritual growth that will make them good and faithful servants of the creator god The book emphasizes that our eternal life depends on what we believe and on what we do about our beliefs in this life **Heresies and How to Avoid Them** Ben Quash,Michael Ward,2007-05-01 What don t Christians believe Is Jesus really divine Is Jesus really human Can God suffer Can people be saved by their own efforts The early church puzzled over these questions ruling in some beliefs and ruling out others Heresies and How to Avoid Them explains the principal ancient heresies and shows why contemporary Christians still need to know about them These famous detours in Christian believing seemed plausible and attractive to many people in the past and most can still be found in modern day guises By learning what it is that Christians don t believe and why believers today can gain a deeper truer understanding of their faith *The History of Heresies and Their Refutation* Alphonsus M. heresies from the first to the sixteenth century even touching briefly on the heresy of Islam Mohammed composed the Koran assisted as some think by Sergi us a monk It is a collection of precepts taken from the Mosaic and Christian Law together with many of his own and interspersed with fables and ridiculous revelations He recognizes the Divine Mission of Moses and Jesus Christ and admits many parts of the Scriptures but his law he says is the perfection of the Jewish and Christian law and he is the reformer of these codes though in truth it is totally different from both one and the other Volume 2 begins with the schism of England under Henry VIII and continues through the sixteenth century heresies to Saint Alphonsus own time A supplementary chapter has been added which even considers Mormonism Then commences the refutation of heresies This volume closes with an exhortation to Catholics which begins Leave heretics in their wilful blindness I mean wilful when they wish to live deceived and pay no attention to the fallacies by which they would deceive you Hold on by the sure and firm anchor of the Catholic Church through which God has promised to teach us the true faith The Holy Author was induced to write this work to meet the numbers of infidel publications with which Europe was deluged in the latter half of the last century men s minds were then totally unsettled dazzled by the glare of a false philosophy they turned away from the light of the Gospel The heart of the Saint was filled with sorrow and he laboured to avert the scourge he saw impending over the unfaithful people He implored the Ministers of his Sovereign to put the laws in force preventing the introduction of irreligious publications into the Kingdom of Naples and he published this work among others to prove as he says that the Holy Catholic Church is the only true one the Mistress of Truth the Church founded by Jesus Christ himself which would last to the end of time notwithstanding the persecutions of the infidel and the rebellion of her own heretical children He dedicates the book to the Marquis Tanucci the Prime Minister of the Kingdom whom he praises for his zeal for Religion and his vigorous execution of the laws against the vendors of infidel publications He brings down the History from the days of the Apostles to his own time concluding with the Refutation of the Heresies of Father Berruyer I have added a Supplementary Chapter giving it succinct account of the Heretics and Fanatics of the last eighty years It was at first my intention to make it more diffuse but then I considered that it would be out of proportion with the remainder of the work This nook may be safely consulted as a work of reference the Author constantly quotes his authorities and the Student of Ecclesiastical History can at once compare his statements with the sources from which he draws In the latter portion of the work and especially in that portion of it the most interesting to us the History of the English Reformation the Student may perceive some slight variations between the original text and my translation I have collated the work with the writings of modern Historians the English portion especially with Hume and Lingard and wherever I have seen the statements of the Holy Author not borne out by the authority of our own Historians I have considered it more prudent to state the facts as they really took place for our own writers must naturally be supposed to be better acquainted with our History than the foreign authorities quoted by the Saint The reader will also find the circumstances and the names of the actors when I considered it necessary frequently given

more in detail than in the original
