Historical Dictionary of the People's Republic of China Lawrence R. Sullivan, 2007-05-23 When the Chinese Communist Party CCP seized power in October 1949 China was one of the poorest nations in the world In fact it was so weak it had been conquered by Japan a country one tenth its size a decade earlier Now more than fifty years later the People's Republic of China PRC is an emerging economic political and military superpower with the world's fastest growing economy and largest population 1.3 billion in

2005 A member of the United Nations Security Council since the early 1970s and a nuclear power China wields enormous influence in the world community The second edition of the Historical Dictionary of the People's Republic of China contains more than 400 cross referenced dictionary entries on individual topics spanning China's political economic and social system along with short biographies on important figures—from politicians to writers and movie directors—who have shaped Chinese history during the period of Communist rule from 1949 to 2006 Supplementing the entries are a chronology an introduction charts outlining the structure of the Chinese government and a bibliography of works in English making this a superb resource for college and high school students needing a quick reference on contemporary China *Law and Politics in Modern China* Sharron Gu, 2009 This is an original interdisciplinary study of Chinese law its language and political institution Evolving within a complex literary framework over thousands of years Chinese language has lost its conceptual distinctiveness to its multilevel and overlapping meanings and connotations Chinese law has become inflated with contrary rulings and exceptions This mass of rules requires an extra lingual legal authority to redefine boundaries and specify applications This book follows and continues the author's *The Boundaries of Meaning and the Formation of Law* McGill University Press by illustrating how language shapes the formation application and administration of law in various cultural environments *Law and Politics in Modern China* is an important book for those interested in Chinese history culture law and politics It also provides refreshing insights about the way that law continues to function after its language matures and creates contradictions and loopholes within its system of rules one of the most important issues facing Western legal administration in the immediate future **Environment and Resettlement Politics in China** Gørild Heggelund, 2017-07-05 The Three Gorges dam currently being constructed on the Yangtze River in China is controversial both inside and outside China particularly because of the large number of people to be resettled officially 1.2 million and the environmental impacts Using material previously unavailable in any Western language it analyses the Chinese discussions over policy making for the resettlement process and impacts It concludes that the environment and resettlement policies have been linked in a new way in this project However despite these positive developments it argues that the social impacts from resettlement have not yet reached a high level of political attention and that the Chinese authorities need to acknowledge that resettlement has social costs The book provides an understanding of the social political and economic factors of one of the largest and most controversial development projects currently being implemented It also sheds light on China's policy making procedures and political priorities over the past decade **Legitimizing the Chinese Economic Reforms** Alan R. Kluver, 1996-07-03 The reform program of Deng Xiaoping in the People's Republic of China constitutes one of the most significant political and social change programs in recent history A singularly important question arises from this experiment How does a nation implement a stock market and call it Marxism This book answers this question by examining the official discourse bridging the gap between the reform policies and orthodox Marxism Focusing on Chinese Communist

Party Congresses and the Resolution on CPC History the author extends recent writings on the reforms by analyzing the ways in which the Chinese leadership justified the reforms in the face of social and economic turmoil such as the 1989 Tiananmen Square movement Also examined is the role of discourse in the Chinese political culture The author argues that legitimacy of the government in China rests on two factors the national myth of revolution and ideological orthodoxy These serve the same legitimating functions in the Communist political culture as the Confucian doctrines of the Mandate of Heaven and virtue providing continuity in political discourse across the centuries although the political systems have changed drastically

**The SAGE Handbook of Contemporary China** Weiping Wu, Mark Frazier, 2018-07-09 The study of contemporary China constitutes a fascinating yet challenging area of scholarly inquiry Recent decades have brought dramatic changes to China's economy society and governance Analyzing such changes in the context of multiple disciplinary perspectives offers opportunities as well as challenges for scholars in the field known as contemporary China Studies The SAGE Handbook of Contemporary China is a two volume exploration of the transformations of contemporary China firmly grounded in the both disciplinary and China specific contexts Drawing on a range of scholarly approaches found in the social sciences and history an international team of contributors engage with the question of what a rapidly changing China means for the broader field of contemporary China studies and identify areas of promising future research Part 1 Context History Economy and the Environment Part 2 Economic Transformations Part 3 Politics and Government Part 4 China on the Global Stage Part 5 China's Foreign Policy Part 6 National and Nested Identities Part 7 Urbanization and Spatial Development Part 8 Poverty and Inequality Part 9 Social Change Part 10 Future Directions for Contemporary China Studies

The Globalization of the Cold War Max Guderzo, Bruna Bagnato, 2010-01-04 This book focuses on the globalisation of the Cold War in the years 1975-85 highlighting the transformation from bipolar US-Soviet competition to global confrontation Offering a detailed analysis of this fundamental shift that occurred during this period as well as the interconnections of this process with the new industrial technological revolution this book demonstrates how the United States returned to a position of global economic leadership In so doing the book aims to challenge the traditional and misleading paradigm that interprets the gradual development of the Cold War in basic bipolar terms in fact most of the factors triggering superpower attitudes and interplay were linked to a complex web of relations with their allies as well as to the political economic social ideological and military factors structurally intrinsic to the peripheral regions where the confrontation actually took place Many of the essays in this volume focus on the foreign and security policies of the United States with the aim of reassessing the Carter administration as the foundation for Reagan's final showdown with the Soviet Union The contributors however go beyond the traditional patterns of foreign policy analysis giving due attention to transnational phenomena and institutional histories that better explain the gradual transformation in the years that prepared the world for the post Cold War globalisation era This book will be of much interest to students of Cold War studies international history US foreign policy European politics

and IR in general Max Guderzo is Professor of the History of International Relations and holds the Jean Monnet Chair of the History of European Unification at the University of Florence Bruna Bagnato is Associate Professor of the History of International Relations at the University of Florence *Deng Xiaoping* Michael Dillon, 2014-10-27 One of the most important figures in global politics during the second half of the 20th century Deng Xiaoping is generally considered the central figure behind China's economic liberalization programme that produced historically unprecedented growth rates and development beginning in the late 1970s Lifting nearly a billion people out of poverty Deng Xiaoping's Four Modernisations called for reform in agriculture industry military and science and technology Today these reforms are considered to be the crucial turning point in modern Chinese history enabling China to effectively harness its previously latent power in its quest to become a global economic superpower Just ten years after this tremendous achievement Deng's brutal suppression of the democracy movement at Tiananmen Square severely undermined his international and domestic reputation To explain the seeming contradictions between Deng Xiaoping's desire for economic liberalization and political conservatism Michael Dillon's biography utilizes recently released Chinese sources to detail Deng Xiaoping's emergence from a minority second class community in the Sichuan province via education in France to his meteoric rise to the top of the CCP's political hierarchy illustrating the ways in which his life of struggle and survival shaped his political career Dillon's biography addresses Xiaoping as both an intensely committed communist capable of playing a principal role in the Great Leap Forward from 1958 to 1961 while incurring the wrath of Mao only ten years later as he was exiled and purged during the Cultural Revolution Emphasizing Deng Xiaoping's effectiveness as a party operator and political bruiser rather than an intellectual capable of formulating the reforms for which he eventually took credit this book sheds light on Deng's ability to capitalize upon the planning expertise of other party members This biography of the central figure in China's economic liberalization is essential for any reader interested in or affected by China's rise to global prominence **The Politics of Agricultural**

**Cooperativization in China** Frederick C. Teiwes, Warren Sun, 1993 The decision to initiate a High Tide of agricultural cooperativisation in 1955 in China is documented in this text The social impact policy conflict and leadership style of Mao is detailed drawing upon documentary sources interviews with Party historians and a chronology of events **Secrecy in US**

**Foreign Policy** Yukinori Komine, 2016-04-01 Secrecy in US Foreign Policy examines the pursuit of strict secrecy by President Nixon and his National Security Advisor Kissinger in foreign policy decision making in relation to the US rapprochement with China Moreover it sheds new light on the complexity and dynamism of the evolution of China initiatives and demonstrates the many policy options and perspectives among US officials Dr Komine focuses on three major elements of the rapprochement
