Performance The articles date from 1916 to 1997 and are drawn from North American and European authors Managers as well as researchers will find this collection presented will stimulate their thinking on the role of the corporation and its responsiveness to stakeholder interests The volume is funded in part by a grant from the Alfred P Sloan Foundation

A Handbook of Corporate Governance and Social Responsibility Professor Güler Aras, Professor David

Crowther, 2012-08-28 Written by experts from all over the world A Handbook of Corporate Governance and Social Responsibility is the most authoritative single volume guide to the relationship between good governance and social responsibility and the reality of managing both In addition to the theory and practice of governance and CSR the book includes case studies from large and small organizations and NGOs CSR Discovery Leadership Diane L.

Swanson, 2017-08-03 This book argues that separation consciousness has kept a collective demand for corporate social responsibility at bay even providing justification for business to neglect society Yet there are signs that separation consciousness is being replaced with the expectation that businesses engage in symbiotic relationships with stakeholders that yield triple bottom line benefits The potential for business to enact this social contract depends largely on the ability of top executives to discover how to activate the organizational values that make such benefits possible The author argues that the required mind set for this task bears a strong resemblance to the scientific discovery mentality and that if executives were to embed this mentality in organizational decision making shared consciousness between firms and stakeholders of the values that support corporate responsibility is feasible CSR Discovery Leadership examines this prospect of shared value consciousness a new frontier for CSR leadership Reader's Guide to the Social Sciences Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense **Research in Corporate Social Performance and Policy** William
