Research Methods For Nurses And The Caring Professions:

Research Methods For Nurses And The Caring Professions 2/E Abbott, Pamela, Sapsford, Roger, 1998-05-01 Praise for the first edition of *Research into Practice* and *Research Methods for Nurses and the Caring Professions* These books provide a good introduction for the uninitiated to reading and doing research Abbott and Sapsford provide a clearly written and accessible introduction to social research One of their aims is to demystify research and in this they succeed admirably After reading the text and the articles in the reader and working through the various research exercises readers should have a clear appreciation of how to evaluate other people's research and how to begin their own *David Field Journal of Palliative Medicine* This book now substantially revised in its second edition is about the appreciation evaluation and conduct of social research Aimed at nurses social workers community workers and others in the caring professions the book is particularly focused on research which evaluates and contributes to professional practice The authors have provided many short practical exercises in the text and the examples are drawn mostly from projects carried out by one or two people rather than large research teams The clear accessible style will make this the ideal introductory text for those undertaking or studying research for the first time The book may be used in conjunction with *Research into Practice* Open University Press a reader of useful examples selected by the same authors

Research Methods For Nurses And The Caring Professions Pamela Abbott, Roger Sapsford, 1998-05-16 Praise for the first edition of *Research into Practice* and *Research Methods for Nurses and the Caring Professions* These books provide a good introduction for the uninitiated to reading and doing research Abbott and Sapsford provide a clearly written and accessible introduction to social research One of their aims is to demystify research and in this they succeed admirably After reading the text and the articles in the reader and working through the various research exercises readers should have a clear appreciation of how to evaluate other people's research and how to begin their own *David Field Journal of Palliative Medicine* This book now substantially revised in its second edition is about the appreciation evaluation and conduct of social research Aimed at nurses social workers community workers and others in the caring professions the book is particularly focused on research which evaluates and contributes to professional practice The authors have provided many short practical exercises in the text and the examples are drawn mostly from projects carried out by one or two people rather than large research teams The clear accessible style will make this the ideal introductory text for those undertaking or studying research for the first time The book may be used in conjunction with *Research into Practice* Open University Press a reader of useful examples selected by the same authors

Research Methods for Nurses and the Caring Professions Roger Sapsford, Pamela Abbott, 1992 This text aimed at nurses social workers community workers and others in the caring professions is about the appreciation evaluation and conduct of social research It concentrates on relatively small scale studies which can be carried out by one or two people

Theory and Practice of Nursing Lynn Basford, Oliver Slevin, 2003 This is a comprehensive guide to the theory and practice of nursing addressing the nursing theory

and skills specific to clients and patients needs Each chapter has learning outcomes study activities and reflection to prompt readers to learn as they read

EBOOK: Research Into Practice 2/E Pamela Abbott,Roger Sapsford,1997-03-16 Praise for the first edition of Research Into Practice and Research Methods for Nurses and the Caring Professions These books provide a good introduction for the uninitiated to reading and doing research Abbott and Sapsford provide a clearly written and accessible introduction to social research One of their aims is to de mystify research and in this they succeed admirably After reading the text and the articles in the reader and working through the various research exercises readers should have a clear appreciation of how to evaluate other people s research and how to begin their own David Field Journal of Palliative Medicine This is a thoroughly revised and up dated edition of the bestselling reader for nurses and the caring professions It offers carefully selected examples of research all concerned in some way with nursing or the study of health and community care It illustrates the kind of research that can be done by a small team or a single researcher without large scale research grants The editors have chosen papers which show a great diversity of approaches differing in emphasis on description or explanation different degrees of structure in design and different appeals to the authority of science or the authenticity of emphatic exploration They show the limitations typical of small scale projects carried out with limited resources and the experience of applied research as it occurs in practice as opposed to how it tends to look when discussed in textbooks The chapters have been organized into three sections representing three distinct types of social science research observing and participating talking to people and asking questions and controlled trials and comparisons Each section is provided with an editorial introduction Features Thoroughly revised and up dated edition of bestselling text New articles in line with latest trends in nursing and other practitioner research with more stress on evidence based practice action research and self evaluation New user friendly format Very well known authors in the field

Data Collection and Analysis Roger Sapsford,Victor Jupp,2006-03-29 In simple and non technical terms this text illustrates a wide range of techniques and approaches used in social research projects

Research Methods for Nurses and Midwives Merryl Harvey,Lucy Land,2021-11-10 This book walks you step by step through the whole research process so you can get up to speed understanding and doing your own research In their friendly down to earth style the authors lay the theoretical foundations you need to consume and critique research before showing how to translate this into action when tackling your own literature review or research project This second edition Draws on a wealth of examples from midwifery four fields of nursing including mental health nursing and child nursing and a range of health care specialities Covers new and updated NMC professional education standards and maps all relevant policy and law Supports your learning with reflective exercises online activities and quizzes that enable you to be confident in your understanding and develop your thinking Whether you re encountering research and evidence based practice for the first time or refreshing your methods knowledge this is the ideal research companion for nurses and midwives pre registration post registration and beyond
