Rudolf Bultmanns Theology A Critical Interpretation

Rudolf Bultmann's Theology A Critical Interpretation:

Rudolf Bultmann's Theology Robert Campbell Roberts, 1976 The name of Rudolf Bultmann would feature prominently on any list of the influential figures in twentieth century theology even if such a list were compiled by someone disagreeing radically with most of his conclusions Without a doubt Robert C Roberts asserts part of the reason for Bultmann's overwhelming influence is the underlying consistency of his work There is an extraordinary systematic unity to Bultmann's theological and philosophical writings With that in view Robert seeks in this penetrating new study to explore that thought as a whole The metaphysical terrain on which the structure of Bultmann's theology is built is the division of reality into world and existence If such a reading of human existence seems a bit far afield from what an ordinary reading of the New Testament yields it is because Bultmann would contend the first century authors and readers clung to a mythological worldview we can no longer accept Bultmann expends considerable hermeneutical ingenuity in the effort to demonstrate that his understanding is in fact what the New Testament really means Robert scrutinizes Bultmann's detailed treatment of theological problems and doctrines the heart of this analysis being a critical look at his views on science and mythology language and meaning understanding and exegesis Three final chapters address specific theological topics God ethics and faith Publisher

Rudolf Bultmann's theology Robert Campbell Roberts, 1976 **New Testament Theology and its Quest for Relevance** Thomas R. Hatina, 2013-03-14 New Testament theology raises many questions not only within its own boundaries but also in relation to other fields such as history literary criticism sociology psychology history politics philosophy and religious studies But the overarching question concerns the relevance of two thousand year old writings in today's world How does one establish what is and is not relevant in the New Testament How does one communicate the ancient ideas presented in an alien language alien time and alien culture to a contemporary audience This book is intended to serve as a methodological introduction to the field of New Testament theology aimed at a range of readers undergraduate and Seminary students clergy and laypersons interested in the relevance of scripture It is a guide which aims to help readers understand how practitioners of New Testament theology have wrestled with the relationship between historical reconstruction of the New Testament and its interpretation in the modern world **Evangelical Dictionary of Theology**

Teaching explores the hermeneutics science of interpretation and homiletics art of preaching of both Rudolf Bultmann and Dietrich Bonhoeffer. The book explores the thought and impact of these two theologians primarily within the American debate. Both Bultmann and Bonhoeffer are somewhat misunderstood and it seems that they are either totally accepted or rejected depending in many instances on one's personal understanding of their method of biblical interpretation. The book attempts to objectively view their methods of biblical interpretation and how they expressed their research in their writings preaching and teaching. Both concluded that the presenting of the Gospel in a relevant manner is the ultimate need for humankind today. Both lived during a most challenging period of world history but were able to communicate in a captivating manner. Certainly the times in which we live today call for those who possess a similar commitment.

A Theologian's Guide to Heidegger Hue Woodson, 2019-08-30. *A Theologian's Guide to Heidegger* provides a uniquely theological introduction to the philosophy of Martin Heidegger by focusing on not just the relationship between Heidegger and theology or even the nature of the discourse that must occur between theological concerns and Heidegger's philosophical errands but by precisely exploring how theology can use Heidegger's philosophy as a means of outlining the scope and task of postmodern theology. To do this especially with the postmodern theologian in mind, this book considers the general relationship between Heidegger and theology, how Heidegger can be read theologically while justifying why Heidegger must be read this way and defining the role that Heidegger must take in postmodern theology. This includes a careful consideration of Heidegger's early theological roots from Freiburg to Marburg by examining the content of Heidegger's lesser known theologically minded seminars, lectures and talks.

Anthony C. Thiselton and the Grammar of Hermeneutics Robert Knowles, 2014-07-08. A provisional and preliminary attempt to show how the formative hermeneutical thinking of Anthony C. Thiselton, once systematized and critiqued, can begin to resolve the major problems found in the discipline of hermeneutics today, most notably its varying disunities: theoretical, practical and interdisciplinary. This book aims to show that the formative thinking of Anthony C. Thiselton provides valuable insights for a programmatic construction towards a unified hermeneutical theory. This construction provides powerful keys for unlocking six contemporary problems in hermeneutics: disorganization, complexity, abstraction, theoretical disunity on several levels, interdisciplinary polarization and irresponsible interpretation. Robert Knowles' exhaustive analysis engages critically and creatively.

Hermeneutics Reader Kurt Mueller-Vollmer, 1988-03-01. Essays discuss reason and understanding, interpretation, language, meaning, the human sciences, social sciences and general hermeneutic theory. Kurt Mueller-Vollmer is Emeritus Professor of German Studies and Humanities at Stanford University.

The Salvation-Historical Fallacy? Robert W. Yarbrough, 2019-05-21 New Testament scholarship since the Enlightenment is not quite like the histories tend to present it It has not been the unfolding triumph of objective critical or historical thinkers over less progressive and dogmatically biased theological interests Rather in the same respective eras that critical thinkers like F C Bauer and R Bultmann mapped out approaches to NT theology responsible scholars from J C K Hofmann to O Cullmann have responded with viable programs of their own This volume brings the ascendant Baur Wrede Bultmann line of analysis into dialogue with what may be called the salvation historical perspective thus uncovering a line of inquiry that was significant in the past and may prove promising in the future

Shining Garment of the Text Alison Jasper, 1998-09-01 Taking the prologue of John's Gospel as a case study in feminist biblical criticism the author engages with a persistent view that the biblical text is seriously compromised by its association with patriarchal values Close analysis of five interpretations by Augustine Hildegard von Bingen Martin Luther Adrienne von Speyr and Rudolf Bultmann shows how unavoidably interpretation clothes the biblical text with the varied and dazzling patterns of the patriarchal reading context But in a second turn drawing on the techniques of both structuralist criticism and deconstruction and offering three further inventive readings of this powerful passage Jasper reflects woman and the feminine in the shining garment of her own contextualized reading

Kierkegaard as Religious Thinker David J. Gouwens, 1996-02-08 Using Kierkegaard's later religious writings as well as his earlier

philosophical works David Gouwens explores this philosopher's religious and theological thought focusing on human nature Christ and Christian discipleship He helps the reader approach Kierkegaard as someone who both analysed religion and sought to evoke religious dispositions in his readers Gouwens discusses Kierkegaard's main concerns as a religious and specifically Christian thinker and his treatment of religion using the dialectic of becoming Christian and counters the interpretation of his religious thought as privatistic and asocial Gouwens appraises both the edifying discourses and the pseudonymous writings including the particular problems posed by the latter Between foundationalism and irrationalism Kierkegaard's ideas are seen to anticipate the end of modernity while standing at the centre of the Christian tradition

Christian Theology, Volume One Thomas N. Finger, 2020-03-09 Thomas N Finger has chosen an approach to the systematic presentation of Christian Theology which I also have taken since the publication of my Theology of Hope in 1964 He begins with the goal with eschatology With that goal in mind a new light is cast on every single doctrine of Christian theology the light of redemption and the work of the theologian becomes a labor of hope This is a theology of the way With the kingdom of God kept steadily in view it becomes an invitation to walk the way of Jesus Tom Finger's theological prospectus makes a brilliant contribution to ecumenical theological dialogue from the Anabaptist tradition He offers an eschatologically oriented theology for which I can only congratulate him Jürgen Moltmann Professor of Theology University of Tübingen While many systematic theological texts are shaped by academic discussion of ancient thought and or modern philosophies Finger centers on the kerygma of the biblical text that the last things or eschatological events expected at history's climax had already occurred through Jesus' life death and resurrection though they were not yet fully realized To present eschatology as a living hope that always has motivated and still motivates Christians and Christian communities in all things Finger does not follow the discipline's traditional order where eschatology appears last but places it first Volume II will culminate with the doctrine of God which usually comes first This is hardly to minimize God's importance but to maximize it as the Christian faith's most profound mystery Volume I begins with eschatology to present it as a dynamic boundless atmosphere in which theological reflection unfolds While this dynamism envelops Christian life and mission it is not merely subjective It is hope for the transformation of all creation It is not only celebrative for it also struggles against the gruesome evils that seek to dominate all things From this vantage point eschatology in Volume I seeks to articulate the significance of the resurrection the last judgment heaven and hell the return of Christ and the millennium's coming These reflections lead to revelation beginning from the final revelation of Jesus Christ 1 Peter 1:3-13 Revelation's dimensions are treated as personal as historical extending forwards from Genesis and as

propositional or its way of conveying its contents These point theological reflection to revelation s center Jesus Christ chiefly to his saving work in his life death and resurrection Here the strengths and weaknesses of the traditional substitutionary and moral influence theories are examined But when placed within their revelational or historical sequence Jesus conflict with the powers of evil stands out These prove to be gigantic systemic forces which have always ordered but also imprisoned humankind such as the Roman Empire Yet their horror and power stretch beyond any social or psychological explanation In Jesus life and death these powers appear to conquer him But through his resurrection Jesus conquers them This drama is best articulated by the Christus Victor approach in which Jesus with his Father and Spirit defeats these powers but does not totally destroy them This is why their eschatological reign is already present but evil is not yet destroyed until the end

Biblical Interpretation in Early Christian Gospels Thomas R. Hatina, 2020-03-19 This volume is the fourth in a set of volumes which together explore current approaches to the study of scripture in the Gospels Thomas R Hatina s latest edited collection begins with an introduction surveying methodological approaches used in the study of how scriptural allusions quotations and references function in John with subsequent essays grouped into four categories that represent the breadth of current interpretive interests The contributors begin with historical critical approaches before moving to rhetorical and linguistic approaches literary approaches and finally social memory approaches Each study contains not only recent research on the function of scripture in John but also an explanation of the approach taken making the collection an ideal resource for both scholars and students who are interested in the complexities of interpretation in John s context as well as our own
