Choice and Political Power Keith Dowding,2019-07-17 Featuring a substantial new introduction and two new chapters in the Postscript this new edition makes one of the most significant works on power available in paperback and online for the first time The author extensively engages with a body of new literature to elucidate and expand upon the original work using rational choice theory to provide An examination of how due to the collective action problem groups can be powerless despite not facing any resistance Timely engagement with feminist accounts of power An explanation of the relationship of structure and agency and how to measure power comparatively across societies This book s unique interaction with both classical and contemporary debates makes it an essential resource for anyone teaching or studying power in the disciplines of sociology philosophy politics or international relations Community Leadership in Maryland, 1790-1840 Whitman H.

Ridgway,2018-07-11 American democracy has fascinated generations of historians They have probed its philosophical foundations and the structure of its institutions but their studies reveal little about those who really wielded power in the formative years of the republic Employing a sophisticated research design Whitman Ridgway examines the changing leadership patterns in four diverse communities in Maryland from 1790 to 1840 The results indicate clearly the need to study the American democratic process at the local level Ridgway selected Baltimore City Frederick St Marys and Talbot counties representing the underlying economic and cultural diversity of one political culture Maryland to evaluate who governed how these patterns differed from one community to another and how such patterns changed over time The research design defines the scope of the study Ridgway uses the decisional method of analysis determining who actually made decisions in

order to identify the political leaders His extensive research in manuscript and newspaper collections tax and census data and religious and genealogical records gathered information on some 1 300 persons This study of community power illuminates facets of a democratic society which perplexed Alexis de Tocqueville over a century ago Ridgway demonstrates that despite the expansion of popular participation in political affairs the influence of the wealthy continued to be significant He shows also how leaders without benefit of wealth or social ties to the oligarchies were able to enter community decision making In a more modern context this important book adds to the literature in several ways Its greatest contribution is methodological no longer can historians talk about power relationships without studying them directly The work also compares two important periods the first and second party eras normally treated in isolation and through this comparison it reveals much about democracy egalitarianism and power Originally published 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

Case Studies of City-County Consolidation: Reshaping the Local Government Landscape Suzanne M. Leland,Kurt M. Thurmaier,2024-11-01

Facing cutbacks in federal and state assistance and a new wave of taxpayer revolts local governments have renewed interest in local government consolidation as a way of achieving efficiencies of scale in response to citizen demands for services Yet the vast majority of consolidation efforts fail either during the process of drafting a charter or once they reach the ballot only five have passed since 1990 only thirty two have been successfully implemented since the first when the city of New Orleans merged with Orleans Parish in 1805 What accounts for the high failure rate and what factors led to successful consolidations This volume presents thirteen comparable case studies of consolidation campaigns and distills the findings

Southern Capitalism Philip J. Wood,1986-08-13

Southern Capitalism challenges prevailing views of Southern development by arguing that the persisting peculiarities of the Southern economy such as low wages and high poverty rates have not resulted from barriers to capitalist development nor from the lingering influence of planter values Wood argues that these peculiarities can instead be best understood as the consequence of a strategy of capitalist development based on the creation and preservation of social conditions and relations conducive to the above average exploitation of labor by capital focusing on the evolving relationship between capital and labor as the core of this strategy Wood follows the process of capitalist industrialization in North Carolina from its beginnings in the aftermath of the Civil War to the 1980s

The Administration of Health Systems Martin Harrison,2017-07-05

In the late 1960s American society entered a period of rapidly accelerating social change Certainty that U S vast scientific and technical capability would be able to find solutions to all problems began to turn to concern as organizational efforts were unable to keep pace with new developments in a variety of areas The health field with its focus on the well being of individuals felt the impact of these changes particularly strongly Medicines became more focused on isolated health practices as the patient s needs were attended to within groups of unrelated biological systems The emerging thought represented in this collection pushes for the perception of health as a right rather than as something to be earned It argues that deprivation of life saving and life fulfilling opportunities to any populations should not be tolerated The editors also demand more awareness of the implications of isolated health activities and make the case for a comprehensive total health care system Health is no longer just a biological function quality of life is also a concern First published in 1971 by administrators of health agencies teachers and health personnel this work presents perspectives on problems and interpretations of forces and issues that are of continuing importance to health administrators

The emphasis on the need to focus on the whole patient rather than just their illness and on providing them with a good life not just a disease free one is still as valid today as it was when this volume was initially published

The Politics of Education in the States Luther Harmon Zeigler, Karl F. Johnson, Karl Fredrick Johnson, 1972 *Harvard Guide to American History* Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974 Editions for 1954 and 1967 by O Handlin and others *The Handbook of Political Behavior* Samuel Long, 2012-12-06 In the writing of prefaces for works of this sort most editors report being faced with similar challenges and have much in common in relating how these challenges are met They acknowledge that their paramount objective is to provide more than an overview of topics but rather to offer selective critical reviews that will serve to advance theory and research in the particular area reviewed The question of the appropriate audience to be addressed is usually answered by directing material to a potential audience of social scientists graduate students and occasionally advanced undergraduate students Editors who are confronted with the problem of structuring their material often explore various means by which their social science discipline might be subdivided then generally conclude that no particular classification strategy is superior In elaborating on the process by which the enterprise was initiated editors typically resort to a panel of luminaries who provide independent support for the idea and then offer both suggestions for topics and the authors who will write them Editors usually concede that chapter topics and content do not reflect their original conception but are a compromise between their wishes and the authors expertise and capabilities Editors report that inevitable delays occur authors drop out of projects and are replaced and new topics are introduced Finally editors frequently confess that the final product is incomplete with gaps occurring because of failed commitments by authors or because authors could not be secured to write certain chapters

The Best of Enemies, Movie Edition Osha Gray Davidson, 2018-11-12 C P Ellis grew up in the poor white section of Durham North Carolina and as a young man joined the Ku Klux Klan Ann Atwater a single mother from the poor black part of town quit her job as a household domestic to join the civil rights fight During the 1960s as the country struggled with the explosive issue of race Ellis and Atwater met on opposite sides of the public school integration issue Their encounters were charged with hatred and suspicion In an amazing set of transformations however each of them came to see how the other had been exploited by the South's rigid power structure and they forged a friendship that flourished against a backdrop of unrelenting bigotry Now a major motion picture *The Best of Enemies* offers a vivid portrait of a relationship that defied all odds View the movie trailer here <https://youtu.be/eKM6fSTsA0>

Simmie, 1981-08-01 *New Critical Writings in Political Sociology* Alan Scott, 2017-03-02 The articles collected together in this volume are concerned with why and how people get involved in politics whether through formal mechanisms such as voting through some of the more informal means and settings of social movement networks and political protest or through engagement in public debate But just as important is the question of why people do not get involved in politics What social

conditions ideas and values facilitate or discourage political activity How is it that some people are systematically disempowered in democratic societies in comparison with others What social forms offer the most promise for extending and deepening democracy This volume brings together the most seminal papers which together form a record of how political sociologists since the 1970s have framed questions about the range and limits of democratic political engagement and developed concepts and methodologies in order to research the answers to those questions
