corporate veil and corporate insolvency and restructuring law Corporate Opportunities Marco Claudio Corradi, 2021-08-26 This monograph provides a comprehensive analysis of corporate opportunities doctrines from a comparative perspective. It looks at both common law and civil law rules and relies to a large extent on a law and economics approach. This book broadens the conventional view on corporate opportunities a vital step in light of the adoption of corporate opportunities rules in civil law jurisdictions and in light of investors ever changing strategies. This approach considers institutional complementarities and especially industrial complementarities. The book thus explores several jurisdictions and their economic and industrial environments whilst also assessing the impact of globalisation onto legal reform. Furthermore, it analyses the problems related to the application of corporate opportunities rules to cross border venture capital. In normative terms, the book advances one main stance articulated in three points: first, it proposes different sanctions for undisclosed and disclosed misappropriations supporting the core idea that sanctions should be set against disclosure and not authorisation. Secondly, it advances the idea that sanctions against undisclosed misappropriations should be more severe than the ones presently applied. Thirdly, it considers the possibility of a more flexible treatment of disclosed misappropriations. This study is positioned at the intersection of several fields providing a lens into a much broader range of dynamics that will be of interest to a varied international readership and offering a window into the broader institutional dynamics at work in centres of innovation eg Silicon Valley and industrial districts in other jurisdictions. It is rooted in law and economics but the emphasis is placed on how corporate opportunities rules fit within a broader set of institutional dynamics that affect innovation, industrial efficiency and economic competitiveness. Commonwealth Caribbean Business Law Rajendra Ramlogan, Natalie Renée Persadie, 2004 Commonwealth Caribbean Business Law breaks away from the traditional English approach of treating business law primarily as the law of contract and agency. It provides a broad overview of the foundation of various legal systems and goes on to examine the various areas of legal liability that may impact on business activities. These areas include tort law, criminal law, internet law and payment in business transactions. Specifically, the book targets the development of business law in several Commonwealth jurisdictions including Canada and Australia but with special focus on legal developments in Commonwealth Caribbean countries. The approach of the book is to present excerpts from judgments so as to enable students to understand legal principles as espoused by the judiciary without the filtering bias of authors. This new title is essential reading for students taking the LLB and Business Degree courses in the Caribbean and other commonwealth jurisdictions.
