Fifteenth Edition, Revised** Henry SCUDDER,1813      On Solitude, Conscience, Love and Our Inner and Outer Lives Ron Haflidson,2019-07-25 Ron Haflidson places the theology of Augustine in conversation with contemporary authors who warn of the dangers of abandoning solitude for constant often technological connection Haflidson addresses an essential question that has previously been neglected What difference does it make to the practice of solitude if one believes that even in the absence of any human company God is always intimately present For Augustine solitude is a moral necessity he recommends that we regularly retreat from the crowd into the depths of our conscience where we can dwell alone in the company of God and enter into dialogue before and with God about who we are and how we love Throughout this book Haflidson pairs close readings of Augustine with those of noted cartographers of our inner lives literary greats including Jane Austen George Eliot Marilynne Robinson and George Saunders This book explores what undiscovered possibilities may lie in solitude      Laboratories of Virtue Michael Meranze,2012-12-01 Michael Meranze uses Philadelphia as a case study to analyze the relationship between penal reform and liberalism in early America In Laboratories of Virtue he interprets the evolving system

of criminal punishment as a microcosm of social tensions that characterized the early American republic Engaging recent work on the history of punishment in England and continental Europe Meranze traces criminal punishment from the late colonial system of publicly inflicted corporal penalties to the establishment of penitentiaries in the Jacksonian period Throughout he reveals a world of class difference and contested values in which those who did not fit the emerging bourgeois ethos were disciplined and eventually segregated By focusing attention on the system of public penal labor that developed in the 1780s Meranze effectively links penal reform to the development of republican principles in the Revolutionary era His study richly informed by Foucaultian and Freudian theory departs from recent scholarship that treats penal reform as a nostalgic effort to reestablish social stability Instead Meranze interprets the reform of punishment as a forward looking project He argues that the new disciplinary practices arose from the reformers struggle to contain or eliminate contradictions to their vision of an enlightened liberal republic *Mystic Treatises* Isaac (Bishop of Nineveh),1923
