Rum Affair:

A Rum Affair Karl Sabbagh, 2000 The story of professor Heslop Harrison a distinguished academic at Newcastle University who over a period of years strengthened the evidence for his theory of ice age plant survival by planting flora in places where it had never been found before and then discovering it His nemesis came in the form of John Raven a young classics don with a fierce passion for botany who believed that he had caught the eminent professor red handed on the isle of Rum in the summer of 1948 The scientific community closed ranks on the affair Raven s evidence was never published and Heslop Harrison s continued to dominate British botany for the next decade This book tells the tragi comic story

A Rum Affair Karl Sabbagh, 2001-08-08 A Rum Affair is an absorbing tale of scientific chicanery and academic intrigue critically acclaimed and a finalist for the Los Angeles Times Book Prize In the 1940s the eminent British botanist John Heslop Harrison proposed a controversial theory Species of plants on the islands off the west coast of Scotland he said had survived the last Ice Age His premise flew in the face of evidence that the last advance of the ice sheets extended well south of mainland Scotland but he said he had proof the plants and grasses found on the Isle of Rum that would make his name in the scientific world Harrison didn t anticipate however the tenacious John Raven an amateur botanist who boldly questioned whether these grasses were truly indigenous to the area or whether they had been transported there and planted What seems at first a minor infringement of academic honesty soon becomes an enthralling tale of rival scientists and fraudulent science a skillful whodunit that in the hands of the talented Sabbagh joins the ranks of the best narrative nonfiction

A Rum Affair Karl Sabbagh, 1999 In the 1940s Heslop Harrison announced another discovery of rare plants His colleagues were suspicious many believed he had invented his discoveries and one accused him of being a fake Nothing was heard for 50 years Sabbagh uncovered the report and in this mix of detective story social history and scientific investigation unravels the story
