B. Trim, 2006 With one exception the papers collected here were first presented at a conference sponsored by the British Academy held at Newbold College Berkshire in 1999 This volume provides a historical perspective to the emerging literature on pluralism A range of experts examine how Calvinists in early modern France England Hungary and the Netherlands related to members of other faith communities and to society in general The essays explore the importance of Calvinists' separateness and potent sense of identity To what extent did this enable them to survive persecution Did it at times actually induce repression Where Calvinists held political power why did they often turn from persecuted into persecutors How did they relate to Anabaptists Quakers and Catholics for example The conventional wisdom that toleration and in consequence pluralism resulted from a waning in religious zeal is queried and alternative explanations considered Finally the concept of pluralism itself is investigated **Entre médias et crises technologiques** Marie-Noëlle Sicard, 1998 L'étude du fonctionnement et du comportement des médias d'information dans les grandes crises technologiques survenues depuis l'accident de Three Mile Island a permis de mettre jour les valeurs constitutives des médias et l'ambiguïté de leur rôle En effet par-delà leur fonction instrumentale ils sont tour tour observateurs et performateurs de la réalité propagandistes des peurs et acteurs participants dans la dynamique de crise A partir des observations fonctionnelles et stratégiques tirées de l'analyse de grandes crises technologiques en particulier celle qui a suivi l'incendie des entrepôts Sandoz près de Bâle en 1986 un schéma de fonctionnement du système d'information et de communication est proposé L'événement catastrophique médiatisé devient révélateur du discours social du logos de l'opinion publique et constitue un objet symbolique qui participe la

H. Weir, 2020-06-18 First published in 2000 Risk Management is a two volume set comprised of the most significant and influential articles by the leading authorities in the studies of risk management The volumes includes a full length introduction from the editor an internationally recognized expert and provides an authoritative guide to the selection of essays chosen and to the wider field itself The collections of essays are both international and interdisciplinary in scope and provide an entry point for investigating the myriad of study within the discipline Paul Perceived Karl Olav Sandnes, 2018-09-25 An epicenter in present day Pauline scholarship is the issue of the Law The interpretation of this contentious issue started before Paul s letters and found its way into them by his citing how others perceived of his theology and in Paul rendering rumors and criticism and also interacting with them To this reception oriented perspective belong also punitive actions taken against Paul by synagogues As a reception of Paul Acts is included leaving a more complex picture than argued by advocates of Paul within Judaism Thus Karl Olav Sandnes uncovers the first interpretation or reception of Paul s view on Torah It is limited in its scope but provides a critical and necessary view on common trends in Pauline scholarship Paul s decentering of the Torah was considered endangering for morality for Jews and Gentiles alike Perceptions of Paul s theology must be accounted for in Pauline studies *Disinformation* Rémi Kauffer, 2001 Manipulating scientific and professional opinions destabilizing commercial enterprises misleading the media and confusing the public disinformation is back The techniques honed during the Cold War are now weapons in a merciless industrial and commercial struggle between the U S and Europe Boeing and Airbus the oil companies and the medical industries are just three of the major theaters of operation Welcome to Manipulation com Kauffer sees the Internet as the ideal tool for anyone with an axe to grind where information true or false can circulate without any control *Hatred in Print* Luc Racaut, 2017-05-15 Catholic polemical works and their portrayal of Protestants in print in particular are the central focus of this work In contrast with Germany French Catholics used printing effectively and aggressively to promote the Catholic cause In seeking to explain why France remained a Catholic country the French Catholic response must be taken into account Rather than confront the Reformation on its own terms the Catholic reaction concentrated on discrediting the Protestant cause in the eyes of the Catholic majority This book aims to contribute to the ongoing debate over the nature of the French Wars of Religion to explain why they were so violent and why they engaged the loyalties of such a large portion of the population This study also provides an example of the successful defence of catholicism developed independently and in

advance of Tridentine reform which is of wider significance for the history of the Reformation in Europe **Vichy, Resistance, Liberation** Hanna Diamond, Simon Kitson, 2005-02-01 Bringing together key international scholars Vichy Resistance Liberation New Perspectives on Wartime France offers original insight into this critical period of modern France It shifts the focus away from straightforward political history to reflect the current interest in socio cultural aspects of the Second World War and breaks down traditional chronological barriers In seeking to understand war from a social perspective the contributors focus on individuals and communities Wars are moments which forever alter the emphasis of social expression Rumours emerge as a major aspect of daily life Wars are also periods offering new possibilities to individuals Several contributors explore the lives of previously little known individuals in Vichy France Paulette Bernge Daniel Gurin Georges Mauco Francois Perroux Other contributors emphasize some of the forgotten actors of the period most notably the anarchists Other contributors uncover new information about womens experience in Vichy France Vichy Resistance Liberation moves away from the trend of synthesis history and presents path breaking research and new trajectories of interest in the field The collection pays tribute to the work of H R Kedward the world renowned specialist on Occupied France *Blood in the City* Richard D. E. Burton, 2018-10-18 The Terror of 1793 94 the Paris Commune of 1871 the Dreyfus Affair explosions of violence punctuated French history from the start of the Revolution until the Liberation at the close of World War II The distinguished scholar Richard D E Burton here offers a stunningly original account of these outbursts concluding that recourse to political violence was not occasional and abnormal but rather the usual pattern in French history Instead of adhering to conventional chronological lines Blood in the City is structured topologically around a number of major Parisian sites of memory including Place de la Concorde Sacr Coeur and the Eiffel Tower For thirty years Burton has visited and revisited Paris criss crossing the streets on foot and lived with great nineteenth and twentieth century literary depictions of the city Drawing on historical literary visual anthropological and psychological sources he develops a wide ranging account of violence in modern French politics In so doing he provides powerful insights into political violence scapegoating the idea of sacrifice and the widespread French obsession with conspiracy Burton demonstrates that time and again the same basic scenario has been acted out on the streets of Paris one or more people would be singled out from the community and imprisoned exiled or more often subjected to violence by the crowd or the state In particular he explores how Catholicism in its extreme ultrareactionary form shaped the worldviews of Parisians and how the killing of a sacrificial victim came to be seen as a reenactment of the crucifixion of Christ *Worlds of Power* Stephen Ellis, Gerrie ter Haar, 2004 With Christian revivals including Evangelicals in the White House Islamic radicalism and the revitalisation of traditional religions it is clear that the world is not heading towards a community of secular states Nowhere are religious thought and political practice more closely intertwined than in Africa African migrants in Europe and America who send home money to build churches and mosques African politicians who consult diviners guerrilla fighters who believe that amulets can protect them from bullets

and ordinary people who seek ritual healing all of these are applying religious ideas to everyday problems of existence at every level of society Far from falling off the map of the world Africa is today a leading centre of Christianity and a growing field of Islamic activism while African traditional religions are gaining converts in the West One cannot understand the politics of the present without taking religious thought seriously Stories about witches miracles or people returning from the dead incite political action In Africa religious belief has a huge impact on politics from the top of society to the bottom Religious ideas show what people actually think about the world and how to deal with it Ellis and Ter Haar maintain that the specific content of religious thought has to be mastered if we are to grasp the political significance of religion in Africa today but their book also informs our understanding of the relationship between religion and political practice in general
