*Shared Stories, Rival Tellings* Robert C. Gregg, 2015-08-05 Judaism Christianity and Islam are considered kindred religions holding ancestral heritages and monotheistic belief in common but there are definitive distinctions between these Abrahamic peoples Shared Stories Rival Tellings explores the early exchanges of Jews Christians and Muslims and argues that their interactions were dominated by debates over the meanings of certain stories sacred to all three communities Robert C Gregg shows how Jewish Christian and Muslim interpreters artists as well as authors developed their unique and particular understandings of narratives present in the two Bibles and the Qur'an Gregg focuses on five stories Cain and Abel Sarah and Hagar Joseph and Potiphar's Wife Jonah and the Whale and Mary the Mother of Jesus As he guides us through the often intentional variations introduced into these

shared stories Gregg exposes major issues under contention and the social intellectual forces that contributed to spirited and sometimes combative exchanges among Jews Christians and Muslims Offering deeper insight into these historical moments and their implications for contemporary relations among the three religions Shared Stories Rival Tellings will inspire readers to consider and reconsider the dynamics of traditional and current social religious competition

**25 Stories to feed your mind** Ehsan Havazadeh, Like our body our mind needs to be fed and enriched Don t let your mind starve and for the price of a coffee feed your mind with 25 moral stories These stories can help you gain a better understanding of your surrounding world and lead to living a better life 25 Stories to feed your mind reflects on the book Masnavi Manavi written by Rumi Rumi was a poet author and philosopher who lived in the 13th century The book Masnavi Manavi is one of the works of this powerful author whose mystical and moral themes are conveyed within instructive stories presented in the form of poetry This book is a selection of Masnavi Manavi stories in poetry that I have digested and translated this book to English as fluent prose At the end of each story is a brief reflection These contain observations from other books written about Rumi s work as

well as my interpretations of the stories It should be noted that some points have been added in the descriptions of the stories that may not have been considered by Rumi but I mentioned them in the description of stories and hope they are useful to my readers The book Masnavi Manavi has deep moral and mystical meanings and Rumi has tried to convey them like a capable teacher In this book I have only considered the basic level of these concepts and have tried to reduce the complexity and depth of the content as much as possible My goal is to provide an easy read so that a greater audience can become acquainted with this ethics instructor Rumi s ability to bring influential points to life in the form of stories helps us to memorize these moral concepts more quickly and to recall them more easily when needed This book s illustrations can also help to memorize and recall the stories from your visual memory The illustration method can help to remember the stories faster than other books There are some hidden points in this book Intentionally I didn t try to clarify so the reader has the opportunity to research and find the intentions Also some stories have open end or not fully described to let the reader research or decide about conclusions I hope my efforts are entertaining and informative for you

*Studies in Islamic Civilization* Ahmed Essa, Othman Ali, Othman Ali, 2010-01-01. *Studies in Islamic Civilization* draws upon the works of Western scholars to make the case that without the tremendous contribution of the Muslim world, there would have been no Renaissance in Europe. For almost a thousand years, Islam was arguably one of the leading civilizations of the world, spanning a geographic area greater than any other. It eliminated social distinctions between classes and races, made clear that people should enjoy the bounties of the earth provided they did not ignore morals and ethics, and rescued knowledge that would have been lost if not forever, then at least for centuries. The genius of its scholars triggered the intellectual tradition of Europe, and for over seven hundred years, its language, Arabic, was the international language of science. Strange then that its legacy lies largely ignored and buried in time. In the words of Aldous Huxley, "Great is truth, but still greater from a practical point of view is silence about truth." By simply not mentioning certain subjects, propagandists have influenced opinion much more effectively than they could have by the most eloquent denunciations. *Studies in Islamic Civilization* is a compelling attempt to redress this wrong and restore the historical truths of a golden age that ushered in the Islamic renaissance and, as a by-product, that of the West. In doing so, it gives a bird's-eye view of the achievements of a culture that at its height was considered the model of human progress and development.
