Transcultural Poetics Yifeng Sun,Dechao Li,2023-02-09 This book examines many facets of transcultural poetics in the English translation of Chinese literature from 12 different expert contributors Translating Chinese literature into English is a special challenge There is a pressing need to overcome a slew of obstacles to the understanding and appreciation of Chinese literary works by readers in the English speaking world Hitherto only intermittent attempts have been made to theorize and explore the exact role of the translator as a cultural and aesthetic mediator informed by cross cultural knowledge awareness and sensitivity Given the complexity of literary translation sophisticated poetics of translation in terms of literary value and aesthetic taste needs to be developed and elaborated more fully from a cross cultural perspective It is therefore necessary to examine attempts to reconcile the desire for authentic transmission of Chinese culture with the need for cultural mediation and appropriation in terms of the production and reception of texts subject to the multiplicity of constraints in order to shed new light on the longstanding conundrum of Chinese English literary translation

by addressing Chinese literature in the multiple contexts of nationalism cross cultural hybridity literary untranslatability the reception of translation and also world literature The book will be of great interest to students and scholars of translation studies Chinese literature and East Asian studies Scenes for Mandarins Cyril Birch,1999-04 Ming drama represents the classical Chinese theatre at its most mature Between 1368 and 1644 more than 400 playwrights produced over 1500 plays ranging from one act skits to works with 50 scenes or more As a performing art Ming theatre includes polished singing enchanting music fantastic plotting and intricate choreography **Area Bibliography of China** Richard T. simmer Julia Lovell's comprehensive study of China's obsession spans the twentieth century and taps directly into the key themes of modern Chinese culture national identity international status and the relationship between intellectuals and politics The intellectual preoccupation with the Nobel literature prize expresses tensions inherent in China's move toward a global culture after the collapse of the Confucian world view at the start of the twentieth century and particularly since China's re entry into the world economy in the post Mao era Attitudes toward the prize reveal the same contradictory mix of admiration resentment and anxiety that intellectuals and writers have long felt toward Western values as they struggled to shape a modern Chinese identity In short the Nobel complex reveals the pressure points in an intellectual community not entirely sure of itself Making use of extensive original research including interviews with leading contemporary Chinese authors and critics *The Politics of Cultural Capital* is a comprehensive up to date treatment of an issue that cuts to the heart of modern and contemporary Chinese thought and culture It will be essential reading for scholars of modern Chinese literature and culture globalization post colonialism and comparative and world literature

The Uses of Literature Perry Link, 2021-03-09 Why do people in socialist China read and write literary works Earlier studies in Western Sinology have approached Chinese texts from the socialist era as portraits of society as keys to the tug of war of dissent or more recently as pursuit of pure art *The Uses of Literature* looks broadly and empirically at these and many other uses of literature from the points of view of authors editors political authorities and several kinds of readers Perry Link author of *Evening Chats in Beijing* considers texts ranging from elite misty poetry to underground hand copied volumes shouchauben and shows in concrete detail how people who were involved with literature sought to teach learn enjoy explore debate lead control and resist Using the late 1970s and early 1980s as an entree to the workings of China's socialist literary system the author shows how that system held sway from 1950 until around 1990 when an encroaching market economy gradually but fundamentally changed it In addition to providing a definitive overview of how the socialist Chinese literary system worked Link offers comparisons to the similar system in the Soviet Union In the final chapter the book seeks to explain how the word good was used and understood when applied to literary works in such systems Combining aspects of cultural and literary studies *The Uses of Literature* will reward anyone interested in the literature of modern China or how creativity is affected by a socialist literary system
