Running and Being George Sheehan, 1984-05-15 Running & Being George Sheehan, 2014-04-01 A New York Times bestseller for 14 weeks in 1978 *Running Being* became known as the philosophical bible for runners around the world More than thirty years after its initial publication it remains every bit as relevant today Written by the late beloved Dr George Sheehan *Running Being* tells of the author's midlife return to the world of exercise play and competition in which he found a world beyond sweat that proved to be a source of great revelation and personal growth But *Running Being* focuses more on life than it does specifically on running It provides an outline for a lifetime program of fitness and joy showing how the body helps determine our mental and spiritual energies Drawing from the words and actions of the great athletes and thinkers throughout history Sheehan ties it all together with his own philosophy on the importance of fitness and sport as well as his knowledge of training injury prevention and race competition Above all Sheehan describes what it means to experience the oneness of body and mind of self and the universe In this Sheehan argues we have the power to discover the truth that makes men free **Mind over Matter: How Spirituality Changes Lives**, 2025-02-27

Stocco,2014-07-06 The saddest people in the world are those that have been brought as far as life can take them in the evolution of their individuality because the longing in their soul for wholeness and singleness of self cannot be satisfied by life and one does not know what to do to fill the hollow in their soul and be the person they are destined to be like my high school hero Ernest Hemingway No matter how much life he experienced he never seemed to get enough of it like marlin fishing in the Gulf Stream which so tested his manhood that he had to prove himself over and over and over again and in the process winning trophies and adulation that fed his massive ego which in turn demanded more attention a never ending cycle that drove the great author to despair and suicide **Running in the Zone** Steve King,Dan Cumming,2006-09-01 Twenty

six runners ranging in age from 46 to 76 share their secrets motivations and experiences in the fields of running All are active runners and many presently hold world age class records Some have held world records and have achieved world level performances at the Olympics Commonwealth and European games But Running in the Zone isnt about super achievement it is about getting the most out the running experience regardless of age or even ability This book is for anyone interested in running and running related sports whether they are elite age class runners wanting to keep up performances or newcomers considering taking up running in their middle or even advanced years Many of the contributors didnt start running until they were over 40 and some didnt achieve their best personal performances until they were in their 50s You will meet men and women who have a life long interest in running as well as those who took it up as personal challenges All are inspiring in one way or another and have something valuable to teach not necessarily about running per se but rather personal satisfaction giving back through voluntarism and commitment to a goal or purpose The book was the idea of editors Steve King and Dan Cumming and has come together through Steves contacts in the world of running and Dans love of running and editorial ability to pull the best out of a story Both Steve and Dan have a long term relationship with the sport They both perceived

that a growing number of older runners are involved in the running and that Running in the Zone would answer many of the needs of this group of active men and women helping them to get the best out of one of the most fundamental of athletic endeavors For more information visit authors blog www.runninginthezone.ca
