Running On Empty Alberta After The Boom:

Running on Empty Andrew Nikiforuk, Sheila Pratt, Don Wanagas, 1987-01-01 **Working People in Alberta** Alvin Finkel, 2012 A political and economic analysis of the history of working people in Alberta **Government and Politics in Alberta** Allan Tupper, Roger Gibbins, 1992 Alberta's politics are changing in response to powerful economic social and political forces The contributors focus on developments since the election of the Progressive Conservatives in 1971 **From Miracle to Menace** David Yager, 2019-03-26 A miracle Coal oil and natural gas the carbon based fossil fuels that powered the Industrial Revolution and civilization's rapid advancement A menace Climate change has now convinced many that carbon emissions are the world's greatest challenge The necessity and benefits of decarbonizing the global industrial and energy complex are well articulated What is not explained is this will require the largest financial disruption in history affecting everyone and everything For over a century Alberta's massive carbon resources have supported Alberta and Canada financially helping make Canada the world's fifth largest oil and gas producer Carbon has been a major driver of prosperity employment and opportunity shaping the country we know today However climate change is creating enormous challenges for Alberta and Canada with no possible outcomes that will satisfy all stakeholders Alberta has become ground zero for the changes many demand but few are willing to pay for As the province demonstrates what carbon's future looks and feels like unless the rest of the world participates Alberta has become a needless sacrifice From Miracle to Menace explains how Alberta came to be the enormity of the planned financial dislocation and how Alberta and Canada can meet the climate challenge without committing economic suicide **Challenging Legitimacy at the Precipice of Energy Calamity** Debra J. Davidson, Mike Gismondi, 2011-08-30 Human history has often been described as a progressive relinquishment from environmental constraints Now it seems we have come full circle The ecological irrationalities associated with industrial societies have a lengthy history and our purpose in the proposed book is not to catalogue this litany of wrongs Rather this book is about political responses to global environmental crisis at a crucial turning point in history by focusing on the political discourses surrounding the tar sands in Alberta Canada **Second Promised Land** Harry H. Hiller, 2009-05-01 Combining statistical analysis and ethnographic study Harry Hiller uncovers two waves of immigration to Alberta His innovative approach begins with the individual migrant and analyzes the relocation experience from origin to destination Through interviews with hundreds of migrants Hiller shows that migration is complex and dynamic shaped not just by what Alberta offers but also prompted by a process that begins in the region of origin which makes migration possible and helps determine whether migrants stay or return home By combining a social psychological approach with structural factors such as Alberta's transition from a regional hinterland province to its emerging role in the global system discussions of gender the internet and folk culture Second Promised Land provides a multi dimensional and deeply human account of a contemporary Canadian phenomenon **Faculty of Nursing on the Move** Geertje Boschma, 2005 Faculty of Nursing on the Move

provides a historical analysis of the Faculty of Nursing at the University of Calgary in contrast and comparison to the broader evolution of academic nursing in Canada It addresses how the faculty has responded to important social trends and changes in health care policy and helps the reader to understand contemporary nursing issues Starting with the dramatic changes in health care policy after the Second World War it establishes the role of nursing education as pivotal to a growing health care industry The book then moves on to describe the challenge of developing an identity for an academic unit within the larger academic and health care structure This book will be of particular interest to anyone involved in women s studies as it represents a case study for broader women s issues within an academic environment **Edmonton In Our Own Words**

Linda Goyette,Carolina Jakeway Roemmich,2005-04-18 Linda Goyette and Carolina Roemmich have tapped Edmonton s collective memoir through the written record the spoken stories and the vast silences All of the people who ever lived at this bend in the North Saskatchewan took part in creating the city we know as Edmonton Through traditional Indigenous stories about the earliest travellers along the bend in the river diaries archival records and letters of 19th century inhabitants and the recollections of living residents who talk about the emerging city Edmonton s history is told using the words and stories of the people who have called this city home Citizens with diverse viewpoints speak for themselves describing important events in Edmonton s social political and economic development Foreword by Keith Turnbull The official publication of the City of Edmonton s Centennial **Edmonton In Our Own Words** includes many never seen before photographs from private collections historic maps and a timeline of Edmonton s history Imagine a conversation between Edmonton s past inhabitants and its living citizens What would we tell the rest of the world about our place on the map What stories would we tell with tears in our eyes or laughter or pride In **Edmonton In Our Own Words** experience the personal stories of eyewitnesses and descendants explaining arguing crying scolding laughing and interrupting one another in a city s evolving conversation with itself as Edmonton celebrates its past and future The authors tap Edmonton s collective memoir through written records and spoken stories All those who ever lived at this bend in the North Saskatchewan took part in creating the city we know as Edmonton Citizens with diverse viewpoints speak for themselves describing important events in the city s social political and economic development **Developing Alberta's Oil Sands** Paul Anthony Chastko,2004 Alberta s oil sands represent a vast and untapped oil reserve that could reasonably supply all of Canada s energy needs for the next 475 years With an estimated 300 billion barrels of recoverable oil at stake the quest to develop this natural resource has been undertaken by many powerful actors both nationally and internationally Using research that integrates the economic political scientific and business factors that have been influential in discovering and developing the sands this book provides a comprehensive history of the oil sands project and a window on the nature of the complex relationships between industry government and transnational players This book is the first comprehensive volume that examines the origins and development of the oil sands industry over the last century *Mavericks* Aritha Van Herk,2010-01-12 The fifth title in our provincial histories series

Mavericks is an idiosyncratic and episodic history of what is arguably Canada's most unconventional province. From mapmakers to ranchers, Stampede Wrestling to Stockwell Day, acclaimed writer Aritha van Herk brings the drama and combative beauty of this irascible province to stunning life. van Herk's portrait of her home province embraces all its extremes, from deadly and spectacular weather to dinosaur graveyards and from oil gushers and geysers to barnstorming social reformers and political haymakers. Bronco riders of boom and bust, Alberta's people are a beguiling mixture of opinionated extremists, hardy pioneers and gentle sinners. Alberta is a province that most Canadians simply don't understand, the province most Canadians love to hate. It is regarded as a land of reckless redneck and ignorant individualists. But it is also the province where the Famous Five fought the landmark Person's Case, giving Canadian women the same status as men in the eyes of the law, a province that truly believes in free speech. Albertans tolerate in their midst people whose extreme views on any manner of subjects would make them outcasts elsewhere. And Albertans practice the creed of western neighbourliness, giving assiduously to charity and always lending a hand where help is needed. They are a tough, tender bunch, squinting into the wind of determined difference. If you're an Albertan, you'll recognize yourself and your home in this book. If you're not an Albertan, this book will be an education for you. Mavericks will open your eyes to the real Alberta as she was and is.
