Development in Asia Derrick M. Nault, 2008 Development is one of the most ubiquitous yet least understood concepts of our age It is something all governments claim to be engaged in and is considered desirable by scholars activists policymakers and laypeople alike Yet it is also a highly contested term For some development is simply a matter of economic growth Others maintain that it must entail improving life expectancy literacy education levels and access to resources Others yet disillusioned by the results of development initiatives have rejected development altogether equating it with a self serving aid industry that entraps the poor in a vicious cycle of dependency Still critics argue these post development theorists merely replicate earlier doctrines of development and have themselves become part of the problem they wish to transcend This book a collection of works by scholars of development examines the theory and practice of development and its implications and varied meanings in Asian contexts It attempts to understand development both in its objective and constructivist senses That is it examines how societies and nations have developed over time and how leaders experts and governments have attempted to shape these same societies and nations It also analyzes development in civil society and how non state actors have conceived participated in and been affected by the process Has true development been occurring in Asia Is it possible to direct development How are real people affected by development Should the concept of development be retained or discarded These are a few key questions covered in this book

Beyond Microfinance Mario B. Lamberte, 2006 V 2 on CD ROM includes Rural finance in Azerbaijan Rural finance in Kazakhstan Rural finance in Kyrgyz Republic Rural finance in Mongolia Rural finance in Tajikistan Rural finance in Uzbekistan

The Microfinance Revolution Marguerite S. Robinson, 2002 Microfinance is the method whereby financial services and credit is made available to the economically active but low income people of developing countries This book focusses on three key aspects of the phenomenon 1 the shift from government and donor subsidized credit delivery systems to self sufficient sustainable microfinance institutions 2 the results on the ground on the way in which microfinance helps people expand and diversify their enterprises increase their incomes raise their living standards and those of their families and boost their self confidence 3 the theoretical frameworks that had previously impeded the microfinance revolution with suggestions for their improvement
