Homelessness Neil Larry Shumsky,2012-01-16 This book presents an unflinching investigation of homelessness in the United States a problem that has been with us since the arrival of the first English settlers nearly 400 years ago The terms historically used to describe them include bums hoboes migrants street people transients tramps and vagrants Just as varied as the words we have used to describe them are the reasons many people have found themselves living in the land of opportunity without permanent residence The book considers homelessness and its distinctive character in three periods of American history the era of tramps and hoboes in the late 1800s early 1900s the era of transients and migrants in the 1930s and the era of homeless and street people in the last 40 years It clarifies the multiple meanings of the word homeless today and demonstrates that homelessness is a symptom of more than one problem leading to confusion about the issue of homelessness and hampering attempts to reduce its occurrence Author Neil Larry Shumsky PhD also postulates that the treatment of homelessness in England before the colonization of North America laid the foundation of pervasive American attitudes and practices *The Gypsy Debate* Joanna Richardson,2017-02-13 Jo Richardson explores the extent to which modes of discourse reflect antipathy towards gypsies and travellers and control and shape the treatment of this minority group by the rest of society The focus is housing policy but her discussion has a wide application

Robert Nadler, 2014-10-08 In post industrial societies more and more people earn an income in creative knowledge work a highly flexible labour market segment that demands a geographically mobile workforce Creative knowledge work is based on an understanding of language culture and symbolic meanings This can best be obtained through local and national embeddedness Yet this necessity for embeddedness stands in contrast to the demand in geographical mobility How is this contradiction solved by individuals What new forms of place attachment does this bring about This book introduces a showcase of 25 multilocal creative knowledge workers who live in different countries at the same time It investigates how continuous mobility becomes part of their lifeworld and how it changes their feelings of belonging and practices of place attachment Applying an innovative methodological mix of social phenomenology hermeneutics and mental mapping this book takes a detailed look at biographies and the role of places in mobile lifeworlds Plug Play Places brings forth the idea that places have to be understood as individual items which are configured and then plugged into the system of the own lifeworld They can be played without great effort once an individual needs to make use of them This new type of place attachment is a form of subjective standardization of place which complements the well known models of objective standardization of places Plug Play Places is relevant for scientists who deal with mobility and its impact on individual lifeworlds with transnational multilocality and with flexibilized labour markets Furthermore the book provides a detailed qualitative perspective which can enrich the explanations of quantitative research in the same field It is an interesting reading also for practitioners engaged in urban planning housing and real estate development Robert Nadler holds a doctoral degree in Urban and Local European Studies from the University of Milan Bicocca He is a researcher at the Leibniz Institute for Regional Geography and published on creative industries multilocality and labour mobility **Education and the Global Rural** Barbara

Pini, Relebohile Moletsane, Martin Mills, 2017-10-02 This edited collection challenges the urban centric nature of much feminist work on gender and education The context for the book is the radical reconfiguration of rural areas that has occurred in recent decades as a result of globalisation From a range of diverse national contexts including Kenya and South Africa Australia and Canada and the United States and Pakistan authors explore the intersections between masculinity femininity and rurality in education In recognition of the heterogeneity of categories such as rural girl and rural boy they attend to how educational exclusions can be magnified by differences in relation to social locations such as class race or sexuality Similar critical insights are brought to bear as authors examine what it means to be a male or female teacher in rural environments Contributors draw on data ranging from contemporary feature films to historical materials along with detailed ethnographic work and participatory approaches to produce a compelling narrative of the need to understand education as experienced by those who are not part of the urban majority This book was originally published as a special issue of Gender and Education **Welfare Reform in Rural Places** Paul Milbourne, Terry Marsden, 2010-03-30 Intends to

Ndofirepi, 2020-12-12 This book explores rurality and education in sub Saharan Africa through a lens of social justice The first in a two volume project this book explores the possibilities and constraints of rural social justice in diverse educational contexts how should rurality be defined How does education shape and reshape what it means to be rural Drawing chapters from a diverse range of contributors in sub Saharan Africa the two volumes are underpinned by a robust social justice approach to rural schooling and its intersections with access gender colonialism social mobility and disability Ultimately these volumes reflect the need to shift conceptions of rurality from colonial and conservative stereotypes to an appreciation of rurality as locations in space and time with their own unique attributes and opportunities Harnessing indigenous African concepts of justice to open up conversations into teaching and knowledge production in higher education this book will be of interest to scholars of rurality and education as well as wider discussions on decolonising the academy **Rural Poverty** Paul Milbourne, 2004-08-19 This book brings to light important issues which are often ignored that the social effects of poverty are acute in rural areas Milbourne examines the effects of poverty on issues such as social exclusion in rural areas

Education Diane Reay, Carol Vincent, 2016-04-08 Theorizing Social Class and Education presents a selection of writing on class analysis within sociology of education as it has evolved over the last decade both in the UK and internationally Moving from a narrow focus on class position and categorisation to a much broader view on behaviours attitudes identities and practices the contributors explore and theorize the ways in which particular individuals develop their perspectives and understandings of the social world and the role education plays in shaping these This book was originally published as a special issue of the British Journal of Sociology of Education
