Woolcock,2008 Brazil is a country of sharp disparities The gap between the richest and the poorest citizens is one of the largest in the world Inequality in Brazil is well known but its low mobility is not Until now few studies have sought to investigate how forms of social exclusion constrain socioeconomic mobility Why do particular groups remain excluded and trapped in poverty for generations What do Brazilians themselves think about income inequality and social mobility This study explores these issues provides a set of options to redress them and promotes a national dialogue for action In addi      **Rural Poverty Alleviation in Brazil** Weltbank,2013 This report finalized in March 2001 constitutes a step toward the objective of designing an integrated strategy for rural poverty reduction in Brazil The report contains an updated and more detailed profile of the rural poor in the northeast NE and southeast SE of Brazil identifies key determinants of rural poverty in these regions and proposes a five pronged strategic framework in which to couch a set of integrated policies that could effectively help to reduce rural poverty in Brazil This tentative set of policy options was identified via an analysis of rural poverty determinants complemented with an evaluation of relevant current public programs and six in depth thematic studies that bear on critical components of the proposed integrated policy approach aimed at reducing rural poverty in the NE and SE of Brazil 1 the dynamics of the Brazilian small farm sector 2 rural labor markets 3

especially development that favors the poor It examines several broad questions How has agriculture changed in developing countries in the past 20 years What are the important new challenges and opportunities for agriculture Which new sources of agricultural growth can be captured cost effectively in particular in poor countries with large agricultural sectors as in Africa How can agricultural growth be made more effective for poverty reduction How can governments facilitate the transition of large populations out of agriculture without simply transferring the burden of rural poverty to urban areas How can the natural resource endowment for agriculture be protected How can agriculture's negative environmental effects be contained This year's report marks the 30th year the World Bank has been publishing the World Development Report **Beyond the**
