## **Rural Reminiscences:**

The History and Antiquities of Cleveland John Walker Ord, 1846      **Rural Rhymes and Sketches in East Lothian** James Lumsden, 1885      *Rural Reminiscences* Kenneth Hassebrock, 2002-09 Rural Reminiscences is a poignant record of one family's survival during depressed economic times. It also details the management of a highly diversified farm operation that was changing from horsepower on the hoof to under the hood. It explains and describes the operation of farm machinery powered by draft horses and the frustrations farmers experienced as they tried to adapt to the internal combustion engine.

**Pedestrian and Other Reminiscences at Home and Abroad, with Sketches of Country Life** Robert Colton, 1846 Letters written during a walking tour of France      **The Farm at Holstein Dip** Carroll Engelhardt, 2012-08-15 Carroll Engelhardt brings us into the world of his fourth generation farm family who lived by the family and faith based work ethic and concern for respectability they inherited from their German and Norwegian ancestors. The Farm at Holstein Dip is both a loving coming of age memoir and an educational glimpse into rural and small town life of the 1940s and 1950s. Page 4 of cover

**Born in the Country** David B. Danbom, 2017-10-01 Updated edition. A balanced economic, social, political, and technological history of rural America. A splendid book rich with detail. Agricultural History Review. Through most of its history, America has been a rural nation largely made up of farmers. David B. Danbom's *Born in the Country* was the first and is still the only general history of rural America. Ranging from pre-Columbian times to the enormous changes of the twentieth century, the book masterfully integrates agricultural, technological, and economic themes with new questions about the American experience. Danbom employs the stories of particular farm families to illustrate the experiences of rural people. This substantially revised and updated third edition expands and deepens its coverage of the late twentieth and early twenty-first centuries, focuses on the changes in agriculture and rural life in the progressive and New Deal eras, as well as the massive shifts that have taken place since 1945. It adds new information about African American and Native American agricultural experiences, discusses the decline of agriculture as a productive enterprise and its impact on farm families and communities, explores rural culture, gender issues, agriculture and the environment, traces the relationship among farmers, agribusiness, and consumers. In a new and provocative concluding chapter, Danbom reflects on increasing consumer disenchantment with and resistance to modern agriculture, as well as the transformation of rural America into a place where farmers are a shrinking minority. Ultimately, he asks whether a distinctive style of rural life exists any longer in the United States. A delightful story tracing the social history of U.S. farmers. The book details the attitudes and social life of farm people, how they looked at themselves, and how the rest of society saw them. Forum
