

Rush Hour Of The Gods New Religions

Helen Hardacre

Rush Hour Of The Gods New Religions:

Legitimizing New Religions James R. Lewis, 2003 James R Lewis has written the first book to deal explicitly with the issue of how emerging religions legitimate themselves He contends that a new religion has at least four different though overlapping areas where legitimacy is a concern making converts maintaining followers shaping public opinion and appeasing government authorities The legitimacy that new religions seek in the public realm is primarily that of social acceptance Mainstream society's acknowledgement of a religion as legitimate means recognizing its status as a genuine religion and thus recognizing its right to exist Through a series of wide ranging case studies Lewis explores the diversification of legitimation strategies of new religions as well the tactics that their critics use to de legitimate such groups Cases include the Movement for Spiritual Inner Awareness Native American prophet religions spiritualism the Church of Christ Scientist Scientology Church of Satan Heaven's Gate Unitarianism Hindu reform movements and Soka Gakkai a new Buddhist sect Since many of the issues raised with respect to newer religions can be extended to the legitimation strategies deployed by established religions this book sheds an intriguing new light on classic questions about the origin of all religions

New Religions Eugene V. Gallagher, Lydia Willsky-Ciollo, 2021-02-15 A valuable resource for students and general audiences this book provides a unique global perspective on the history beliefs and practices of emergent faith communities new religious traditions and religious movements worldwide from the 19th century to the present *New Religions Emerging Faiths and Religious Cultures in the Modern World* provides insightful global perspectives on the emergent faith communities and new traditions and movements of the last two centuries Readers will gain access to the information necessary to explore the significance complexities and challenges that modern religious traditions have faced throughout their history and that continue to impact society today The work identifies the themes and issues that have often brought new religions into conflict with the larger societies of which they are a part Coverage includes new religious groups that emerged in America such as the Seventh day Adventists the Latter day Saints and the Jehovah's Witnesses alternative communities around the globe that emerged from the major Western and Eastern traditions such as Aum Shinrikyo and Al Qaeda and marginalized groups that came to a sudden end such as the Peoples Temple Heaven's Gate and the Branch Davidians The entries highlight thematic and broader issues that run across the individual religious traditions and will also help students analyze and assess the common difficulties faced by emergent religious communities

Japanese New Religions in the West Peter B. Clarke, Jeffrey Somers, 2013-10-18 An excellent and very timely update on an area seeing many recent developments **A World Full of Gods** John Michael Greer, 2023-05-30 An investigation into the underpinnings and superstructures of the Pagan world view Pagan religions have tended to be more concerned with practice than with theory and in a system that has no dogma no legislated doctrine that is as it should be Yet as the movement grows and matures it is inevitable that we will begin to think in a more abstract way about our models and systems John Michael Greer has provided a primer on the kinds of

ideas and themes that must be included in any discussion of the theology and philosophy of Neo pagan religions Much of the book takes shape in a dialogue with existing ideas in theology philosophy and comparative religion It looks to find a middle ground between too much and too little reference to the work of other scholars to find a comprehensible yet intellectually rigorous middle ground It aims to be part of a conversation that stretches out over the centuries Voices of polytheist spirituality have had little place in that conversation for many years but much of value has been said in their absence The rebirth of polytheism as a living religious tradition in the Western world will inevitably force a reassessment of much of that heritage and pose challenges to some of its most cherished assumptions Yet reassessment is not necessarily rejection and the traditions of modern polytheism are deeply enough indebted to legacies from the past that an attentive ear to earlier phases of the conversation is not out of place

Regulating Religion James T. Richardson, 2012-12-06 Regulating Religion Case Studies from Around the Globe presents through the inclusion of contributions by international scholars a global examination of how a number of contemporary societies are regulating religious groups It focuses on legal efforts to exert social control over such groups especially through court cases but also with selected major legislative attempts to regulate them As such this analysis falls within the broad area of the sociology of social control and more specifically legal social control a topic of great interest when studying how contemporary societies attempt to maintain social order The factual details about social and legal developments in societies where religion has been defined as problematic include Western and Eastern Europe Asia Oceania and the Americas This book will be of interest to researchers and students in the sociology of religion the sociology of law social policy and religious studies as well as policy makers

Japanese New Religions in Global Perspective Peter B. Clarke, Peter B. Clarke, 2013-11-05 Since the 1960s virtually every part of the world has seen the arrival and establishment of Japanese new religious movements a process that has followed quickly on the heels of the most active period of Japanese economic expansion overseas This book examines the nature and extent of this religious expansion outside Japan

Invented Religions Carole M. Cusack, 2016-05-06 Utilizing contemporary scholarship on secularization individualism and consumer capitalism this book explores religious movements founded in the West which are intentionally fictional Discordianism the Church of All Worlds the Church of the SubGenius and Jediism Their continued appeal and success principally in America but gaining wider audience through the 1980s and 1990s is chiefly as a result of underground publishing and the internet This book deals with immensely popular subject matter Jediism developed from George Lucas Star Wars films the Church of the Flying Spaghetti Monster founded by 26 year old student Bobby Henderson in 2005 as a protest against the teaching of Intelligent Design in schools Discordianism and the Church of the SubGenius which retain strong followings and participation rates among college students The Church of All Worlds focus on Gaia theology and environmental issues makes it a popular focus of attention The continued success of these groups of Invented Religions provide a unique opportunity to explore the nature of late post modern religious forms including the use of fiction as part of a

bricolage for spirituality identity formation and personal orientation

Religious Pluralism Giuseppe Giordan, Enzo Pace, 2014-07-08 This volume illustrates both theoretically and empirically the differences between religious diversity and religious pluralism It highlights how the factual situation of cultural and religious diversity may lead to individual social and political choices of organized and recognized pluralism In the process both individual and collective identities are redefined incessantly moving along the continuum that ranges from exclusion to inclusion The book starts by first detailing general issues related to religious pluralism It makes the case for keeping the empirical the normative the regulatory and the interactive dimensions of religious pluralism analytically distinct while recognizing that in practice they often overlap It also underlines the importance of seeking connections between religious pluralism and other pluralisms Next the book explores how religious diversity can operate to contribute to legal pluralism and examines the different types of church state relations eradication monopoly oligopoly and pluralism The second half of the book features case studies that provide a more specific look at the general issues from ways to map and assess the religious diversity of a whole country to a comparison between Belgian French views of religious and philosophical diversity from religious pluralism in Italy to the shifting approach to ethnic and religious diversity in America and from a sociological and historical perspective of religious plurality in Japan to an exploration of Brazilian religions old and new The transition from religious diversity to religious pluralism is one of the most important challenges that will reshape the role of religion in contemporary society This book provides readers with insights that will help them better understand and interpret this unprecedented transition

New Religions As Global Cultures Irving Hexham, Karla Poewe, 2018-02-12 Although the Great Anti Cult Crusade links new religious movements to dangerous cults brainwashing and the need for deprogramming Karla Poewe and Irving Hexham argue that many cults are the product of a dynamic interaction between folk religions and the teachings of traditional world religions Drawing on examples from Africa the United States Asia and Europe they suggest that few new religions are really new Most draw on rich if localized cultural traditions that are shaped anew by the influence of technological change and international linkages With the widespread loss of belief in biblical mythology in the nineteenth century new mythologies based on science and elements derived from various non Western religious traditions emerged leading to the growth and popularity of new religions and cults

New Religions in Global Perspective Peter Bernard Clarke, 2006 This volume provides a complete guide to the global impact and cultural significance of new religious movements

Value Politics in Japan and Europe François Foret, Airo Hino, 2021-12-24 This book explains the increasing importance of value politics in Europe and Japan shedding light on various arenas social values parties elections and politics public action private sector and law identity politics and religion media and public spheres It analyses how against different but commensurable backgrounds the rise of value politics alters or not the political game for which purposes and with which effects Applying both qualitative and quantitative methods from a wide range of primary and secondary sources the comparison is organized by joining skills from

experts of Japan and Europe and by systematizing a common analytical framework for the two cases As such it presents a revealing and unique analysis of the changing relationship between values and political behaviour in the two polities Beyond the comparison it also documents the opportunities and challenges underlying the interactions between Europe Japan and the rest of the world and the competition combination between different versions of modernity This book is of key interest to scholars and students of European studies and politics Asian politics studies Japanese studies politics and more broadly to comparative politics sociology cultural media studies and economics

Democracy and the New Religious Pluralism

Thomas Banchoff, 2007-06-07 Religious pluralism is everywhere in today's politics Increased immigration flows the collapse of communism and the globalization of communications technologies have all fostered a wider variety of religious beliefs practices and organizations within and across democratic societies This is true in both the United States and Europe where growing and diverse minority communities are transforming the political landscape As a result controversies over such things as headscarves and depictions of Mohammed are unsettling a largely secular Europe while a Christian majority in the US faces familiar questions about church state relations amidst unprecedented religious diversity Far from receding into the background religious language pervades arguments around established issues such as abortion and capital punishment and new ones such as stem cell research and same sex marriage In *Democracy and the New Religious Pluralism* leading scholars from multiple disciplines explore these dynamics and their implications for democratic theory and practice What are the contours of this new religious pluralism What are its implications for the theory and practice of democracy Does increasing religious pluralism erode the cultural and social foundations of democracy To what extent do different religious communities embrace similar or at least compatible ethical and political commitments By seeking answers to these questions and revealing religious pluralism as both a source of animosity and a potent force for peaceful engagement this book offers a revealing look at the future of religion in democratic societies

The Oxford Handbook of Religious Diversity Chad V.

Meister, 2011 This substantial volume of thirty three original chapters covers the full range of issues in religious diversity An indispensable guide for scholars and students its essays make novel contributions and are crafted by recognized experts who represent a wide variety of religious and philosophical perspectives and backgrounds

Marketplace of the Gods Larry

Witham, 2010-05-05 Two centuries after Adam Smith illuminated the workings of the marketplace a new movement among economists and social scientists is expanding his insights into a groundbreaking economics of religion Using cutting edge ideas from the behavioral sciences and a deep knowledge of religious history this new approach is making sense not only of past beliefs but of religion today In *Marketplace of the Gods* award winning journalist Larry Witham tells the inside story of this expanding economic approach to religion the puzzles it tries to solve the controversies it has stirred and the people who are making it happen He shows that the economic approach while evoking images of stock markets or accounting ledgers actually begins with a simple idea about human beings as rational actors judging costs and benefits in life Every life has

limits so human experience is a series of trade offs balancing resources to make choices for the best possible benefits As the economics of religion shows this model can be applied to the rich story of the human race and its gods Beginning with the individual the choices in religion shape households groups movements and entire religious economies of nations On the one hand this mixing of the profane and the sacred the economic and the religious is an exciting exchange of ideas between economics sociology psychology history and theology On the other it has spurred a lively protest Indeed for some the economic approach seems to transform our good angels into grubby consumers As Witham shows however the economic approach to religion has insights for everyone believers and skeptics alike He illuminates this approach in a volume rich with ideas history contemporary events and the insights of some of our sharpest modern day thinkers *The Encyclopedia of Cults, Sects, and New Religions* James R. Lewis, 2001-03 Surpassing the scope and the thoroughness of the first edition this new edition of *The Encyclopedia of Cults Sects and New Religions* is the most wide ranging and accessible resource on the historically significant and more obscure sinister and bizarre religious groups Including many entries by scholarly specialists this volume explains more than 1 000 diverse groups and movements from such well known sects as the Branch Davidians Aum Shinrikyo and Heaven s Gate to obscure groups like Ordo Templi Satanas Witches International and the Nudist Christian Church of the Blessed Virgin Jesus In addition to an exhaustive index and handy cross references the second edition includes over a hundred new topical entries on subjects relevant to understanding sectarian movements from snake handling and satanic ritual abuse to brainwashing and exorcism This book a must for all libraries and schools will endure as the first and only point of reference for researchers scholars students and anyone interested in fringe religious groups *Rational Choice Theory and Religion* Lawrence A. Young, 2016-04-29 Rational Choice Theory and Religion considers one of the major developments in the social scientific paradigms that promises to foster a greater theoretical unity among the disciplines of sociology political science economics and psychology Applying the theory of rational choice the theory that each individual will make her choice to maximize gain and minimize cost to the study of religion Lawrence Young has brought together a group of internationally renowned scholars to examine this important development within the field of religion for the first time **Come Out from among Them, and Be Ye Separate, Saith the Lord** William H. Brackney, Evan L. Colford, 2019-06-21 Believers Churches have their origin in the Radical Reformation of the sixteenth century Over the past 450 years the movement has included the Brethren Mennonites Hutterites various types of Baptists and the Restoration Movement While never a unified denominational structure the Believers Churches together have been characterized by a strong personal faith in Christ a call to discipleship and Christian activism a high view of the authority of Scripture and profession of faith in believers baptism The Believers Churches have represented their beliefs in various ecumenical settings missionary gatherings and theological conversations In the late 1950s representatives of the several Believers Churches began to meet in a series of conferences to explore their common views on doctrine history and ethics Topics at the

conferences have included baptism Lord's Supper the nature of the church and religious voluntarism In 2016 the 17th Believers Church Conference was held at Acadia University and sponsored by Acadia Divinity College The theme was The Tendency Toward Separationism Among the Believers Churches a key recurring characteristic This volume includes the papers presented at the conference and examines the theme from an immediate post Reformation perspective including Baptists Black Baptists Restorationists including the Churches of Christ the Hutterites Pentecostals the role of women and significantly the separationist tendency as it occurs in New Religious Movements Typologies and analyses are provided by leading historians theologians and social science specialists

On Understanding Japanese Religion Joseph Mitsuo Kitagawa, 2021-02-09 Joseph Kitagawa one of the founders of the field of history of religions and an eminent scholar of the religions of Japan published his classic book Religion in Japanese History in 1966 Since then he has written a number of extremely influential essays that illustrate approaches to the study of Japanese religious phenomena To date these essays have remained scattered in various scholarly journals This book makes available nineteen of these articles important contributions to our understanding of Japan's intricate combination of indigenous Shinto Confucianism Taoism the Yin Yang School Buddhism and folk religion In sections on prehistory the historic development of Japanese religion the Shinto tradition the Buddhist tradition and the modern phase of the Japanese religious tradition the author develops a number of valuable methodological approaches The volume also includes an appendix on Buddhism in America Asserting that the study of Japanese religion is more than an umbrella term covering investigations of separate traditions Professor Kitagawa approaches the subject from an interdisciplinary standpoint Skillfully combining political cultural and social history he depicts a Japan that seems a microcosm of the religious experience of humankind

Kurozumikyo and the New Religions of Japan Helen Hardacre, 2020-11-10 The description for this book Kurozumikyo and the New Religions of Japan will be forthcoming

[Historical Dictionary of Shinto](#) Stuart D. b. Picken, 2002-01-15 This dictionary contains entries which identify the principal historical and mythological names that are central to the Shinto tradition but also demonstrate the relationship of Shinto to Japanese culture Subjects covered include the relationship of Shi

Rush Hour Of The Gods New Religions Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Rush Hour Of The Gods New Religions PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant

information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Rush Hour Of The Gods New Religions PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Rush Hour Of The Gods New Religions free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Rush Hour Of The Gods New Religions Books

1. Where can I buy Rush Hour Of The Gods New Religions books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
