Hamlin,2017-07-03 This book puts German policy toward Romania and the German East into a global context One of the signal events of the twentieth century was Germany's effort to construct an empire in Europe modeled on the European experience outside Europe The turn to European empire resulted less from the dynamics of capitalist expansion than from a deep crisis in global political and economic order Confronted with the global economic and political power of the western allies the Germans turned to Eastern Europe to construct a dependent space tied to Germany as Central America was to the US The First World War transformed how Germans thought about international order empire and the nature of Romanians The domestic consequences of Germany's eviction from global markets authorized deep interventions in Romanian society to establish a pre eminent position for the German state inside Romania David Hamlin embeds occupation and war aims in economic concerns      **The European Commission of the Danube, 1856-1948** Constantin Ardeleanu,2020-02-25 The

**Palmerston and Metternich's Austria, 1830-1841** Jiří Vyčichlo,2025-03-03 This book aims to analyze the

international policies of Viscount Palmerston and Prince Metternich during the years 1830-1841. The focus of this work is on the pivotal role of British diplomacy in Europe during a period marked by the outbreak of the July Revolution, the dissolution of the United Kingdom of the Netherlands, the November Uprising, significant events in the German Confederation and the Papal States, as well as the civil wars in Portugal and Spain and the two Egyptian-Ottoman wars. The clash between Palmerston and Metternich stands out. Both men were at the forefront of European foreign relations and were symbols of two different political currents. This work aims to challenge the traditional view of Palmerston as a progressive statesman who defended the freedom of European liberalism and Metternich as a reactionary who opposed social modernization. The text highlights the motives behind British foreign policy which were centred on promoting national interests, often at the expense of cooperation among the Great Powers, in contrast to the Austrian Chancellor's efforts to foster the best possible relations within the Concert of Europe.

**A History of Eastern Europe 1740-1918** Ian D. Armour, 2012-11-22. A History of Eastern Europe 1740-1918: Empires, Nations and Modernisation provides a comprehensive, authoritative account of the region during a troubled period that finished with the First World War. Ian Armour focuses on the three major themes that have defined Eastern Europe in the modern period: empire, nationhood and modernisation, whilst chronologically tracing the emergence of Eastern Europe as a distinct concept and place. Detailed coverage is given to the Habsburg, Ottoman, German and Russian Empires that struggled for dominance during this time. In this exciting new edition, Ian Armour incorporates findings from new research into the nature and origins of nationalism and the attempts of supranational states to generate dynastic loyalties, as well as concepts of empire. Armour's insightful guide to early Eastern Europe considers the important figures and governments, analyses the significant events and discusses the socio-economic and cultural developments that are crucial to a rounded understanding of the region in that era. Features of this new edition include a fully updated and enlarged bibliography and notes, eight useful maps. Updated content throughout the text. A History of Eastern Europe 1740-1918 is the ideal textbook for students studying Eastern European history.

**Moldova** Rebecca Haynes, 2020-03-19. Moldova is a new nation-state with a long history. Despite only recently gaining independence following the fall of the Soviet Union in 1991, Moldova's roots stretch all the way back to the Principality of Moldavia established in 1359. After centuries toiling under Ottoman control and latterly Russian Imperial rule, the Moldovans briefly tasted independence in the early twentieth century before being annexed by the Soviet Union. In recent times, the Transnistrian Dispute has once again threatened the sovereignty and indeed the independence of Moldova, and this conflict remains unresolved today. For the first time in English, this book places the problems of contemporary Moldova in a long-term historical perspective. It argues that the Moldovans' complex relations with the Russians and the West are not simply the product of the Soviet era but have their roots in earlier centuries. Haynes contends that the Moldovan lands and Moldovan identity and culture have long been contested by the Roman and Byzantine Empires of antiquity, by the expanding Hungarian and Polish-Lithuanian kingdoms in the Middle Ages.

by the Ottoman Habsburg Russian and Soviet empires in more recent centuries and by the Romanian state The book provides a political and cultural history of the growth and development of the medieval Principality of Moldova the Principality's partition and Russian rule in Bessarabia from 1812 Bessarabia under Romanian rule in the inter war period Soviet Moldova and the independent Republic of Moldova **Entangled Histories of the Balkans - Volume One**, 2013-07-15 Modern

Balkan history has traditionally been studied by national historians in terms of separate national histories taking place within bounded state territories The authors in this volume take a different approach They all seek to treat the modern history of the region from a transnational and relational perspective in terms of shared and connected as well as entangled histories transfers and crossings This goes along with an interest in the way ideas institutions and techniques were selected transferred and adapted to Balkan conditions and how they interacted with those conditions The volume also invites reflection on the interacting entities in the very process of their creation and consecutive transformations rather than taking them as givens Contributors include Alexander Vezenkov Constantin Iordachi Raymond Detrez Ronelle Alexander Roumen Daskalov and Tchavdar Marinov **From Victory to Peace** Elise Kimerling Wirtschafter, 2020-12-15 In From Victory to Peace Elise Kimerling Wirtschafter brings the Russian perspective to a critical moment in European political history This history of Russian diplomatic thought in the years after the Congress of Vienna concerns a time when Russia and Emperor Alexander I were fully integrated into European society and politics Wirtschafter looks at how Russia's statesmen who served Alexander I across Europe in South America and in Constantinople represented the Russian monarch's foreign policy and sought to act in concert with the allies Based on archival and published sources diplomatic communications conference protocols personal letters treaty agreements and the periodical press this book illustrates how Russia's policymakers and diplomats responded to events on the ground as the process of implementing peace unfolded Thanks to generous funding from the Sustainable History Monograph Pilot and the Mellon Foundation the ebook editions of this book are available as Open Access OA volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](https://cornellpress.cornell.edu/cornell-open) and other Open Access repositories

**The Foreign Office Mind** T. G. Otte, 2013-08-22 With this pioneering approach to the study of international history T G Otte reconstructs the underlying principles, perceptions and unspoken assumptions that shaped British foreign policy between the death of Palmerston and the outbreak of the First World War Grounded in a wide range of public and private archival sources and drawing on sociological insights The Foreign Office Mind presents a comprehensive analysis of the foreign service as a knowledge based organization rooted in the social and educational background of the diplomatic elite and the broader political social and cultural fabric of Victorian and Edwardian Britain The book charts how the collective mindset of successive generations of professional diplomats evolved and reacted to and shaped changes in international relations during the second half of the nineteenth century including the balance of power and arms races the origins of appeasement and the causes of the First World War **Empty Signs, Historical Imaginaries** Ágoston Berecz, 2020-03-20 Set in a

multiethnic region of the nineteenth century Habsburg Empire this thoroughly interdisciplinary study maps out how the competing Romanian Hungarian and German nationalization projects dealt with proper names With particular attention to their function as symbols of national histories Berecz makes a case for names as ideal guides for understanding historical imaginaries and how they operate socially In tracing the changing fortunes of nationalization movements and the ways in which their efforts were received by mass constituencies he provides an innovative and compelling account of the historical utilization manipulation and contestation of names

**Storms over the Balkans during the Second World War** Alfred J. Rieber, 2022-03-10 In a new interpretation of the history of the Balkans during the Second World War Alfred J Rieber explores the tangled political rivalries cultural clashes and armed conflicts among the great powers and the indigenous people competing for influence and domination The study takes an original approach to the region based on the geography social conditions and imperial rivalries that spans several centuries culminating in three wars during the first half of the twentieth century Against this background Rieber focuses on leadership personified by Mussolini Hitler Stalin Churchill and Tito as the key to explaining events For each one the Balkans represented a strategic prize vital for the fulfilment of their ambitious war aims For the local forces the destabilization of the war offered the opportunity to reorder societies expel ethnic minorities and expand national borders Storms over the Balkans during the Second World War illustrates how the leaders of the external powers were forced to improvise their tactics and compromise their ideologies under the pressure of war and the competing claims of their allies and clients Neither the Axis nor the Allied camps were uniform blocs and deep divisions ran through the ranks of the resistance and those collaborating with the occupying powers These tensions contributed to the failure of all the participants in the struggle to achieve their aims The complexities of the wartime experiences help to explain the persistence of memories and unfulfilled aspirations that continue to haunt the region The study is based on extensive research in new sources in seven languages
