Long Return:

The Long Return Col. David O. Scheiding, USAF (Ret), 2016-10-06 The Long Return By Col David O Scheiding USAF RET Upon returning to the United States after serving in Vietnam Col David O Scheiding USAF RET and other Vietnam vets were met with a significant amount of antiwar anti military sentiments by the American Society toward them David reveals his reaction to the significant change in the general American attitude toward the Vietnam War The Long Return shows us his experiences as an Air Force pilot and his efforts to understand the change in the American attitude by looking at history and how and why the use of the military developed into a political tool by use by politicians This is the only way he has been able to adjust and accept the change and to finally be at peace with himself completing his long return from Vietnam

Bridge Maintenance, Safety, Management, Resilience and Sustainability Fabio Biondini, Dan M. Frangopol, 2012-06-21 Bridge Maintenance Safety Management Resilience and Sustainability contains the lectures and papers presented at The Sixth International Conference on Bridge Maintenance Safety and Management IABMAS 2012 held in Stresa Lake Maggiore Italy 8-12 July 2012 This volume consists of a book of extended abstracts 800 pp Extensive collection of revised expert papers on recent advances in bridge maintenance safety management and life cycle performance representing a major contribution to the knowledge base of all areas of the field Geomorphology in Deserts Ronald U. Cooke, Andrew Warren, 2023-11-15 This book examines the landforms soils and geomorphological processes of deserts which cover over 20% of Earth's land surface Despite their vastness and the significant body of literature on the topic deserts

remain underrepresented in comprehensive geomorphological surveys with notable exceptions like Walther's *Das Gesetz der Wiistenbildung* 1924 Cotton's *Climatic Accidents in Landscape Making* 1942 and Tricart and Cailleux's *Le Model des R gions S ches* 1961 Our study builds on these works incorporating our field experiences in deserts across North America South America North Africa and Pakistan while primarily drawing on English language research and emphasizing contemporary geomorphological systems at different scales By focusing on present processes shaping landforms and soils we have given less attention to regional chronologies of landform development a consequence of our selective approach The field of desert geomorphology still grapples with speculative theories such as parallel slope retreat and pervasive wind erosion which often overshadow empirical evidence We aim to provide grounded generalizations clarify contested ideas and pose meaningful questions to establish a baseline for future research hoping to contribute to a deeper understanding of the dynamic processes shaping desert landscapes This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1973 Active Investing in the Age of Disruption Evan L. Jones, 2020-04-09 Outperforming the market or alpha creation as it's sometimes called is very possible with the proper investment discipline and methodologies But the market beating strategies that will work today are not the same as those that worked in the past Central bank intervention and the accelerated pace of technology have caused an increase in the disruption of traditional business models across many industries These industry paradigm shifts combined with macro driven financial markets have created one of the toughest environments for active investment managers in history *Active Investing in the Age of Disruption* details the disruptive forces in the market today and how to navigate them to outperform This book discusses winning equity investment strategies with lofty goals of alpha creation Understanding the limits and potential of each unique investment methodology and portfolio strategy will allow you to generate higher returns Even when your luck runs out or the market works against you the ideas and disciplined approach in this book will keep you one step ahead of the market Understand the disruptive forces affecting the market today Discover equity investment strategies uniquely targeting alpha generation beating the market Understand which features of active investing need to be implemented and stressed from a risk perspective to outperform the market Learn which previously solid investment tenets may no longer hold true in the age of market disruption Hone the craft of active investing identify markets with the greatest profit potential hedge against strategy limitations and more It has been a very tough decade for active investment managers but this book will inspire you to think differently about risks and opportunity A deeper understanding of the forces affecting the market and a commitment to refining your investment process using the techniques in this book will help you step across the margin of error between under and outperforming **Learning Android Application Development** Raimon Rafols

Floods Giuseppe Rossi, Nilgun B. Harmanciogamalu, V. Yevjevich, 2012-12-06 Floods are natural hazards whose effects can deeply affect the economic and environmental equilibria of a region Quality of life of people living in areas close to rivers depends on both the risk that a flood would occur and the reliability of flood forecast warning and control systems Tools for forecasting and mitigating floods have been developed through research in the recent past Two innovations currently influence flood hazard mitigation after many decades of lack of significant progress they are the development of new technologies for real time flood forecast and warning based on weather radars and satellites and a shift from structural to non structural flood control measures due to increased awareness of the importance of protecting the environment and the

adverse impacts of hydraulic works on it This book is a review of research progress booked in the improvements of forecast capability and the control of floods Mostly the book presents the results of recent research in hydrology modern techniques of real time forecast and warning and ways of controlling floods for smaller impacts on the environment A number of case studies of floods in different geographical areas are also presented Scientists and specialists working in fields of hydrology environmental protection and hydraulic engineering will appreciate this book for its theoretical and practical content
