Big River, Little Fish Belinda Jeffrey,2011-04 The compelling and cinematic second novel from Belinda Jeffrey author of Brown Skin Blue Big River Little Fish is the highly anticipated second novel from Belinda Jeffrey Set in South Australia during the 1956 Murray River flood it tells the story of Tom Downs a boy trapped between his way of reading the world and the world s way of seeing him He lives in the town but likes it best down by Old Mother Murray talking to his best friend Hannah and helping the outcasts who live in the shacks on her banks But there s a big river coming and Tom feels like everything he loves and understands might be swept away and lost From the moment Tom Downs was born backwards the moment of his mother s death time has held him the wrong way round like he s caught inside a fractured story But the thing about the Murray River rising the thing about Tom s town flooding and the thing that takes him by surprise is not what Old Mother Murray takes away but who she brings back Big River Little Fish is a compelling tale of a boy growing up into manhood set against the dramatic and beautiful scenery of the Murray River in South Australia **The History of Esculent Fish** Roger North,2022-07-21 Roger North s The History of Esculent Fish presents a comprehensive foray into the historical significance breeding practices and pond construction techniques associated with a selection of edible fish North s meticulous prose delves into the nuances of various species including but not limited to the Barbel Carp Chub Cod Fish and Haddock offering insight into their culinary and ecological importance His literary style marries scientific precision with historical context alluding to the practicalities of pisciculture and the evolving relationship between humans and aquatic life The essay stands as a testament to early explorations in ichthyology within literature paving the way for future studies in marine biology and sustainable fishery management As an essayist of his time Roger North brings forth a unique perspective possibly drawn from personal interest or perhaps an academic venture into aquatic studies His narrative could have been influenced by the era s burgeoning enlightenment thought contributing to a systematic approach towards natural history Moreover his attention to species like the Trout and Whiting reflects both the societal tastes and the ecological knowledge of the period North s exposition likely emerges from a mix of scholarly research and a genuine predilection for the subject This

essay is recommended for those with a keen interest in the intersection of culinary arts environmental science and history North s work serves as an early cornerstone in fishery literature refreshing for historians and ecologists alike The readers will find The History of Esculent Fish an invaluable addition to their literary collections offering timeless insights into the preservation and enjoyment of aquatic biodiversity

Toxic Sexual Politics Melina Packer,2025-01-28 A bold expos of how the very foundation of toxicology has been contaminated by sexist and racist ideologies The first critical understanding of the field of toxicology from a feminist and antiracist perspective Toxic Sexual Politics asserts that the science of toxicants must be held accountable for the uneven distribution of toxic pollution along racial and sexual lines Drawing upon in depth interviews and extensive ethnographic and archival research including participant observations in toxicology classrooms conferences and laboratories Melina Packer urges environmental health advocates to place toxicant science within its masculinist militarist and eugenicist history Toxic Sexual Politics shows how the founding fathers of U S toxicology were ideologically aligned with the chemical industry inventing a science that could make chemicals safe as opposed to one that could adequately protect planetary health from toxicants hazards While many toxicologists today are critical of the chemical industry they continue to rely on the highly limited tools of toxicology as accurate measures of toxicity as do government regulators the courts and environmental advocates Unlike most critiques of the chemical industry and narratives of environmental health movements Toxic Sexual Politics refuses to take the science at face value By focusing on the sexist racist and ableist biases reinforced by toxicology Packer powerfully argues that this scientific discipline reproduces the very same white supremacist and heterosexist logics that generated environmental injustices in the first place The field of toxicology can explicitly confront chemical corporate power by building from queer feminist anti ableist and antiracist movements for environmental and reproductive justice

A Fish In the Swim of the World Ben Brown,2022-07-05 This is a book of memories Some of them are my own Some of them belong to others They are as true and as fallible as any memories distorted by time and distance and a writer s choice of words In the debut memoir that kickstarted a writing career that has spawned more than 20 books including many award winners Ben Brown writes of a quintessentially New Zealand way of living that may not change the world or even ripple its waters but is replete with meaning Gathered from the tobacco green valleys of the Motueka River where he grew up during the 1960s and 1970s Brown s memoir is rich with a sense of place of family The strands of his parents lives reach from Outback Australia and the hardship years of the Great Depression and World War II to the Waikato heart of the Kingitanga and a re emergent people to a time and place where tobacco was king and a small farm by a river was the sum of all ambition Each story each portrait resonates with the dignity warmth and understated humour of one of our finest poetic voices
