A Boy from Digboi - A Memoir Debasish Ghosh, 2022-07-19 When the idea of penning down my memories of a life varied across many facets first struck the author it was then little more than ticking off an item in a wish list Gradually this changed to be a more substantial effort to a journal of life a legacy of sorts to people who have made a difference to his life for better or worse When we think of human interactions and relationships covering bonds of love friendship hatred and indifference we soon realize that they are far more complex than the simple and deterministic laws of physics and chemistry What we know can only be understood through a multi dimensional function of time persona and many other unknown factors Over the last six decades the author has seen relationships change colour and shape form and strength not once but many times Does that make us chameleons in a sense No it is just that the human mind and heart resemble kaleidoscopes that keep generating different images even if exactly the same stimulus is given but at different points of time Image in
