E. B. Du Bois)* W. E. B. Du Bois, 2014-02-01 Black Reconstruction in America interprets the twenty years of Reconstruction from the point of view of newly liberated African Americans Though lambasted by critics at the time of its publication in 1935 Black Reconstruction has only grown in historical and literary importance In the 1960s it joined the canon of the most influential revisionist historical works Its greatest achievement is weaving a credible lyrical historical narrative of the hostile and politically fraught years of 1860 1880 with a powerful critical analysis of the harmful effects of democracy including Jim Crow laws and other injustices **Hyper Sexual, Hyper Masculine?** Brittany C. Slatton, Kamesha Spates, 2016-05-13 This book provides critical insights into the many often overlooked challenges and societal issues that face contemporary black men focusing in particular on the ways in which governing societal expectations result in internal and external constraints on black male identity formation sexuality and black masculine expression Presenting new interview and auto ethnographic data and drawing on an array of theoretical approaches methodologies Hyper Sexual Hyper Masculine explores the formation of gendered and sexual identity in the lives of black men shedding light on the manner in which these are affected by class and social structure It examines the intersecting oppressions of race gender and class while acknowledging and discussing the extent to which black men s social lives differ as a result of their varying degrees of cumulative disadvantage A wide ranging and empirically grounded exploration of the intersecting roles of race masculinity and sexuality on the lives of black men this volume will appeal to scholars across the social sciences with interests in race and ethnicity gender and sexuality social stratification and intersectionality **Congressional Record** United States. Nella Larsen and Toni Morrison In a provocative revision of African American literary history Balshaw examines the creation of an urban aesthetic and explores the links between the engagement with the city and fictional reconstructions of racial identity and race writing Focusing on the material culture of the city the visual sense of the urban environment the class dynamics of urban culture and the crucial importance of consumerism this study presents a critically astute challenging and very welcome new approach to a much studied area of contemporary American fiction *Official Gazette of the United States Patent and Trademark Office* ,1990 *Black Reconstruction in America* W. E. B. Du Bois,2017-07-12 After four centuries of bondage the nineteenth century marked the long awaited release of millions of black slaves Subsequently these former slaves attempted to reconstruct the basis of American democracy W E B Du Bois one of the greatest intellectual leaders in United States history evaluates the twenty years of fateful history that followed the Civil War with special reference to the efforts and experiences of African Americans Du Bois s words best indicate the broader parameters of his work the attitude of any person toward this book will be distinctly influenced by his theories of the Negro race If he believes that the Negro in America and in general is an average and ordinary human being who under given environment develops like other human beings then he will read this story and judge it by the facts adduced The plight of the white working class throughout the world is directly traceable to American slavery on which modern commerce and industry was founded Du Bois argues Moreover the resulting color caste was adopted forwarded and approved by white labor and resulted in the subordination of colored labor throughout the world As a result the majority of the world s laborers became part of a system of industry that destroyed democracy and led to World War I and the Great Depression This book tells that story *White Prescriptions?* Terence D. Fitzgerald,2015-11-17 For all the debates about black males and their role in American society there has been little attention to a dangerous and growing trend the overprescription of Ritalin and other behavioral drugs This book reveals how and why black males are disproportionately targeted and controlled by American schools in ways that hamper and endanger their educational success Fitzgerald shows how the government medical practitioners and the pharmaceuticals industry have facilitated this oppressive trend setting it against a larger historical backdrop of racism in American education *Global Science Fiction* Gary Westfahl,2025-06-18 Science fiction represents a diverse community of writers and readers that spans the entire world This collection provides a global tour of the genre with essays about Latin American European African Arabic Indian Japanese and Chinese science fiction providing insights about how writers around the world have explored and reinvigorated the genre Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S Buckell Lourenco Mutarelli Stanislaw Lem Masande Ntshanga Tawfiq Al Hakim Anil Menon and Cixin Liu The contributing scholars examine how national experiences have shaped these narratives which often differ strikingly from Anglo American science fiction An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to

Henderson, 2019-01-01 Studies the revolutionary theory of the Black Power Movement in the 1960s through 70s placing it within the broader social theory of black revolution in the United States since the nineteenth century The study of the impact of Black Power Movement (BPM) activists and organizations in the 1960s through 70s has largely been confined to their role as proponents of social change but they were also theorists of the change they sought In *The Revolution Will Not Be Theorized* Errol A. Henderson explains this theoretical contribution and places it within a broader social theory of black revolution in the United States dating back to nineteenth century black intellectuals These include black nationalists feminists and anti-imperialists activists and artists of the Harlem Renaissance and early Cold War era black revolutionists The book first elaborates W. E. B. Du Bois's thesis of the General Strike during the Civil War Alain Locke's thesis relating black culture to political and economic change Harold Cruse's work on black cultural revolution and Malcolm X's advocacy of black cultural and political revolution in the United States Henderson then critically examines BPM revolutionists theorizing regarding cultural and political revolution and the relationship between them in order to realize their revolutionary objectives Focused more on importing theory from third world contexts that were dramatically different from the United States BPM revolutionists largely ignored the theoretical template for black revolution most salient to their case which undermined their ability to theorize a successful black revolution in the United States This
